

AFTER SUFFERING ONE YEAR

Cured by Lydia E. Pinkham's Vegetable Compound

Milwaukee, Wis. — "Lydia E. Pinkham's Vegetable Compound has made me a well woman, and I would like to tell the whole world of it. I suffered from female trouble and fearful pains in my back. I had the best doctors and they all decided that I had a tumor in addition to my female trouble, and advised an operation. Lydia E. Pinkham's Vegetable Compound made me a well woman and I have no more headache. I hope I can help others by telling them what Lydia E. Pinkham's Vegetable Compound has done for me." — Mrs. EMMA L. MISE, 833 First St., Milwaukee, Wis.

The above is only one of the thousands of grateful letters which are constantly being received by the Pinkham Medicine Company of Lynn, Mass., which prove beyond a doubt that Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, actually does cure these obstinate diseases of women after all other means have failed, and that every such suffering woman owes it to herself to at least give Lydia E. Pinkham's Vegetable Compound a trial before submitting to an operation, or giving up hope of recovery.

Mrs. Pinkham, of Lynn, Mass., invites all sick women to write her for advice. She has guided thousands to health and her advice is free.

OPIUM or Morphine Habit Treated. Free trial. Cases where other remedies have failed, especially desired. Five particulars. Dr. E. G. DONNELLY, Suite 515, 400 W. 23d St., New York.

SURELY NO PLACE FOR HER

In the Presence of Such Magic There Seemed But One Thing for Maid to Do.

Prof. Percival Lowell, the eminent Martian astronomer, said in a recent interview in New York:

"The Martian canals are not Panama canals. The word 'canals,' you know, really means 'lines.' It shouldn't be taken literally, as the servant girl in Boston took the parlor magic.

"An amateur magician in a Beacon street house was going through his tricks while a maid passed in and out with refreshments.

"The magician was reading letters placed under a rug as the maid brought in a tray of lemon ices.

"What is this?" a spectator asked. "That is B," the magician answered; and, sure enough, his answer was correct.

"The maid looked with astonishment at the letter which had been hidden under the thick rug. She turned her gaze on the handsome young magician who had read it. Then, setting down her tray of ices, she hid her rosy face in her hands and ran out of the room.

"What's the good o' me clothes?" she cried.

An Unusual Attribute. Little Johnnie, who cannot pronounce S, has been frightened into keeping out of the attic by tales told by his nurse of a dreadful ghost that lives in the dim recesses under the eaves. The other day he was overheard to say confidentially to a small friend:

"We've got an old gho't up in our attic!"

To which his friend, much interested, responded: "Do he butt?"

Easy for Him. Tommy's Mother—Why aren't you a good boy, like Willie B. Jones? Tommy—Huh! It's easy enough for him to be good; he's sick most of the time.—Philadelphia Record.

HARD ON CHILDREN. When Teacher Has Coffee Habit.

"Best is best, and best will ever live." When a person feels this way about Postum they are glad to give testimony for the benefit of others.

A school teacher down in Miss. says: "I had been a coffee drinker since my childhood, and the last few years it had injured me seriously.

"One cup of coffee taken at breakfast would cause me to become so nervous that I could scarcely go through with the day's duties, and this nervousness was often accompanied by deep depression of spirits and heart palpitation.

"I am a teacher by profession, and when under the influence of coffee had to struggle against crossness when in the school room.

"When talking this over with my physician, he suggested that I try Postum, so I purchased a package and made it carefully according to directions; found it excellent of flavor, and nourishing.

"In a short time I noticed very gratifying effects. My nervousness disappeared, I was not irritated by my pupils, life seemed full of sunshine, and my heart troubled me no longer.

"I attribute my change in health and spirits to Postum alone."

RAISING DRAFT HORSES IS PROFITABLE BUSINESS

Practical Breeder Gives Some Good, Sound Reasons Why Farmers Should Pay More Attention to Them.

A Fine Type of Percheron.

(By J. D. DUMIRE.) The horse for the farmer is the draft-bred horse. He is the horse that can be raised by the common farmer with little trouble and expense. He is in reach of almost every farmer in the country. It is a profitable business on the farm to raise a few good colts. I say good colts, for it is just as easy to raise good ones as poor ones.

It is just as easy to raise good horses as good cattle or good sheep or good hogs. It does not pay to raise poor ones—leave that for the other fellow. The farmers that raise good stock of any kind are the men that select good sires. The men that have good herds and good flocks are the men that select pure-blood sires from one or the other of the several pure breeds and stick to the breed of their choice, if in cattle it is Shorthorns in a few years his herd is all the same type and color.

If it is Angus or Herefords, the results are the same. If this is true of cattle and sheep, it is certainly true of the horse. Fellow farmers, select a sire from one of the pure breeds of draft horses—Percheron, Shire or Belgian—it matters but little which breed.

It is only a matter of choice to the breeder himself. Be sure that the sire is a good individual. Breed just such mares as you have. The better the dam the better the result. Always breed their produce to a pure-bred sire of the same breed.

In a short time your mares are all alike and of the same type and disposition, all bearing a family resemblance. You will not have the disposition of a broncho in one and the trotting horse in the other, but you will have a class of horses that are easily handled, easily fitted for the market and an every-day market at home and abroad.

You need not spend any extra time and expense in looking after buyers; the buyers are always looking after this kind. If they get a wire-cut or blemish they are the kind that are useful to keep for any kind of farm work. A good mare with proper care will do just as much service on the farm and raise a colt as will a gelding, and you have the colts for the keep.

