

THE CAMERON COUNTY PRESS.

ESTABLISHED BY C. B. GOULD, MARCH, 1866.

"Liberty and Union, One and Inseparable."—WEBSTER.

TERMS: \$2.00—\$1.50 IN ADVANCE.

VOL. 44

EMPORIUM, PA., THURSDAY, NOVEMBER 24, 1910.

NO. 41.

Notice to Farmers and Others.
You are earnestly requested to attend some or all of the Farmers' Institutes to be held in Cameron county as follows:

Lodge's Hall, Sinnamahoning, Wednesday, Nov. 30th.
Messiah Church, Sterling Run, Thursday, Dec. 1st.
Rich Valley Church, Rich Valley, Friday, Dec. 2nd.
School House, Sizerville, Saturday, Dec. 3rd.
School House Truman, Saturday, Dec. 3rd.

The instructors sent out by the State Department of Agriculture for this section this year are the following, viz: Mr. J. H. Peachey, of Belleville, Pa., who now is and has been for 23 years farming the farm on which he spent his early life. He will talk on some of the following subjects, viz:

Alfalfa; corn culture; horse breeding for farmers; buttermaking on the farm; the clover crop and how we grow it; the problem of education for the country children; the home on the farm; soil fertility; the emancipation of the farmer; good-bye, take care of the farm.
Dr. W. T. Phillipy, of Carlisle, Pa., born and raised on his father's farm in Franklin Co., Pa., and who for several years has been farming his own several farms in Cumberland Co., Pa., will talk on some of the following subjects, viz:

Soils and their management; soil fertility and how to secure it; corn selection and culture; alfalfa culture; potato culture; poultry on the farm; up-to-date dairying; practical fruit growing for the farmers; feeding farm animals; the most imperative duty of people; the old farm.

Mr. Elmer Dookey of Elizabethville, Dauphin Co., Pa.; who for a number of years has been managing the farm upon which he was born in Dauphin Co., Pa., will talk on some of the following subjects, viz:

Alfalfa and how to grow it successfully; value of corn and how to raise a successful crop; the farmers' boy and girl and how to keep them on the farm; the necessity of farmers' organizations; how to handle barnyard manure successfully.

Mr. R. J. Wald, of Sugargrove, Pa., who owns and operates a farm in Warren Co., Pa., will discuss some of the following subject, viz:

The rotation of crops; some losses from manure piles; improving the dairy herd; buttermaking at home.

Mr. Chas. H. Rich, of Woolrich, Clinton Co., Pa., will speak on some of the following subjects, viz:

The chemistry the farmer should know; roads, "get out of the mud"; home sanitation; horticulture; essentials to success on the farm; economics and community of interest affecting the farmer; the harmony in nature.

Respectfully Yours,
W. H. HOWARD,
County Chairman of Institutes.

Society Events.

MASQUERADE PARTY.

The popular younger set held a very enjoyable masquerade party at Emmanuel Parish House last Monday evening. Some very fine and unique costumes appeared at this time and the happy assemblage tripped the light fantastic until the "wee small hours" on Tuesday morning. This is the bunch that have a good time and when they start out for a pleasant evening none are disappointed.

SMOKER AND LUNCHEON.

The members of Washington Camp, P. O. S. of A., No. 382, held a very enjoyable smoker and luncheon at the Camp Rooms last Monday evening. A goodly number of the Camp members were present and had a very pleasant time.

MISS LEADBETTER ENTERTAINS.

On Monday evening, the home of Miss Francis ("Duckie") Leadbetter was the scene of much merry making, at which time Miss Leadbetter entertained several of her Emporium friends. This home is an ideal place for a good time and "Duckie" makes a charming hostess. All present report a fine time.

The Great Pennsylvania Station.

On Sunday next the wonder of modern times, the erection of the great Pennsylvania Station at New York City will be opened to the public, after which date all through trains, will start from and arrive at the Pennsylvania station—one block from Broadway. We have before us a beautiful booklet, descriptive of the world's greatest undertaking, exclusive of the Panama canal. What a great pity it is that the late A. J. Cassatt, the originator of the huge undertaking, could not live to see its completion.

