Quiet Campaign.

There does not seem to be much excitement in Borough politics, in fact about the only strife will be in West Ward, between Joseph Freindel, the Republican nominee for Council and A. M. Pennsylvania Insurance.

The annual report of the Insurance Department of the Pennsylvania Railroad system, just issued, shows that the Company's own employees extinguished 321 fires during 1909. These fires occurred on property valued at more than \$9,000,000, yet the loss from them amounted to only about \$20,000.

The Insurance Department's report derives added significance from the fact that during the past year additional equipment for extinguishing fires has been placed at available points. The Company's own organization for fighting fires has been further developed by special training of employees, and additional locomotives in yard service have been equipped with special apparatus for use in case of fire.

A circular is to be issued by the Insurance Department giving the causes of all fires on the Pennsylvania System East and West of Pittsburgh in 1909, in order that the employes may realize that their efforts to minimize losses from fires are appreciated, and further, that their attention may be called to the number of fires occurring from preventable causes.

During the year 1909 there were 929 fires on the entire system, involving a loss of only \$402,615, which was exceedingly small, comparatively, as the value of the property was more than \$260,000,000.

Forty fires, entailing a loss of \$11,079, started on adjacent property. Spontaneous combustion was responsible for a loss of \$10,315, from 21 fires. Two fires resulting from careless handling of lighted cigars, cigarettes and matches, caused a loss of \$60,395. Nine fires were due to tramps, with a loss to the Company of \$1,270, and 23 fires, with a loss of \$28,870, were of incendiary origin.

Delayed Attention Costs Money.
Your house wears out if not painted. It costs more to repair it than it costs to paint it. It don't cost much to paint with the L. & M. Paint, because 4 gallons of L. & M. Paint and 3 gallons of Linseed Oil makes seven gallons of ready-for-use paint at a cost of about \$1.30 per gallon. You can mix yourself. Thirty-five years use in every part of the United States proves it. Atlantic City & Pittsburgh Fence Tests, made by the Master Painters Association, prove it. Sold by Harry S. Lloyd, Emporium, Pa.
