## Speaking of the Divorce Evil

Trying to succeed in business without advertising is like the case of the man who, trying to cut expenses, divorced his wife and alone attempted to keep house and raise his children. It cost him more money for doctor bills and funeral expenses in a year than he gave his wife in a lifetime.

**When advertising is divorced, business success becomes failure.**

This paper is building your neighbor's business. He has reasons. He tried advertising and it helped him. It is not an experiment—this paper brings results. Good, hard, convincing results—dollars.
