Will Pay Large Dividends.

Land investments are secure and pay the best. Land is indestructible. Land values increase on the average. People of small means cannot as a rule, buy or sell land at great advantage. The greatest profits are made by acting together as a company. To buy acres at wholesale price and then to plat same into town or city lots, is the way to make money. A great factor in the degree of success of such a scheme is to have a strong company, run by experienced townsite men, build up the town or city and colonize all around it. Such a concern is the Interstate and Land Company, P. O. Box 238, Denver, Colorado. You will get big dividends by buying shares at one dollar each. Send your money at once to the above address, by post office or express order or by bank draft, for as many shares as you want. 3-4f.
