To The Voters of The District.

Statement is Issued By Lewis Emery, Jr.

HE IS A CANDIDATE.

Well Known Bradford Oil Man Enters the Contest for Congress and asks the Support of the Republican Party—Believer in Roosevelt Policies and the Square Deal.

The following statement was given to the press yesterday by Hon. Lewis Emery of Bradford and is self explanatory:

To the voters of the Twenty-First Congressional District of Pennsylvania: I take this occasion of announcing myself as a candidate for Congress, subject to the decision of the Republican voters of the 21st district at the primaries to be held in June, 1910.

It would hardly seem necessary for me to explain my position on matters pertaining to the interests of the people, as I have been connected with the politics of Pennsylvania for more than thirty years, and during several years of that time I have represented my constituency in the State Legislature. And for all of these 30 years during which I have been before the public, my name has been synonymous with clean politics, reform and the square deal. In all that I have done, I have endeavored to uphold the principles of my party, although I have many times been obliged to fight those in the party who have been seeking private gain, rather than party and public good.

The role of reformer, thirty years ago, was far from being a pleasant, or safe one. More than ordinary courage was required in those days to persevere in the narrow road of reform and to surmount the obstacles placed in the way by enemies within and without the party.

NEVER A DOUBTFUL POSITION.

The fight has been a long and bitter one, but my position in the field has never been a doubtful one. I have ever stood for principle and have met my opponents squarely, in the open. Many times I have gone down to defeat. A few times I have won against fearful odds; but never have I lost courage or hope of the final triumph of a just cause—the cause of the people as against corporate control of politics and business. Never have I ceased to fight for just laws for the regulation of corporate power and illegal combination and I have always been in accord with the policy pursued by Theodore Roosevelt.

So long have I fought the good fight and so intimately have I been connected with the great questions agitating the people of Pennsylvania, today, that I feel I am justified in asking you, the voters of the Twenty-first District, for your hearty support at the primaries in June.

My business interests are large and my time is valuable, but I am willing to give my time and means to your interests. However, I wish it to be plainly understood by all, that if I am accorded the nomination I seek, I shall be glad to pay all lawful expenses of the campaign which will follow. But, I shall not be willing to conduct a vote buying, boodle campaign.

STRICTLY ON HIS MERITS.

My record in business and politics during the past thirty years is an open book which all may read; and I desire

to go before the voters in this campaign on my merits.

In conclusion, I wish to state plainly that I shall make no pre-election promises, either directly or indirectly, to any man that he shall be appointed to office if I meet with success in the primaries and at the general election. I reserve to myself the privilege of going into office with an open field for future action.

Upon the foregoing statement I respectfully
