Compers' Testimony for the Tariff.

Mr. Gompers, president of the American Federation of Labor, made a visit of some months in Europe where he investigated trade conditions, and as he had no party to serve, what he says is entitled to great weight. Speakof the cost of living in the United States as compared with European countries he says: "If the immigrant to this country is willing to continue living here on the same level he was obliged to accept in his native land he can find it for the same money." That is the truth. In fact, on the same level he can live for less in the United States, while his wages will be several times greater. That is the reason a million and more of immigrants come to this country annually. Mr. Gom-pers, in his report to the Federation of Labor, says:

Living is cheap to the wage worker in Europe because he does without what in America soon becomes a neceswhat in America soon becomes a necessity to him—food in good quantity and quality, presentable clothes, and a comfortably furnished home, and in general a larger and freer life. Meat is usually from 25 to 100 per cent. higher than in the United States. The immigrant, coming to America, finds that if he can buy in quantity (and in cases where he need not) his flour, fuel, potatoes, oil, sugar, coffee, salt—the essentials for the plain table—all cost less than they ordinarily do in the land he left. The cheapness and abundance of many varieties of fruits and of our melons and tomatoes is a surprise to him.

Mr. Gompers goes on to point out

Mr. Gompers goes on to point out the things that are cheaper in this country than in Europe-cotton clothing, shoes, newspapers, amusements, education, &c. He says that in no city in Europe did he find rents any cheaper, wages considered, than in the United States, while an American would be surprised over "how little the European renting wage-worker gets for his money." As to wages Mr. Gompers tells with surprise of the demands made at the British Trade Union Congress at Ipswich where it was stated that railroad workmen got \$4.25 per week, agicultural laborers 21 shillings (\$2.88), builders' laborers 9 cents an hour, and so on. And yet there are hundreds of thousands of workmen seeking employment in the United Kingdom even at such pitiable wages.

Why this enormous difference from the wages paid in the United States? Britian is a Free-Trade country, and the United States is under a Protective Tarifi. And yet the Democrats and Insurgents want to reduce American workmen to the European level .-American Economist.

ROOSEVELT ISSUE DISRUPTS THE NEW **KEYSTONE PARTY**

Pittsburg Leaders Say Berryltes **Bossed Convention and Froze Them** Out-Berry is Sure to Lose, They

PITTSBURG, JULY 31-The defeat of the resolution expressing pleasure at the return to the United States of former President Theodore Roosevelt by the delegates of the Keystone party convention in Philadelphia last Thursday has split that organization asunder and a large part of the Republican end of it, will not give their support to William H. Berry the gubernational nominee.

While not permitting themselves to be quoted, several of the local leaders of the Keystone party yesterday expressed considerable bitterness at the outcome of the convention. They Man." charged that the promoters of the Berry boom controlled the entire affair and would not give the Republicans any show whatever. The local leaders declared they would go along with the ticket because of the nominating of Cornelius D. Scully for State treasurer but they don't propose to work up much enthusiasm.

NARROW PIECE OF WORK

By refusing to adopt the Roosevelt resolutions, which was but an expression of pleasure at the return of the former President, the local leaders declare the convention drove out of the organization a large percentage of the Republicans. "It was supposed to be a convention of independents," declared one leader, "and embodied the principles for which Theodore Roosevelt has advocated. It was, therefore, but right that we should have adopted a resolution expressing pleasure that he was back again on the job in this country. It was a narrow piece of work to defeat the resolution and I cannot see how the Republicans of the convention can stand for it."

This same leader declared there was absolutely no hope for Berry's election. can, but there is little incentive to the and death to thousands. sional, senatorial and legislative ticket in the field in Allegheny county, but we are badly handicapped by the Berry candidacy. CASTE IN THE ARMY.

Civilians Find It Difficult to Understand Military Discipline.

One thing not commonly understood among civilians is the completeness of the barrier which divides army officers from the soldiers, or, as they are more generally called, the "men." It is always vastly amusing to those familiar with the service to observe the errors in this respect frequently made by the novelist and the playwright.

Personal qualifications have nothing whatever to do with the matter. A soldier may be a gentleman who has enlisted with the purpose of obtaining a commission, yet there can be be-tween him and his officers no social intercourse of any sort, and severe penalties would be inflicted upon the officer who would attempt to disregard

the rule.
It might seem that this enforcement of a caste sense would result in much hard feeling on the side of the men. Such, however, is not actually the case. It is taken for granted and recognized as conducive to "good order and military discipline." It is a military regulation like any other and implies no disgrace. Directly a soldier's enlistment is out or directly he rises from the ranks the prohibition is removed .- Delineator.

Old Moon Beliefs.

The health, growth and development of children and animals were years ago supposed to be influenced by the moon.

If the sign was right at the time of birth they would be well formed and intellectual, but if it was wrong there was no telling what sort of creatures they would become. Every worthless fellow, every dog, rooting hog, fence jumping cow or kicking horse was believed to have been born under an un-favorable phase of the queen of night. Queer people or those who were of hateful disposition were children of the dark moon, with the sign below the heart.
