

Before Congress met various insurgents were talking about an immediate effort to amend the rules and break the power of Speaker Cannon. They are less disposed now. Mr. Gardner, of Massachusetts, one of the prominent insurgents, says that he favors waiting for the next Congress. Naturally, Uncle Joe laughs.—Buffalo "Express."

The boom in business all along the line, home and foreign, is pretty discouraging to those individuals who were so sure the new Tariff would paralyze trade. It is not the first time well-devised Protection has knocked out its detractors.—Troy "Times."

Score still another for the new Tariff law. The Treasury operations for Dec. show a decided gain for the government. The receipts were \$59,827,536, and the disbursements \$57,713,795, leaving a surplus of \$2,113,741. At this rate the deficit for the fiscal year will soon be wiped out and the government will be piling up a surplus. Who said the revised Tariff would cripple the country?—Troy Times.

#### Schoolboy Logic.

"Should women have votes for parliament? Give your reasons for and against." This was a question asked of schoolboys in a recent examination in England. One boy replied: "No, because if they did they would want to get into parliament and then they would pass a lot of silly laws, such as that a man was not to smoke before his wife or that wives were to have Wednesdays and Thursdays off and then the men would have to stay at home and mind the children."

A logical answer to the question, "Why does a kettle sizzle?" was furnished by a boy who wrote, "Because if it did not you could not tell when the kettle was boiling." Asked to explain the initials "C. O. D.," one boy replied that they stood for "collector of debts," and a second said "cod-liver oil drink."

Another enterprising youth described a sleeping partner as "a man who goes to sleep when playing bridge." Asked how he would mend a puncture in a bicycle tire, a boy's answer was to the point, "I would get a box of stuff that you do it with and stick it on."

#### Importance of a Word.

If you should write a letter to the man who is chief magistrate of this republic you are at liberty to address him as "The President, Washington, D. C." That will be sufficient. He is not "his excellency," as is the supreme executive magistrate of Massachusetts, nor "his high mightiness," a title which, they say, sounded pleasing to the ear of the Father of His Country. But if you should write a letter to the secretary of state of the United States, whom the plain "president" appointed to the job, prepare to dip your pen in honorific ink. While the chief magistrate is plain "president," without any titular epaulettes, his secretary of state is "the honorable secretary of state." It will not do to address him as "the secretary of state" simply. He is something more than that. The etiquette of the state department requires that the word "honorable" be prefixed to the word "secretary."—Boston Globe.

#### Fire Prevention Among Pines.

Pines protect themselves against forest fires in a remarkable manner. For four or five years the stems of the infant trees attain a height of only as many inches above the soil. During this time their bark is extraordinarily thick, and that alone gives some protection. But, in addition, the long needles spring up above the stem and then bend on all sides in a green cascade which falls to the ground in a circle about the seedling. This green barrier can with difficulty be made to burn, while the shade that it casts prevents inflammable grass from growing near the protected stem. The officers of the forestry service at Washington are of opinion that it is owing to this peculiar system of self protection which the pine seedlings have developed that the growth of evergreen oaks in Florida has been restricted in regions where fires have raged, while pine forests have taken their place.—Harper's Weekly.

#### When Wives Were Sold.

When the war between Britain and France ended in 1815 many of the English soldiers found that their wives had married again in the belief that they were widows. The formal selling of the wife was regarded among the ignorant as a legal solution to the problem thus presented, and it is said that the authorities of the day deemed it best to shut their eyes at the proceeding. A certain amount of formality had to be observed, however, before the sale was considered legal even by the most ignorant. A Yorkshire writer mentions two conditions which must be carried out to make a satisfactory sale—the price of the wife must not be less than 1 shilling (24 cents), and she must be delivered to her purchaser with a new halter around her neck. The same writer records the case of the woman who zealously preserved the receipts for herself as a proof of respectability.

