## STRANGE THINGS FOUND IN VARIOUS PORTIONS OF THE EARTH

### Pass of Killiecrankie Sold

The Pass of Killiecrankie, one of the most famous and romantic spots in all Scotland, has just been sold under the hammer of the auctioneer as a part of the estates of Archibald Edward Butter, Esq. The historic road through the pass crossed the hill near Faskally House and descended to the ferryman's hut at the south end. Down this road many pageants of Scottish history passed. It was by this road that King Robert the Bruce, after the murder of Red Comyn, retreated from the battle of Methven where he had been surprised by the earl of Pemroke. By the same road Mary, Queen of Scots, went with her gay cavalades for the famous deer-drives in the forest of Atholl. Through the pass went General Mackay with Hanoverian soldiers of fortune to meet and be routed by the clansmen under John Graham of Claverhouse—"Bonnie Dundee"—who had raised the standard of King James against William and Mary.

It was through the Pass of Killiecrankie that nearly 1,000 Atholl men marched to join the earl of Mar in the rising of 1715, and this way in '45 came the Young Pretender before he went south on his great adventure, which ended in disaster, and forfeited estates, and blood on many scaffolds. The Pass of Killiecrankie is, indeed, a high-road of Scottish and English history. Edward III. came here with his knights in his attempt to trample the spirit of the Scots into subjection. Highland reivers drove their cattle along this road, and wounded men crawled down the pass after many a fight between the clans. The tramp of armed men, the fierce shouts of battle, the wild pibroch that called to the Highland chiefs, still come echoing down the glen to those who have listening ears.

### DOESN'T LIKE AUTOMOBILES "DEAD" MAN RETURNS HOME

In America the inhabitants of the rural districts not only have become reconciled to the automobile, but themselves own the cars by thousands and find them sources of delight as well as great conveniences. In England the rustic has not been so easily won over, as is witnessed by the sign here pictured. It stands by one of the main highways of the south of England and the man who put it up has kept it in repair for years.

### NOTABLE ENGINEERING FEAT

Recently a notable piece of engineering work was achieved in San Francisco, while the demolition of the old city hall was in progress. Between the violent earthquake and the fearful fire of April, 1906, the building was practically reduced to a mass of ruins. So it was determined to raze the shattered structure and construct a new and modern hall.

Surmounting the lofty dome a huge statue of the Goddess of Liberty has perched for more than twenty years past. The statue escaped unscathed both the heavy shock and fire. This immense metal statue is nearly twenty feet in height, and, with the pedestal, to which it is firmly attached, weighs about three tons. From the ground up to the pedestal the distance is about 350 feet, and to the apex of the Goddess, is 370 feet.

As it was very much desired to take down the huge statue undamaged and to place it in Golden Gate park, as a public souvenir of the great disaster, the contracting firm undertook to bring it to earth without damage. This proved a difficult and perilous feat in engineering, for to bring down, undamaged, 6,000 pounds of metal from a height of 370 feet was a ponderous task. However, the work was done very successfully. By means of a system of derricks, steel cables, tackle, etc., operated by several donkey engines, the big statue was loosened from its firm anchorage on the dome's crest, and gradually lowered to the earth. The work was done without the slightest accident to the statue, or to the force of men engaged in the task. Engineers declare that it is a notable feat along engineering lines, at least of that kind, and the contractors are being warmly congratulated over the success achieved.

### MARRIAGE AFTER DEATH

The marriage is reported of two dead lovers from the Japanese village of Shizuoka. A young couple fell in love, and sought their parents' sanction to their union. For some reason this was withheld in the case of the girl, and the broken-hearted couple resolved to commit shinju rather than be separated.

The two embarked on a fishing boat and when some distance from the shore bound themselves together with cloth brought with them for the purpose, and threw themselves into the sea. The following morning the couple were missed from their homes, and the matter was communicated to the police. Later on the bodies of the young couple were washed ashore, and, after the official examination, delivered to the parents. On learning of the tragedy, the mayor of the village was much affected, and calling upon the bereaved parents, proposed that the wedding ceremony be performed over the dead bodies, so that the deceased might be united in the other world. The parents agreed, and the ceremony was carried out in due form, even to the exchange of presents between the two families.

### RALEIGH'S BIG GRAPE VINE

Visitors to Roanoke Island never fail to see the scuppernon grape vine, the largest in the world, that is known as Sir Walter Raleigh's grape vine. It was planted by Raleigh's party, which settled in Roanoke Island, N. C., more than 300 years ago. The adventurers left England on April 27, 1584, with the following charter from Queen Elizabeth: "Power is hereby given to Raleigh and his assigns by the queen freely to search for and occupy and enjoy for ever such remote and barbarous lands not possessed by any Christian people as to him might seem good. He is at liberty to take with him to such lands and leave there for inhabitants as many of the bushes," and so forth. The immense scuppernon grape vine, with stem larger round than a man's body, is an interesting relic of the past, and bears fruit abundantly.

### Paying His Rent With a Flag

The duke of Wellington holds the manor of Strathfieldsaye on condition that each year, on the anniversary of the battle of Waterloo (June 19), he presents to the sovereign a French flag, a sign that the estate is held by favor of his services. Generally, the reigning duke presents the banner in person; indeed, he used to bear it to the sovereign himself, riding on horseback. This year, the court being in mourning, a representative of his grace took the "rent" to Windsor, and saw it set in place. The duke of Marlborough retains the Blenheim estates by payment of a similar fee on the anniversary of the battle of Blenheim (August 13). In each case, when the new flag is set in position, the old flag goes back to the duke. Non-presentation of the flag would entail forfeiture of the estate.