Never allow the colt to follow the dam when in harness at work, as the colt will do much better if left in the barn, and the dam will be better off without the colt. Give the little fellow some oats and bran in its trough; it will soon learn to eat and forget its dam.

A colt is easily weaned, and if

proper care is taken it will not stop growing until it is matured. Breed in this way and in a very short time it will be almost impossible to raise a poor colt. Look at the farmer who breeds one year to a draft horse and the produce afterward bred to some cheap mongrel. His horses in ten years' breeding are no better than when he began. The price of service fees should hardly be considered. It is the matured horse to be considered. It costs as much to raise a low-priced horse as to raise a high-priced one. It is all in the breeding.

Always use a pure-bred draft sire—a better individual than the dam—and then you are sure of gaining. Select one breed or the other and stick to it and you will come out ahead and be on the right road to success in the horse-breeding business.

COW IS KEY TO SUCCESS

To Compete With Oleomargarine Makers Dairymen Must Study to Produce Butter Cheaply as Possible.

Liberal feeding does not produce profitable results unless the food is of the proper kind. Successful dairying depends on good cows and balanced rations.

If dairymen expect to compete with the makers of oleomargarine they must study how to produce butter as cheaply as possible. Until consumers are educated to eat butter at high prices they will turn to the substitute at about a certain price for real butter.

It is estimated that one pound of butter is the amount one person who is not obliged to restrict his appetite will consume in one week. It is also estimated that for the \$5,000,000 people in this country we produce only about 50,000,000 pounds of butter in a week.

If you had grown a few tons of mangels last year they would have come in handy during the winter just past—wouldn't they? Now is the time to think about mangels for next year. They are easily grown and are heavy yielders.

Selling whole milk to a cheese factory is selling the fertility of the farm out of a can. Feeding this milk to hogs, minus the butter fat, takes nothing from the farm, for a ton of butter fat is worth only about 75 cents as a fertilizer.

MARKS FOR IDENTIFICATION

The above diagram shows method of marking chicks so that 16 different flocks, ages or families may be identified by absence of punch marks as in No. 1, and by punch marks as shown in Nos. 2 to 16, says Farm Press. A good chick-size poultry punch may be had at small expense. Newly hatched chicks should always be punch marked and a record kept of the date on which they were hatched; later the marks can be supplemented by leg

banding, making it possible to positively identify many ages, flocks or families. Chicks should be punch-marked soon after hatching. Keep a record of your chicks this season.

Sheep in the World.

There are about 230,000,000 sheep in the world—Australia with 85,000,000 Argentine with 67,000,000 and the United States with 57,000,000 are the leading sheep countries.

WOMEN'S ILLS.

Many women who suffer with back-ache, bearing-down pain, headaches and nervousness do not know that these ailments are usually due to trouble with the kidneys. Doan's Kidney Pills remove the cause.

Mrs. Joseph Cross, Church St., Morrilton, Ark., says: "For weeks I was bent double by pain in my back and the kidney secretions were profuse. My feet and ankles were badly swollen and I had headaches and dizzy spells. Six doctors treated me without relief and I finally began taking Doan's Kidney Pills. They cured me."

Remember the name—Doan's. For sale by all dealers. 50 cents a box. Foster-Milburn Co., Buffalo, N. Y.

A DIFFERENCE.

"This pie," said he, "is not at all like mother used to bake." His wife's remarks, however, were like mother used to make.

BABY'S SCALP CRUSTED

"Our little daughter, when three months old, began to break out on the head and we had the best doctors to treat her, but they did not do her any good. They said she had eczema. Her scalp was a solid scale all over. The burning and itching was so severe that she could not rest, day or night. We had about given up all hopes when we read of the Cuticura Remedies. We at once got a cake of Cuticura Soap, a box of Cuticura Ointment and one bottle of Cuticura Resolvent, and followed directions carefully. After the first dose of the Cuticura Resolvent, we used the Cuticura Soap freely and applied the Cuticura Ointment. Then she began to improve rapidly and in two weeks the scale came off her head and new hair began to grow. In a very short time she was well. She is now sixteen years of age and a picture of health. We used the Cuticura Remedies about five weeks, regularly, and then we could not tell she had been affected by the disease. We had no other treatments after we found out that the Cuticura Remedies would do for her. J. Fish and Ella M. Fish, Mt. Vernon, Ky., Oct. 12, 1909."

Show Me Another.

Soon after twins had arrived at the home of a prominent dry goods merchant recently the proud father led his son Richard, aged four, into the room to see the little strangers. The father first pulled down the covers and showed one of the babies to his son. He then walked to the other side of the bed and exhibited the other twin. Richard gazed at the two for a moment with a noncommittal look on his face, and then demanded: "Show me another, papa."

Understood the Sex.

His Daughter—Daddy, you were twenty-five when this was taken, weren't you? Why, you might have sat for it yesterday.

Her Father—Myes; your mother's own daughter. Well, well, you'll find it on the table, I think.

His Daughter—Find what, daddy, darling?

Her Father—The checkbook, my own lamb.

\$100 Reward, \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

At the Funeral.

"He has been not only a minister, but an editor."

"You don't say! Then his chances of getting to heaven are even."

"No, his chances of getting to heaven are not quite so good. He was an editor only a short time—not enough to make it an even thing."—Life.

Desire for Information.

"Mrs. Gaddington wants to know all about everybody's business."

"Yes," replied Miss Cayenne. "She regards matrimony as a failure because she didn't marry a cotnamer."

TO GET ITS BENEFICIAL EFFECTS ALWAYS BUY THE ORIGINAL AND GENUINE
