

CAMERON COUNTY PRESS.

H. H. MULLIN, Editor.

Published Every Thursday.

TERMS OF SUBSCRIPTION. For year, \$2.00; for six months, \$1.00; for three months, \$0.50; for one month, \$0.15. Advance payment.

ADVERTISING RATES: Advertisements are published at the rate of one dollar per square for one insertion and fifty cents per square for each subsequent insertion.

JOB PRINTING. The Job department of the Press is complete and affords facilities for doing the best class of printing.

NOT CONCLUSIVE EVIDENCE.

The latest instance of errors in spelling by a class qualifying for admittance to a leading western university is widely interpreted by the press as an evidence of insufficient training in that important element by academies and high schools.

The New York city employe who wanted his salary cut 15 per cent. was not such a freak after all. He had a string tied to the offer. What he asked for was a general revision downward, not to exclude the controller's own pay.

Whatever else may be said about the policy pursued in Korea by Japan, which has taken the "hermit nation" under its wing, there will be no dissent as to the wisdom of providing good roads.

Nikola Tesla, who says he has been at work on the task for 20 years, alleges that a system of wireless electric light has been perfected by which it will be possible to "light the entire United States."

Some Massachusetts folks say the mysterious light seen floating in the sky at night is the searching light of Tillinghast's flying machine, but others say it is only the flame of a small fire balloon.

A Pittsburg police captain has solved a mystery by declaring that the alleged epidemic of hydrophobia among dogs is really only a form of intoxication; speeding chauffeurs and dogs, says he, are made drunk by inhaling the fumes of gasoline.

If we all put our money into circulation with the same freedom that we devote to discriminating our favorite remedies for colds monetary stringency will promptly become a lost art.

ALL ROOSEVELT MEN

TAFT, PINCHOT AND BALLINGER HIS SELECTIONS.

Facts Good to Remember in Considering the Unfortunate Political Entanglement at the National Capital.

In the present political entanglement at Washington it is well to remember just what the personal relations were which existed between the three central figures in the controversy and the mighty hunter in equatorial Africa. It may help to keep the situation from becoming worse mixed in the public mind than it is already.

Gifford Pinchot, who has been dismissed from his office as chief of the forestry bureau, is a great chum of the former president. Every one knows that who knows anything about governmental affairs.

Secretary Ballinger, also, was appointed by Roosevelt when he was made commissioner of the general land office. He was not unearthed by Cannon or pushed forward by Aldrich.

President Taft and ex-Forester Pinchot are both Yale graduates, and both were "Bones" men at Yale. They have been friends for many years, and the president has repeatedly testified to his high esteem for the zealous head of the forestry work of the national government.

NEED OUR CATTLE AT HOME

Under Present Conditions Germany's Embargo Really is of Little Consequence.

Just at present it would be difficult to incense American sentiment against Germany's stringent sanitary regulation operating against the importation of American cattle.

There is little doubt, frankly speaking, that at the bottom the German inspection embargo against live cattle is largely a sop to the agrarian or agricultural interest which demands protection in the home market.

In the negotiations for a tariff understanding with Germany which would give her the benefit of our minimum tariff she is evidently disposed to stand out for her present restrictions, insisting that they are sanitary regulations that apply to all imported cattle.

It seems to be a good point for our government to yield on, getting from Germany return concessions elsewhere. Our cattle supply is below the normal domestic demand, and is likely to remain so for years.

Most assuredly the point is not worth going to tariff war over with our very good friend and next best consumer.—Milwaukee Sentinel.

Let Us Have Facts, at Least.

Unfortunately there is doubt that punishment can be inflicted upon all "the men higher up" concerned in the sugar trust scandal. Most of the positive proof against them is of transactions which occurred long enough ago to make the intervention of the statute of limitations a possibility.

Unique Democratic Section.

"Down here," asserts the Savannah Press, "there is only one kind of Democracy." We congratulate the one section of the country that hasn't at least fifty-seven.

Eulogies Out of Place.

Beware of all spellbinders when they praise a public man at the expense of the party to which he belongs. Their eulogies are loaded. A man better than his party is either a dunderhead, blind to what is going on, or a hypocrite, accepting power with the purpose of employing it against its bestowers.

FOR PORTO RICAN WELFARE

Movement Begun to Give People of That Island Permanent Government of Their Own.

After the lapse of ten years or more it seems likely that the government will seriously take up the condition of Porto Rico with a view of giving that territory or colony, or whatever it may be called, some form of permanent law and government of its own and its people a known status as citizens of the United States.

But it appears now that the draft of a bill has been submitted to President Taft providing for a complete form of organic law for Porto Rico. It is understood that a citizenship clause giving the people of Porto Rico much the same advantage as is now enjoyed by the Hawaiians has been placed in the bill.

Instead of attempting to amend the act of 1900, known as the Foraker act, it was decided to rebuild it. It has been torn to pieces and made over into a carefully worded bill, which, it is hoped, contains all the provisions for Porto Rican welfare which the lapse of a decade has shown to be necessary.

It remains to be seen how comprehensive and just this proposed measure will be, but the fact that at last something definite and positive is to be attempted ought to be an encouragement to the people of Porto Rico.

Indictments Go "Higher Up."

The federal grand jury in New York does not agree with the directors of the American Sugar Company as to the innocence of all the executive officials of the concern, and returns an indictment against the secretary of the parent company. The public are not entitled to prejudice this particular case, but they have to be convinced that subordinates, in absolute unrequited zeal for the interests of their employers, would deliberately and continuously defraud the government solely on their own responsibility.

