By JULIA BOTTOMLEY.

OR the past two seasons a greater those designed for her mamma variety of shapes has been shown in children's hats than ever before. has been worn for so long by children, could not always please—from the fact that their patrons were look-

The past three seasons have shown an increasing fondness for them for grown-ups as well as children. In fact for the present, shapes for the

Felt, silk and velvet are the fabrics employed in making and trimming Milliners seem to have awakened to such hats. Ribbon and guille, small the fact that the beautiful "flat" which plumes and some flowers are the trim-

Hats with drooping brims have a more or less bonnet-like effect and are especially good for little misses.

The past three seasons have a folds of taffeta sewed to a cambric foundation, which is adjusted. foundation, which is adjusted to the underbrim. A scarf of the taffeta for laid in uneven plaits or folds is In terminated at the side with a flat knot and two ends. These are finished by miss are along the same lines as a tassel into which the silk is frilled.

Possible-Easy to Procure Artistic Effect.

It is well known that a north light

Every woman enjoys proper convenlences for dressing. One need not have extravagant furnishings, but they should be pleasant and attractive, as well as convenient.

matter how little it costs, if it is arranged simply and in graceful lines

the result will be artistic.

There are some rules to observe, and solid color-ivory, old rose, soft blue, silver, green-whatever will be harmonious with the general color effect of

If the walls are of one color throughout or in shades of a seif color, the design inconspicuous, then have flowered draperies and the effect will be pleasing. Figures everywhere without any surface of repose are distracting to the eye and unpleasant to live with.

THEATER BLOUSE.

Theater blouse of velvet, trimmed with a metal embroidery and motifs of metal passementerie. The plastror and under-sleeves are of tucked white auze, trimmed with applique lace.

Cobweb Veils.

One of the newest veils is of finest silken threads woven in spider web design scattered over the meshes of the veiling. In the center of each web is a tiny silken spider.

The effect is quite startling and the veiling has only been worn by ultra fashienable women here and in Lon-

Save the Stickpin.

If the end of a stickpin is under a lapel or inside the opening of the dress, anywhere that you can easily get at it, you will be in no danger of losing it if you will wind tightly about At a small-sized rubber band.

POSITION OF DRESSING TABLE RICHNESS IS THE KEYNOTE

Should Be Placed in North Window if No Limit as to Combinations of Materials Placed on Designers of Gowns.

The master builders of wonderful being diffused is more agreeable than the light from other points of the compass. For this reason a window to lovely fabrics, laces, metals, tissues, the light from other points of the season. Unlimited license is theirs, compass. For this reason a window to the north is best for the placing of a dressing table where there are other windows to furnish ventilation and of the season. Unlimited license is theirs, lovely fabrics, laces, metals, tissues, fur and jewels. Never before have there been such evening gowns, such blending of tolors, such combination

A new idea is to drape an overdress of chiffon velvet over a gown of satin, lace and metallic tissue. The velvet is hung from the shoulders, where it is arranged in narrow folds, is draped about the figure usually from Select suitable material as to tex-ture, material pretty as to color, no a jeweled ornament; it then falls in lustrous folds to form part of the train

A magnificent gown made in this one important one is this—if the walls manner was of all the vivid, intense are figured let the draperies be of a peacock tones. It was of green satin peacock tones. It was of green satin with low bodice and narrow, cap-like sleeves of gold tissue embroidered in emerald and sapphire crystals.

The draped overdress was of pea-cock blue chiffon velvet caught at the shoulders with gemmed cabochons of green and blue. It was then draped around the figure and held at the left hip with a jeweled ornament, falling away to the floor with the satin train of the gown.

The velvet was lined with satin of the same tone as the gown, which in ts entirety was of barbaric splendor.

Gray Beaver Hats.

The window of a smart New York illinery establishment filled with beaver hats in the newest shapes and of varied tones of gray from pearl to smoke which is so dark as to be almost seal brown.

These hats were trimmed each with a single full blown rose and foliage, silver and gold tissue, burnt orange and scarlet and crimson silk, and velvet being used in the making of the

The roses and their leaves were the entire trimming of these hats, and the simplicity of the trimming gave an air of distinct smartness to them.

Linen Napkin Holders.

Take two pieces of linen 9 inches long and 2½ inches wide. Through the center of one embroider any spray of flowers you prefer—daisies, violets, forget-me-nots, any small flow er and their leaves and stems-then baste the other piece of linen to this as a liring. Have one end square, the other pointed. Buttonhole around the edges a depth of 1/4 of an inch and mark in pencil so as to have it even. This will fasten the lining to the embroidered piece. In the pointed end place a tiny buttonhole, and at other In the pointed end end sew a small round pearl button.

Upstanding Brush

A very satisfactory substitute for the osprey is a brush of gold wire nearly as fine as thread.

gold ornament holds the wire threads at the base. This resembles an old-world bouquet holder in its cornucopia form.

The upstanding brush is used to give a military dash to fur toques, and is invading the realm of millinery with great success.

A NEW TOWN **EVERY WEEK**

AND A NEW SCHOOL EVERY SCHOOL DAY.

The above caption about represents the growth of Central Canada. The statement was made not long since by a railroad man who claimed to have made the remarkable discovery that such was the case. There is not a district of a fair amount of settle-ment in any of the three Provinces of Manitoba, Saskatchewan and Alberta, but has its school, and the railways have stations every seven or eight miles apart, around which group the towns, some large and some small, but each important to its own district. Schools are largely maintained by public funds and the expense of tuition is but a nominal sum.

The final returns of the grain production for Central Canada for 1909 is now in, and the figures show that the value of the crops to the farmers of that country is about 195 million dol-lars, as compared with 120 million last year. American farmers or those who have gone from the United States, will participate largely in these splendid returns, and these comprise those who have gone from nearly every State in the Union.