Same Old Story; Tariff For Revenue.

Democratic Leaders Line up on That Program.

The revision of the tariff, upon the plan of a tariff for revenue only, is to be the aim of the democrats.

This announcement was made to-day by several democratic leaders in influence in the party's affairs, and following the receipt of the following telegram from Representative Underwood of Alabama, one of the prominent democratic leaders:

"I favor a tariff for revenue only. I believe the difference in labor and cost of production of manufactured articles at home and abroad would be covered by a tariff that raised a sufficient revenue to support the government economically administered.

"I am opposed to protecting profits and because I believe protecting profits means protecting a monopoly."

Faithful Employee.

The PRESS sanctum was on Saturday last, honored by a social visit from our old and esteemed friend the venerable James O'Day, of East Emporium. Although well advanced in years, now being almost 68 years old, he has for 37 years been a faithful member of the repair crew of the Penny R R., at the Junction, in the department managed by Mr. Elmer Klock, than whom there is no more competent employee of the Penny, kind and popular with his men, yet firm in the direction of his department. Mr. O'Day is profuse in his praise and admiration of his foreman. Long may they both live, for they are an honor to our town.

"Human Hearts."

"Human Hearts" the melodramatic success announced at the Emporium Opera House appeals to every class of playgoers. It deals with a story that teems the heart from beginning to end. "Tom Logan" an honest young blacksmith in the Arkansas Hills, falls in love with and marries a reformed confidence woman. The dull country life soon palls on her. She accidentally meets her former lover and pal. Without cause they conspire together to ruin Tom and kill him if necessary. The woman calls him while her accomplice conceals himself. The father of Tom responds and is mistaken for the "Young Blacksmith." He is fatally stabbed by the ambushed man. Tom, coming out to see where his father is, is accused by the adventuress and her "pal" of the murder. He is finally sentenced on that charge. But his friends ultimately establish his innocence and he is released. Retribution overtakes his villainous and murderous accusers. No play of its kind possesses a stronger plot or more sensational incidents. The serious element is mingled with comedy, forming a combination that never fails to touch a responsive chord in the hearts of playgoers.

Chinese and Coolie Competition.
China is sending pig iron to the United States and is getting ready to produce many other things with the starvation wages paid in that country. A beet sugar manufacturing company is completing a factory at Harbin to produce 28,900 pounds of sugar each day. Other factories already in operation. Can American farmers raise beets and can Americans produce sugar in competition with the Chinese and Japanese without protection.

An official report from Trinidad says that coolies are employed on the estates on that island, and that the highest pay for laborers is 36 cents per day for men and 24 cents for women. The United States imports nearly \$5,000,000 annually from Trinidad of articles produced by labor paid at the rates mentioned.

An official report from the United States commercial agent in Barbadoes says that "laborers earn 30 to 40 cents a day at farm work, the women getting half as much." They go barefooted and wear cotton cloths the year round. Free-Traders want American laborers put on a level with such foreign workers.—American Economist.

Superintendent N. C. Schaeffer, of the State School Department, in an address to the teachers of Franklin county on Tuesday, referred to the great number of foreigners coming into the State and said that the large majority were studious and industrious and that unless the American boys look to his laurels the foreign-born boy will take his place in the vocations of life. In many cases, he said, education to the American boy means nothing else but baseball, football, evening balls and highballs.

Property for Sale.

A property on West Fourth street for sale. Inquire of
38-14. GEO. BARKER.

DEATH'S DOINGS.

MILLER.

MRS. BESSIE MILLER, daughter of Mrs. Justin Miller, died at the family residence on Huston Hill, Thursday, November 3rd, 1910, aged about twenty-six years. Miss Bessie was left an invalid at the age of eight, from the effects of scarlet fever, but was a very patient sufferer; was only bed fast four days. The family have the sympathy of all, for it is only a little over a year since the youngest daughter of the family, Miss Lois, died. The funeral was held at the family residence, Saturday, Nov. 5th, at 3 p. m. Rev. Ebersole, officiating, after which the remains were conveyed to Hicks Run and laid to rest in Hicks Run cemetery. She is survived by the following brothers and sisters: O. D. Miller, of Olean, Mrs. O. E. Barr, of Huston Hill; Mrs. W. E. Barr, Hicks Run, and Benj. H., at home.