#### Humor and Morality.

We have extirpated gross humor from our modern literature, but we must not suppose that we are therefore more moral than the Elizabethans, whose literature was full of gross humor. It may be that we are only more afraid of ourselves and each other. This kind of fear is destructive not only of gross humor, but of humor of all kinds. In its essence humor is brave as it is honest, but with cowardice and dishonesty there come base substitutes for it, substitutes that make fun of noble things with a humorous air, and so bring humor itself into discredit.—London Times.

#### A Great Mystery Solved.

How many hairpins does a woman use when doing her hair? The hairpin editor has investigated and makes this report: "She uses just as many as she has. If she has only two hairpins she makes her hair stay up with two, but if she finds twenty in the top bureau drawer she uses all of them."—Acheson Globe.

#### A Sensitive Patient.

Dr. Emdee—Feet go to sleep? That shows your circulation is bad. Editor—That's all you quacks know. I suppose if my corns ached that would show that advertising patronage was falling off.

#### The Best of It.

Mrs. Gadsby—She says frankly that she can't play bridge, but that isn't the best of it. Mrs. Bungwats—What is? Mrs. Gadsby—She doesn't try.—Somerville Journal.

An even disposition is the best plot in the sea of life.

#### Steel Cars.

What is probably the largest steel passenger car equipment owned by any railroad in the world is that of the Pennsylvania Railroad which, with the cars just completed and those in course of construction, has 630 all-steel passenger cars. With this large number of steel cars, the Pennsylvania Railroad is now to start the operation of all-steel car passenger trains on some of its lines of densest traffic.

On August 12th, 1906, the Pennsylvania Railroad announced that all future passenger equipment would be built of steel; not only steel frame, but steel and non-collapsible in every particular. In planning the cars and establishing the standards, which are now copied in all the Pennsylvania passenger cars, no expense has been spared by the company to build a coach which should provide the greatest possible strength, a steel framing which could not be affected by fire, an inside lining which should be absolutely unburnable, and, at the same time, one that would not conduct heat or sound.

The Pennsylvania Railroad in November, 1906, ordered 100 all-steel passenger cars. Since that time additional orders have been placed and there are now in service on the Company's lines 245 coaches, 10 dining cars, 21 combination passenger and baggage cars, 29 baggage cars, 18 postal cars, and one company car; a total of 324 cars. In course of construction there are 110 coaches, 34 dining cars, 48 combination passenger and baggage cars, 4 baggage cars, 42 postal cars, 27 mail storage cars, and 11 baggage and mail cars.

The Pullman Company, at the instance of the Pennsylvania Railroad, has for the last four years been at work designing all-steel parlor and sleeping cars. Some 500 such cars are shortly to be completed and placed in service on the Pennsylvania Railroad.

With the all-steel passenger equipment now in service or on order, and some 250 steel cars to be ordered on the 1910 passenger equipment program, the Pennsylvania Railroad will, in a short time, have in service about 900 of its own steel passenger cars, and 500 steel Pullman cars.

### ACKNOWLEDGE IT.

#### Emporium Has to Bow to the Inevitable—Scores of Citizens Prove It.

After reading the public statement of this representative citizen of Emporium given below, you must come to this conclusion: A remedy which cured years ago, which has kept the kidneys in good health since, can be relied upon to perform the same work in other cases. Read this:

Mrs. John Summerson, W. Sixth St., Emporium, Pa., says: "My back ached most of the time and there was a soreness across my kidneys. Rheumatic pains darted through my limbs and in the morning when I got up, I felt tired and languid. Hearing that Doan's Kidney Pills were an excellent preparation for complaints of this kind, I procured a supply at Taggart's drug store. The remedies I had previously taken had not helped me, but Doan's Kidney Pills brought relief at once. I now feel much stronger and better in every way."

The above statement was given in October 1907 and on December 14, 1909, Mrs. Summerson confirmed it in detail.

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents. Remember the name—Doan's—and take no other.
