Inside and Out.
Speaker Cannon at a dinner in Washington, said, soothingly, to a young suffragette:

"It is the woman's work to provide for the inner man, and it is the man's to provide for the outer woman."

Fool Remarks.

"The inanity of courtesy remarks that some people feel called upon to interject into conversation calls for a ermanent commission in lunacy," said the man with the ingrowing grouch. "Now, the other day I was telling Jones going down on the subway that four-year-old had swallowed a safety pin, and we were up half the night with him.

one piece and faced with a demi-facing of black velvet. It is so altogether charming that it will tempt the price of a much more elaborate effort. This is a very commendable design, from almost any discriminating buy-er. Nothing could be simpler than its decoration of two pheasant feathers mounted with a big, jeweled straw, places them in the "chanticler" class at once. And one must not complain at the high price of a "chanticler" pattern. This is really one of the most beautifully balanced shapes which is to be found. Call it the "hen-pheasant" model and cheerfully part with 200 francs for it in Paris. It will finally dawn upon those who observe that there are other things to a het extends the model of rows of braid sewed to the content of t besides trimmings.

CONFIRMATION DRESS. CONCEAL JOINING OF LACE

joining is almost entirely concealed. This is managed in several ways, nuch depending upon the kind of lace and how it is used.

For a yoke or other solid surface that is to lie flat it is better to applique the lace together. Cut out the design irregularly and join it to the under piece so that it continues the pattern. The edges are buttonholed, sewed or overcast together according to which stitch shows least. Do this with fine thread and cut away all ragged edges.

For firmness it will usually be

found necessary to join the under side In this case make the stitches on right side small.

Where lace is to be joined for a ruf-fle the best way to do it is to buttonhole the edges together in the tiniest possible seam. Use a fine thread and do the stitching neatly. This same method is often used on yokes and for thin laces is better, perhaps, than ap-pliqueing. Press the edges open on right side between thumb and first finger so it does not pucker.

Some persons lap the edges of the lace so that the wrong side of the left side lies for about a quarter of an inch side hes for about a quarter of an inch upon the right side of the under piece. Both ends are then hemmed in tiny stitches. This prevents a seam, but is almost impossible to do without showing.

Never join lace by sewing in a French seam, as it is entirely too bulky, and, no matter how carefully done, will not look neat. Above all, do not content yourself with sewing in a single seam. The edges curl badly at first washing and the lace is apt to pull apart.

For the Dressing Table.

A convenient set of three small consecutive bags, which will prove wonderfully convenient if hung beside the dressing table, is made from a yard length of pompadour, dresden or plain sash ribbon divided into three qual parts, foided into bag shape, the sides overcast missing beads by matching their color, if the selvage and the tops equipped with sets of rather long ribbon hangers, which join under a big rosette or a silk-covered cabochon. The same design may be used for a desk accessory for preserving sheets seems of racer, by ing special scraps of paper, by ma-king the triplet bags of chamols, bor-dered with ribbon and decorated with the embroidered initials of the owner, each bag compartment bearing a dif-

AN INTOLERABLE ITCHING

"Just about two years ago, some form of humor appeared on my scalp. The beginning was a slight itching but it grew steadily worse until, when I combed my hair, the scalp became raw and the ends of the comb-teeth would be wet with blood. Most of the time there was an intolerable itching, in a painful, burning way, very much as a bad, raw burn, if deep, will itch and smart when first beginning to heal. Combing my hair was positive torture. My hair was long and tangled terribly because of the blood and scabs. This continued growing worse and over half my hair fell out. I was in despair, really afraid of becoming totally bald.

"Sometimes the pain was so great that, when partially awake, I would scratch the worst places so that my finger-tips would be bloody. I could not sleep well and, after being asleep a short time, that awful stinging pain—would commence and then I would wake up nearly wild with the torture. A neighbor said it must be salt rheum. Having used Cuticura Soap merely as a toilet soap before, I now decided to order a set of the Cuticura Remedies
—Cuticura Soap, Ointment and Pills. I used them according to directions for perhaps six weeks, then left off, as the disease seemed to be eradi-cated, but toward spring, eighteen months ago, there was a slight re-turn of the scalp humor. I commenced the Cuticura treatment at once, so had very little trouble. On my scalp I used about one half a cake of Cuticura Soap and half a box of Cuticura Ointment in all. The first time I took six or seven bottles of Cuticura Pills and the last time three bottles-neither an expensive or tedious treatment. Since then I have had no scalp trouble of any kind. Standing up, with my hair unbound, it comes to my knees and had it not been for Cuticura I should doubtless be wholly bald.

"D-e-f-e-n-d-a-m," spelled the youngster on the rear seat as the "rubberneck" wagon was passing the Twenty-second Regiment armory, at Broadway and Sixty-eighth street. "What does that mean, auntie?"

"Def-en-dum!" roared the guide through his megaphone, dividing the word into three sections.

That's what it is," said the old "A deaf and dumb asylum."

Woman Caught Red Handed.

A woman was caught red handed last Tuesday. There was nothing sensational about it. All she had done was to do her washing with cheap, common yellow laundry soap, and the result was, as it always is, that her hands were cracked and chapped and chafed until they were sights. Easy Task soap relieves a woman of so much rubbing and dipping the hands in the water th harm results. As a matter of fact, Easy Task soap is good to wash the hands with. It won't hurt the most delicate skin any more than the finest lace.

TIME FOR HIS DEPARTURE

As Close Friend Knew, That Frame of Mind Was Not Apt to Be a Lasting One.

Ben. T. Rice and Hymen Levy, both now dead, were two of the real old Virginia characters in a small Piedmont county seat town; Ben was the keeper of the town inn and Hymen, a genuine Jew, ran a store. Ben was noted for profanity, drinking and gambling and telling unheard-of yarns. Hymen was a daily visitor at the inn to get his dram, and at times became thoroughly shocked at Ben's outrageous language and manners. Ben, one evening, joined the town boys in an exciting game of football on Main street, became overheated, and, cooling off too quickly, went into pneumonia at night. Several physicians attended him, who soon pronounced his case hopeless. A dozen or more of Ben's friends, among them Hymen, were standing around the bed just before Ben's spirit took its flight from earth, when Ben uttered a long groan and said: "Oh, L-o-r-d, have mercy on me." At this moment Hymen turned his head slowly and remarked: "The good Lord ought to take Ben right now, for he never will be so good no