Mrs. Miller and family desire to thank all for their kindness and sympathy.

LEVERING.

Grant Levering, aged 40, died at Elmira, N. Y., on Saturday last after a short illness. Deceased was well and favorably known in both Emporium and Coudersport, having visited here repeatedly. His wife, formerly Maud Pearsoll, survives him. Frank H. Pearsoll and Josiah A. Fisher left Emporium on Sunday for Elmira, to attend the funeral, which was held on Monday. The PRESS and many Emporium citizens deeply sympathize with the bereaved wife.

Educational Train.

Continuing its efforts to create added interest in scientific farming in the agricultural districts through which it operates, the Pennsylvania Railroad is carrying on an active campaign this winter with its special educational trains, the first of which will be operated on Saturday, November 26th, on what is known as the Bedford Division of the Pennsylvania Railroad.

The Pennsylvania was the first railroad in the East to operate farmers educational trains. In the past three years almost every division of the railroad has been visited, and its boat lines on the Chesapeake Bay have had special educational steamboats on which lectures were delivered.

Food For Digestion.

Democratic Tariff laws have been tried twice. Both times everything was cheap! Neither time did labor have the price to buy.—Eaton (O.) Register.

A Kansas farmer bought a lumber wagon for \$60, in 1894, paying for it with 600 bushels of corn. He went to the same dealer for another wagon the other day, and objected to the price, \$70. The dealer said: "Bring in 600 bushels of corn, as you did in 1894, and I'll give you the wagon and a survey, a twin-binder, a kitchen range and an outfit of kitchen furniture.—Baraboo (Wis.) Republican.

The most nonsensical claptrap yet put forth is the pretense that high tariff is responsible for the high cost of what goes into the workingman's dinner bucket. The tariff has no more to do with the price of bread, butter, eggs, meat, fruits, etc., than it has with the altitudinal location of the moon. If it were not for a protective tariff half of the dinner buckets would be rusty from disuse.—Kansas City Journal.

Look Who's Coming.

President Taft or our genial Ex-President Roosevelt may not visit our city on their coming tour of the country but Messrs. Hillbourn-Whittier, the well known theatrical firm, have arranged with the management of the Emporium Opera House to bring their well known comedy drama, "The Bowery Detective," to our city on Tuesday evening, Nov. 29.

This time tried production will be presented in its entirety, the best cast of characters ever put together to interpret a play, all new and special scenery befitting the locality the scene is laid in, and a grand array of head line vaudeville acts will be presented during the action of the piece.

There will be no increase in the prices of admission for this stupendous attraction, prices will remain as usual and reserved seats can now be secured at Harry Lloyd's. Remember "The Bowery Detective" will only appear here one night Tuesday, Nov. 29, this season so avail yourself of the opportunity of seeing this comedy treat.

Emporium Social Club.

The members of the Emporium Social Club will hold their next dance at the opera house on Wednesday evening, November 30th. These dances will continue, whenever it is possible, every two weeks on Wednesday evening.

Cameron County should be Well Represented.

There is an institution of the State that has been established exclusively for the public, and for the benefit of every citizen in the Commonwealth. It is the State Museum at Harrisburg, where a collection is being made of every kind of mineral, animal, bird, insect, flower, specimen of tree, and historical relic from each county of the State.

Cameron County should be well represented in this institution, which is laying a foundation invaluable for future years. The purpose of the various divisions of the museum is as follows:

DIVISION OF ZOOLOGY.

Where can be seen the animals in their respective haunts and natural surroundings; many valuable features for the agriculturist, where information may be obtained in reference to the birds, insects and animals of the locality that are helpful or destructive to the crops.

DIVISION OF GEOLOGY.