Keep the Veterans in Service.

The proposed naval personnel bill aims to put younger men in high command by a system of compulsory retirement of ten per cent. of officers above the rank of lieutenant commander each year. But when men stay in long enough to get beyond the rank of lieutenant commander they ought to be worth something to the service.

Power Belongs to Executive.

It is interesting to note the reason why the senate committee decided not to recommend the consular reform bill. The intention was to write upon the statute books the way in which the president shall select appointees to the diplomatic and consular service.

Need of Fortifications.

The fortification appropriation bill on its way through congress to the president carries \$5,817,000, a goodly sum that is more than \$2,000,000 less than the amount appropriated for fortification by the last bill passed by congress.

"Marse Henry" Annoyed.

The Louisville Courier-Journal refers to President Taft as "spoilsman, partisan, ouster of honest public servants, jury-packer, self-whitewasher." Something must have happened to Marse Henry that made him feel like exclaiming "Ouch!"

Porto Rico.

The Porto Ricans have been patient, and at last seem to be near a reward. Congress is to be asked to do something further for them, and a fair response is a reasonable expectation.

Fine Wedding Gowns

By JULIA BOTTOMLEY.

IT WAS their own great poet, Tennyson, who sang of the "splendor dear to women," and, judging from the gowns worn by English brides recently, English women may well have inspired his verse.

The going away gown is called the traveling gown by these English girls, while our American brides have two distinct types of costume designated by these two terms, as a rule.

USEFUL OUTER GARMENT.

Both smart and useful this coat would be found, made in either cloth, serge or tweed; the panel down front is cut wider from the hips downward, the seams being wrapped and trimmed with groups of small buttons.

A New Bracelet.

A new bracelet which is attracting considerable attention among women is a band of gold from a half-inch to an inch in width.

Stenciling Novelty.

Stenciling as a decoration for chafing dish aprons is a novelty. The aprons are bought stamped ready for stenciling and the designs show a great variety.

deserve their distinction as high class. They are wonderful girls and to them the wedding day needs all the "pomp and circumstance" belonging to so important and joyous an event.

At a recent wedding the bride's gown was of heavy white ivory satin, lace and chiffon draping the bodice. Her beautiful wedding veil of old lace was worn with a wreath of myrtle and orange blossoms.

The liking for simplicity of design appears again in the going away gown and hat, which relies upon its lines and pretty elaboration of details rather than of fabric, for the exquisite girlish effect.

COAT SUIT OF NEW DESIGN

Seems Likely to Attain Much Popularity with the Advent of Spring Weather.

A distinct departure from the coat suits that are, is one that has just been advanced by a leader in style. It is worth description because its promoter feels that it is the advanced type for spring.

The fastening is at the left side on the yoke effect. Three large smoked pearl buttons are used on the plain circular top above the plaits. There is a short coat that just reaches the point of the hips, cut away and rounded in front and showing a slightly double-breasted waistcoat of frog green corduroy.

This points the way back along the old road of severely tailored suits of mannish cut and build. No fur collar and cuffs, no Louis XV. pockets, no braiding, no velvet.

Seal Sombrero.

Among the newest modes of millinery is a large sombrero of seal musquash. It has the dash of the western plains and the modish turn of a knowing designer.

In keeping ribbons, do not place odds and ends in an indiscriminate mass in a box. Have either different boxes or envelopes for the different colors, and they will be compact and easily managed.

The Collarless Neck.

There seems no lessening of the popularity of the collarless neck. It is worn on the street under heavy coats with fur collars for all evening affairs where a formal décolletage is not desired and for almost every afternoon affair.

A Polish Marriage.

A Polish couple came before a justice of the peace to be married. The young man handed him the marriage license and the pair stood up before him. "Join hands," said the justice of the peace. They did so, and the justice looked at the document, which authorized him to unite in marriage Zacharewicz Perczynski and Loekowarda Jeulinski.

The family that eats plenty of Quaker Oats is a healthy, rugged family.

The most popular food in the world because it does most and costs least.

KOW-KURE

is not a "food"—it is a medicine, and the only medicine in the world for cows only. Made for the cow and, as its name indicates, a cow cure.

Make the Liver Do its Duty

Nine times in ten when the liver is right the stomach and bowels are right. CARTER'S LITTLE LIVER PILLS gently but firmly compel a lazy liver to do its duty.

ABSORBINE

Full directions in pamphlet with each bottle. Does not blister or remove the hair and does not burn. L-10 a bottle. Horse Book 9 free.

\$500.00 REWARD

is the value to any sufferer of Blood Poison, Ulcers, Rheumatism, Eczema, Scrofula and Salt Rheum. Send your name and address to prove the value of Dr. S. J. S. Specific.

For a Tough Beard or Tender Skin

NO STROPPING NO HONING Gillette KNOW THE WORLD OVER

14 1/2 Cents a Rod

For 25-in. Hog Fence; 15 1/2-in. for 30-in.; 18 1/2-in. for 36-in.; 21 1/2-in. for 42-in.; 24 1/2-in. for 48-in.; 27 1/2-in. for 54-in.; 30 1/2-in. for 60-in. Post and rail. 50 rods special day price. 50 rods special day price. Wire 81.50 Catalogue free. KISSELMAN BROS. Box 25 MUNCIE, IND.

GIVEN AWAY WITHOUT COST

California's greatest monthly paper, "CALIFORNIA OIL FIELDER," we offer a six months subscription FREE to the first thousand people answering this advertisement.