One of the many proofs that might be put forward showing the immense wealth that comes to the farmers of Central Canada is seen in the sunt that has been spent, during the past two or three months by the farmers who have for the time being ceased worrying over the reaper and the thresher, and are taking to enjoying themselves for two or three months. It is said that fifty thousand people of these Western Provinces spent the holiday season visiting their old homes. Most of these passengers paid forty and some forty-five dollars for the round trip. Some went to Great Britain, some to the Continent, others to their old homes in Eastern Canada, and many thousands went to visit their friends in the States. The amount paid alone in transportation would be upward of two million dollars. Some make the trip every years. It need not be asked, "Can they afford it?" With crops yielding them a profit of \$20 to \$25 per acre, and some having as much as twelve hundred or more acres, the question is answered. The Canadian Government Agents at different points in the States report that they have interviewed a great many of those who are now visiting friends in the different states, and they all express themselves as well satisfied, and promise to take some of their friends back with them. There is still a lot of free homestead land in splen-did districts, and other lands can be purchased at a reasonable price from railway and land companies.

WHERE IT WORKED.

While we were on our honeymoon I always spoke French to my husband, so that no one should understand us. "So you went to France, did you?"

BREAKS A COLD IN A DAY

And Cures any Cough that is Curable

Noted Physician's Formula.

This is said to be the most effective remedy for coughs and colds known to science. "Two ounces Glycerine; half ounce Concentrated Pine; Put these into half a pint of good whiskey and use in doses of tearpoonful to a table-spoonful every four hours. Shake bottle well each time." Any druggist has these ingredients in stock or will quickly get them from his wholesale house. The Concentrated Pine is a special pine product and comes only in half ounce vials each enclosed in an air tight case: But be sure it is labeled "Concentrated." This formula cured This formula cured hundreds here last winter.

He Asked Too Much. They had been engaged for exactly

17 seconds by the cuckoo clock. "Clara, dear," queried the happy youth, who had a streak of romance running up and down his person, "will you promise to love me forever?"

"I'd like to, George" replied the practical maid, "but I really don't expect to live so long."

Important to Mothers. Examine carefully every bottle of CASTORIA, a safe and sure remedy for infants and children, and see that it

6 to 14 days or money refunded. 500. One fisherman ought to believe the stories of another, but he seldom does.

WHY PEOPLE SUFFER.

Too often the kidneys are the cause and the sufferer is not aware of it. Sick kidneys bring backache and side pains, lameness and stiffness, dizziness, headaches, tired feeling, urinary

troubles. Doan's Kidtroubles. Doan's Kid-ney Pills cure the cause. Mrs. N. E. Graves, Villisca, Iowa, says: "I suf-fered from kidney trouble for years. The secretions were disordered there disordered, there

were pains in my back and swellings of the ankles. Often I had smothering spells. I had to be helped about. Doan's Kidney Pills cured me five years ago and I have been well since. They saved my life."

Remember the name—Doan's. For sale by all dealers. 50 cents a box. Foster-Milburn Co., Buffalo, N. Y.

A Real Catastrophe. Philip, aged four, is in the habit of going across the street to a neighbor's house for milk. One day in December he returned home with an empty bucket and a grave face. "We can't get any more milk," he announced in a tone weighty with the importance of his message. "The cow's dried up." And, as we started in surprise at him, he suddenly clinched the matter with an observation, evidently of his own: "They don't think that she'll thaw out till spring."—Deline-

What Resinol Accomplishes Is Truly

Wonderful.

I frequently have patients who are troubled with skin eruptions, and have taken occasion to recommend Resinol. and in some cases the cures have seemed miraculous, and had I not seen them both before and after, would scarcely have believed them true. One lady told me that she had spent over \$100 in various remedies, and was cured with one 50c jar of Resinol. It is truly a wonderful cure for eczema and other itching troubles.

\$125,000 net from 1200 acres grapes. \$15,000 from 22 acres peaches. \$3,200 from 20 acres raisins, in the San Joaquin Valley, California

A cow and an acre of alfalfa will earn \$120 a year in the San Joaquin Valley.

Grapes will yield from \$100 to \$300 per acre; peaches and apricots, \$150 to \$500;

while oranges will produce from \$250 to \$500, and in many instances more than \$1000 There are ten million arable and irrigable acres here. You still may buy

unimproved land for \$50 an acre.

Ten acres are enough to comfortably support a small family. Twenty acres afford a fine living, with money in the bank. Forty acres should make you rich.

Ten acres are enough to comfortably support a small family. Twenty acres afford a fine living, with money in the bank. Forty acres should make you rich.

You pay from one-fourth to one-third down, balance ensily can be paid for out of the crops.

Almost anything can be raised in the San Joaquin country—oranges and wheat, figs and apples, delicate grapes and hardy potatoes. Products of the temperate and semi-tropic zones flourish side by side.

Plenty of water for irrigation drawn from the near-by Sierra snows. It is easy for one to make a start. Land between the rows can be used, while orchard is young, for many profitable crops. The point is to make every square foot bear something.

What some farmers have done:
Frank Thomas, of Fresno, Cal. bodght twenty acres of land five years ago. He had but \$300 to start on. Today his place is paid for and he has an income of over \$2.000 a year.

William Shrayer, R. F. D. 7. Fresno, Cal., bought his first ten acres six years ago. Now owns sixty acres all paid for, and refuses \$12,000 for his place.

M. F. Tarpey, of Fresno, owns vine-tyard of 1.200 acres, from which he takes an annual profit of \$125,000.
On the Harold estate, twenty-two acres of peaches yielded a \$15,000 crop.