### IN AGONY WITH ECZEMA

"No tongue can tell how I suffered for five years with itching and bleeding eczema, until I was cured by the Cuticura Remedies, and I am so grateful I want the world to know, for what helped me will help others. My body and face were covered with sores. One day it would seem to be better, and then break out again with the most terrible pain and itching. I have been sick several times, but never in my life did I experience such awful suffering as with this eczema. I had made up my mind that death was near at hand, and I longed for that time when I would be at rest. I had tried many different doctors and medicines without success, and my mother brought me the Cuticura Remedies, insisting that I try them. I began to feel better after the first bath with Cuticura Soap, and one application of Cuticura Ointment.

"I continued with the Cuticura Soap and Cuticura Ointment, and have taken four bottles of Cuticura Resolvent, and consider myself well. This was nine years ago and I have had no return of the trouble since. Any person having any doubt about this wonderful cure by the Cuticura Remedies can write to my address. Mrs. Atte Eton, 93 Inn Road, Battle Creek, Mich., Oct. 16, 1909."

### All the Difference.

The professor was delivering an eloquent address on cruelty to animals, and, to illustrate how a little judicious forethought would eliminate to a great extent the sufferings that even small insects are subject to, said: "As I was coming through the hall tonight I saw a bald-headed gentleman very harshly treat a little innocent house-fly which had alighted on his head. 'Now, if there was any justification for such bad temper, I would be quite justified in indulging in it at the present moment, for a fly has just alighted on the back of my head. I can't see it, but I can feel it. 'Possibly some of you can see it now; it is on the top of my head. Now it is coming down my brow; now it is coming on to my G-r-r-rat pyramids of Egypt, it's a wasp!'"

### The Stylish Fisherman.

One of the guests of a fashionable summer resort in West Virginia got himself up in his best fishing togs and started along a certain mountain stream. Meeting a native, he asked: "Here, my good man! kindly tell me whether it would be worth my while to try fishing in this vicinity." The native regarded him scornfully. "The fishin' ain't good," he finally said, "but I ain't informed as to how you values your time."—Lippincott's.

### Lemons Cure Malaria.

Lemons are said to be an infallible cure for malaria. This is the method of preparation: Take one lemon, wash thoroughly with a brush and hot water till all germs are gone, cut in very small pieces, using skin, seeds and all; cook in three glasses of water till reduced to one, and take this while fasting. A cure is generally effected within a week.

### Mrs. Henderson's Waist.

Mrs. Henderson isn't going to wear that pretty white waist of hers again, because it came from the wash all streaked and spotted by the rosin that was in the common yellow soap. If Mrs. Henderson will have it washed again with Easy Task soap, which has no rosin in it to streak and rot the fabrics, ten to one it will look like new. Easy Task does wonders for the clothes and for the women who work. Costs no more than poor soaps.

### Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.

### WESTERN CANADA'S 1910 CROPS

Wheat Yield in Many Districts Will Be From 25 to 35 Bushels Per Acre

Land sales and homestead entries increasing. No cessation in numbers going from United States. Wonderful opportunities remain for those who intend making Canada their home. New districts being opened up for settlement. Many farmers will not, this year, \$10 to \$15 per acre from their wheat crop. All the advantages of old settled countries are there. Good schools, churches, splendid markets, excellent railway facilities. See the grain exhibit at the different State and some of the County fairs.

Letters similar to the following are received every day, testifying to satisfactory conditions; other districts are as favorably spoken of:

**THEY SENT FOR THEIR SON.**  
Malden, Sask., Canada, Aug. 5th, 1910.  
"My parents came here from Cedar Falls, Iowa, four years ago, and ever since well pleased with this country they sent to Cedar Falls for me. I have been in homestead near them, and am perfectly satisfied to stop here."  
Leonard Douglas.

**WANTS SETTLER'S BATH FOR HIS STOCK.**  
Stettler, Alberta, July 21st, 1910.  
"Well I got up here from Forest City, Iowa, last spring in good shape with the stock and everything. Now I have got two boys back in Iowa yet, and I am going back there now soon to get them and another one up here this fall. What I would like to know is, if there is any chance to get a cheap rate back again, and when we return to Canada I will call at your office for our certificates."  
Yours truly,  
H. A. Wik.

**WILL MAKE HIS HOME IN CANADA.**  
Brantford, Minn., Aug. 1st, 1910.  
"I am going to Canada a week from today and intend to make my home there. My husband has been there six weeks and is well pleased with the country, so he wants me to come as soon as possible. He filed on a claim near Landis, Sask., and by his description of it it is sure to be a great place."  
Send for literature and ask the local Canadian Government Agents for Excursion Rates, best districts in which to locate, and when to go.

**WANTS TO RETURN TO CANADA.**  
Vesta, Minn., July 24th, 1910.  
"I went to Canada nine years ago and took up a quarter section of railroad land and a homestead. But my boys have never taken up any land yet. I still hold the railroad land. I had to come back to the States on account of my health. Please let me know at once if I can get the cheap rate to Ponoka, Alberta."  
Yours truly,  
Geo. Paskowitz, Vesta, Minn.

**TAKES HIS BROTHER-IN-LAW'S WORD FOR IT.**  
Taylors Falls, Minn., Aug. 7, 1910.  
"I shall go to Canada this Fall with my cattle and household goods. I got a year crop here this year and my brother-in-law, Axel Nordstrom in Cameron, Texas, was to come there. He formerly lived in Williston, North Dakota. I am going to buy or take homestead when I get there, but I do not want to travel two times there, for I take my brother-in-law's word about the country, and want to get your low rate."  
Yours truly,  
Peter A. Nelson.

**H. M. WILLIAMS, Law Building, Toledo, Ohio**