Since Pennsylvania is rich in minerals, there should be placed before the people of the Commonwealth one of the best State mineral exhibits found in the Union. This should include mineralogy, paleontology and industrial geology. Each county in the State should be well represented by its respective minerals, the coals, irons, oils, clays, glass sands, building stones, etc., with maps and charts showing where located. The educational and industrial should be closely allied to be of use to the Commonwealth. There should be maps, charts and fossils of the geological era, portraying the earliest formations known, including the glacial period, upheavals, mountain and valley making, rivers and lakes of the State, with relief maps and models showing strata formations, etc.

A DIVISION OF BOTANY.

With specimens helpful in learning the different species of trees, their uses and their woods; the care of forest preserves, as well as the flowers and plants used for beautifying or for their chemical and medical qualities. Many fossil plants of the coal fields of Pennsylvania are on exhibition at the Museum. With the realization of the Capitol Park extension, it would be pleasing to see every tree, shrub and flower native in the State planted and labeled, as far as practicable, within its grounds.

DIVISION OF ARCHAEOLOGY.

Pennsylvania should be well known by a collection from the contents of mounds that have been unearthed, which tells of an early people inhabiting the State, antedating the American Indian. These implements of history, arts and crafts should be gathered at the Museum, that our present and future generations could have a more definite knowledge of these early people. Following this, the American Indian collection should be arranged and preserved. There are several good collections in the State, now obtainable, and in a few years these may be scattered and lost. They should be arranged to show their manner of living; arts and crafts in war and peace; monuments, implements, inscriptions, relics, dwellings, clothing and food obtained from their surroundings, each properly shown in its relation to the other. Maps of their paths over the State; origin and meaning of the many Indian names of cities and towns, rivers, etc., throughout the State. Then follow with the customs and arts of the early European settlers, and the implements of their arts, crafts, etc. This influence was the nucleus around which the moulding of our early history of the State was formed. The early publications, German pie plates, and the hand printing should also be shown.

There are historic relics of war and peace in which the State is very rich. Many good collections are scattered throughout the State, and should find a home in the museum. There are also many unmarked historical spots in each county of the State which should not be neglected. Either the State or historical society of each county, should see that these are authentically and intelligently labeled, even if only with a small bronze tablet on a Boulder, so that they may not be lost to posterity.

USEFUL AND FINE ARTS.

Pennsylvania from its earliest times has produced articles from the looms, print shops and the forge. The Museum wishes to make a fine collection of the articles, including those of exquisite make of the present day. These will include printing, book-binding and photography; textiles in cotton, wool, silk and linen, pottery, glass, terra cotta, porcelain, mosaic, ceramics and glazing. Articles of metals, bronze, leather and wood. All of these articles to be of Pennsylvania make only.

There are many persons in Cameron county having relics pertaining to Pennsylvania, which they wish to preserve for posterity; there is no more fitting place to preserve and display these to the public than at the State Museum at Harrisburg, where they will be well cared for and displayed. The Museum will be glad to receive any such material, either permanently or as a loan, in the following subjects, flora, fauna, minerals, geology, archaeology, arts and history. These should be well labeled, with the name of the specimen, location or any brief historical incident connected with it; the name and address of the donor should also accompany it. Address State Museum, Harrisburg, Pa.

Sales Manager for Cameron county. Must be capable of organizing a sales force to secure subscriptions for our magazine. References required. Special Agency, National Sportsman, 75, Federal Street, Boston, Mass. 31.

Letters from the People.

All communications under this head must be accompanied by the writer's name. We will not be held responsible for any expression in this department.—Editor.

Dangerous and Mischievous Practice.

EDITOR PRESS:—

Is there no way that our Borough authorities can punish, or fine, the boys who carry sling-shots, Flobery rifles, etc., and deliberately break window glass in private residences, barns and chicken coops? I have several times been compelled to replace glass in my barn and hen house, entailing an expense of at least eight dollars. I think the teachers of our schools should search each boy and take from all sling-shots, at the same time reporting their names to Sheriff Norris and chief Mundy. If I do not mistake the law imposes a heavy fine as well as the cost of damage.

Nov. 18th, 1910. H. W. GRAHAM.

