Mesopotamia to Boom.

Egypt, whose climate in winter is quite similar to that of Mesopotamia, is the goal each season of vast numbers of tourists and other visitors. This country of Mesopotamia and Babylonia is not less interesting from the view point of antiquarians and archeologists, while to the business man and capitalist it offers even more of interest, for it is apparently just on the verge of tremendous commercial developments.

The popular opinion of a critic is of one who has not learned any science or succeeded in any art, and is therefore empowered to sit in judgment on those who have. THE DEMOCRATIC PARTY AND POSTAL SAVINGS.

TRUE TO HIS TRUST

PRESIDENT URGES LEGISLATION DEMANDED BY PARTY.

Influence of the Chief Executive Constantly Exerted in Favor of Measures That Are Consistent With Platform Pledges.

It will not be President Taft's fault if the larger and more vital measures which the administration has been seeking to push through congress, in fuifillment of Republican platform pledges, do not take solid and enduring form in laws. The weight of the president's influence is being exerted to the utmost to force the passage of the railroad bill now pending, and the White House is doing all that it can to insure the enactment of a postal savings law and a law more carefully and thoroughly covering the conserva-tion of national resources.

Congress is proving difficult to get in motion and keep going ahead in the right direction, just as it was during the Roosevelt administration. The Taft program is meeting with formidable opposition from various quar-ters, and if the bills which have been given the support of the president shall become laws it will be a notable tribute to his vigorous and insistent championing of them. The chances are that at least a part of the administration program will go through, however, without material change.

If this can be accomplished the president will be able to face his critics next fall with a record of prac-tical results achieved which will help greatly in obtaining a favorable ver-dict from the people at the polls. He knows that his administration is on trial, and he is not blind to the fact that the public is a suspicious and extremely critical jury this year. Mr. Taft is quite human enough to be eager for approval for himself and his party and he does not intend to let any important progressive measures drift over to the next congress if they can be disposed of creditably and wisely now.

In seeking this end the president is displaying a degree of force and activity in spurring congress to its tasks which must surprise many who have thought him too easy-going and too quick to yield to strong opposition. He is not a trouble seeker, certainly, but it is equally clear that he does not give way to stout antagonism while a chance of success remains.

A Democratic View.

Perhaps the less said about Democracy in connection with the overturn in the Fourteenth Massachusetts congressional district the better. That district has not been represented in congress by a Democrat within the memory of living men, and there is no

principles or opinions in the slightest since he ceased to call himself a Republican and began to run for office on Democratic tickets. He is a lifelong Republican, but never was a standpatter, and we will add that up to the time Theodore Roosevelt re-

And Where Is He?

The Democratic party for 16 years has been incapable of virile, or intelli-gent, opposition. It set up an idol, or rather permitted the idol to set himself up, to scatter fads hither and thither to dissolve as soon as the sun of common sense shone on them. As old James Gordon Bennett, in his road Scotch, said of France, on the leleful day of Sedan-the Democratic

APPEALED TO THE FARMERS

Sound Arguments Put Forward by Congressman McKiniay on His Kansas Tour.

Congressman McKinlay sowed great deal of good tariff seed on the Kansas prairies during his recent tour of the state and the Kansas prairies are not usually barren grounds when good seed is properly sown. Mr. McKinlay made many strong points in his defense of the Payne bill, but he could hardly have scored more effect ively with farmers than in his insist ence on the fact that the farmers' market is essentially a home market. With 85 per cent. of all he raises consumed within the confines of this country, one would imagine that the farmer would be the last to advocate anything which decreased the buying ability of those to whom he sells.

That the consumers must be largely wage earners goes without saying and that wage earners must be what the name implies depends on their ability to get employment. This ability to get employment depends on the ability of wage payers to give it and, finally, this depends on industrial conditions which involve prosperity in mine and mill and factory and in all the avenues of commerce. If America imports its shoes, clothing, machinery, etc., it requires only the commonest kind of common sense to understand that the wages paid for manufacturing these things must be paid to foreign workmen, not to American labor that composes the farmer's home market.

Congressman McKinlay, Speaker Cannon and other Republican leaders have shown time and again that s majority of the articles and commodities imported are not dutiable, while of those which are dutiable the great majority are luxuries. As to the necessities of the people, either they have been admitted free under the Payne bill or the duties have been largely reduced. It requires \$400,000,000 a year to pay the legitimate running expenses of the government, besides millions more for pensions, etc. A tariff bill which levies the larger share of this burden upon the wealth rather than upon the dinner pails of the country would seem to deserve the commendation of all who are not blinded by partisanship of the most stupid kind.—Kansas City Journal.

Nonsensical "Argument."

Railing at the alleged modesty of ada to the United States, the Philadelphia Record says:

"This concession foots up \$125,000. Every little helps. Hurrah for Payne That an endangered trade of nearly \$300,000,000 has been so little disturbed is truly providential. President Taft is right; the Lord does ook after children, drunkards and the United States.'

HIS HANDS CRACKED OPEN

"I am a man seventy years old. My hands were very sore and cracked open on the insides for over a year with large sores. They would crack open and bleed, itch, burn and ache so that I could not sleep and could do but little work. They were so bad that I could not dress myself in the morning. They would bleed and the blood dropped on the floor. I called on two doctors, but they did me no good. I could get nothing to do any good till I got the Cuticura Soap and Cuticura Cintment. About a year ago my daughter got a cake of Cuticura Soap and one box of Cuticura Ointment and in one week from the time I began to use them my hands were all healed up and they have not been a mite, sore since. I would not be without the Cuticura Remedies

The Irish of Shakespeare

An Englishman and an Irishman were having an argument on the subject of Shakespeare. "I defy you," said the former, "to find a single Irish character in the whole of his works."
