## Dear Madam: If you are of SLENDER FIGURE and want REAL CORSET COMFORT

Let us Show You the Latest Corset Invention  
**Nemo "Lastikops" No. 330 at \$3.00**  
 Look at the illustration—see those two transverse bands of that wonderful new semi-elastic fabric, Lastikops Webbing. These bands give you firm but gentle support, stop that "bearing down" sensation (you know what that means), and give you sylph-like slenderness and the greatest comfort you have ever enjoyed.  
 DOES THAT INTEREST YOU?  
 You'll have to see this corset, try it, and WEAR it before you will fully understand what a godsend it is to slender women. Sizes 18 to 26—\$3.00.

## A Corset All Doctors Can Recommend

**Nemo No. 522, with "Lastikops Bandlet"**  
 Corset-making has reached its highest development in the new Nemo No. 522. The "Lastikops Bandlet" prevents all the evils of tight lacing, and allows its wearers to be slender beyond their fondest hopes—safely and comfortably.  
 Any woman who wears a separate abdominal belt can throw it away if she wears a Nemo No. 522. The "Bandlet," which is a PART OF THE CORSET, does better work than the best separate belt that can be bought for \$5.00 to \$25.00. It adjusts itself, CAN'T SLIP, and simply won't allow the front steels to stick out below, even when you're seated.

**Nemo Corset No. 522—\$5.00**  
 The reducing power of this corset is really amazing. Every stout woman needs it, and it's just as good for women of slight figure who want to be ultra-fashionably slender and still well and comfortable. Sizes 19 to 36—\$5.00.