We have received many complaints, lately, of boys throwing stones at private residences in their efforts to kill innocent English sparrows, thereby cracking if not breaking window glass. Complaints have also been made to the PRESS, very recently, of boys actually shooting into the homes of our citizens. Our officers should promptly put a stop to this dangerous practice, notify the parents of the offenders and lock them up in jail. Parents who allow or purchase the dangerous "weapons" are more to blame than the kids. One good dose of the law will finish it. If that does not try the jail.

Gone to California.

Wade Spence, who has conducted a farm on Moore Hill ever since his father's tragic death, has pulled up stakes and located in California. His nephew, Willie Mumford, has resigned his position with the Emporium Powder Co., and located on the farm, having purchased his uncle's interest in the same. Will is an industrious young man and if hard work counts for anything he is sure to make good.

Transferred to Rochester.

We are pleased to hear that Harold M. Waddington, who for the past three months has been employed in the Engineering Department of New York Telephone Co., at Buffalo, N. Y., has been transferred to the Rochester Division, at Rochester, N. Y., as Assistant Chief Drattsman. We wish him success.

"Human Hearts."

Good plays, like wine, improves with age. This is certainly true of that marvellously successful melodrama "Human Hearts" which Manager Reno offers for the coming season. The company to be seen in the play this season comprises all of last year's favorites, and wherever a part could be improved upon, the change has been made, and it is promised that never before has this beautiful play been so well represented. "Human Hearts" give a pure, wholesome lesson that touches the heart-strings in the pathetic scenes and excites the risibilities in the humorous ones. The pathos and comedy are so well blended that the audience is in tears one moment and convulsed with laughter the next. The scenic equipment will be perfect in every detail, so it is said, and the management has done everything to insure a first class performance.

K. of C. Meeting at Renovo.

A large number of Emporium Sir Knights attended a special session at Renovo last Sunday. The following from Emporium were in attendance: Frank McCloskey, Herbert Vogt, A. F. Vogt, Jos. Lechner, Chas. Farrel, Geo. Welsh, Daniel Welsh, John Heher, Ed. McCarthy, Geo. Costello, James Kearney, Mr. Law, Sidney Geary, Jas. Farrel, Harold Seger, Leo. Hayes, James Halsey, Frank Erskine, Henry Hout, Peter Murray, P. H. Burke, and others whose names we were unable to secure.

Thanksgiving Ball.

All the plans and preparations as just about completed for the big annual Thanksgiving Ball given each year by the Mountaineer Hose Company. The dance promises to be the most successful ever given and all who have attended these dances in the past know what they are, and how successful they have been.

Purchase Your Ticket.

Have you purchased your ticket for the big Thanksgiving Ball to be given by the Mountaineer Hose Company at the opera house? The famous Germania Orchestra will be on hand to furnish the music and Seger and Company will furnish the refreshments. All who have not bought their tickets should get busy.

The M. E. Supper.

The above supper given last Thursday evening was a great success, over 300 tickets were sold and 300 persons were served, netting the church \$85.15. It took 40 chickens and 1,115 biscuit with side dishes to serve the people.

THE WEATHER.

FRIDAY, Fair.

SATURDAY, Fair.

SUNDAY, Fair.

ASSETS

First National Bank,

EMPORIUM, PA.

At the close of business, Nov. 22, 1910.

\$953,226.73.

THANKSGIVING DAY.

Is a festival of thanksgiving for the mercies and blessings of the year, and in addition to the gratitude for health, we offer our thanksgiving for the prosperity which has attended us.

And the man who is not able to mention a Savings Account in his Thanksgiving praise should profit thereby and start one with this bank at once.

One dollar or more will get him in the habit of coming here regularly to deposit a portion of his earnings.

Born, to Mr. and Mrs. W. E. Barr at Hicks Run, Nov. 13th, 1910, a daughter.

Through an error the advertisement of Doan's Kidney Pills in this paper was made to read: Price, 25c, 35c, 50c, and 75c. The price of Doan's Kidney Pills is 50c per box. They are put up in only one size package which retails at 50c, and the good work that this medicine does makes it well worth the price.
