

ROYAL Baking Powder Economy

The manufacturers of Royal Baking Powder have always declined to produce a cheap baking powder at the sacrifice of quality.

Royal Baking Powder is made from pure grape cream of tartar, and is the embodiment of all the excellence possible to be attained in the highest class baking powder.

Royal Baking Powder costs only a fair price, and is more economical at its price than any other leavening agent, because of the superlative quality and absolute wholesomeness of the food it makes.

Mixtures made in imitation of baking powders, but containing alum, are frequently distributed from door to door, or given away in grocery stores. Such mixtures are dangerous to use in food. In England, France, Germany and some sections of the United States their sale is prohibited by law. Alum is a dangerous mineral acid, and all physicians condemn baking powders containing it.

The label of alum baking powders must show the ingredients.

Resolution Adopted.

RESOLVED, That we the members of Washington Camp, P. O. S. of A., No. 382, in regular Camp on Monday evening, March 6th, express our appreciation of the worth of Brother Rev. J. F. Anderson, as a man and our high regard for his influence in the Camp and community and heartily hope that he will return for another year. WASHINGTON CAMP, No. 382, P. O. S. OF A.

Special Sermon for Young Women.

Next Sunday evening the Rev. M. L. Tate, Rector of Emmanuel Episcopal Church, will deliver a sermon to young women. The theme will be, "The Fragrance of an Unselfish Deed."

"Kindly Mail Check."

How dear to our heart is the steady subscriber Who pays in advance at the birth of each year, Who lays down the money and does it quite gladly.

And casts around the office a halo of cheer. He never says, "Stop it, I cannot afford it. I'm getting more magazines now than I read." But always says, "Send it, our people all like it. In fact, we all think it a help and a need." How welcome his check when it reaches our sanctum, How it makes our pulse throb; how it makes our hearts dance! We outwardly thank him; we inwardly bless him— The steady subscriber who pays in advance. —Exchange.

"Havana Ribbon" cigars will please you. 4-3t.

Much or Little?

The new maid seemed eminently satisfactory, but the mistress of the house thought a few words of advice would be just as well. "And remember," she concluded, "that I expect you to be very reticent about what you hear when you are waiting at table." "Certainly, madam, certainly," replied the treasure. But then her face lit up with an innocent curiosity. "May I ask, madam, if there will be much to be reticent about?"

Creased Garments.

Clothes packed away during summer are often very creased. To remove the creases hang the article on a clothes-line in the bath room, shut door and window, turn on the hot water tap to fill the room with steam, and leave the clothes for an hour or two. Afterward dry in the open air if possible.

Evil in Timber Fires.

If the first fire had been kept out of the state of Washington the annual growth of the new timber crop would be fully the equal of the annual timber cut, and the land cut over in the fifties would today be ready to yield more feet an acre than did the original cutting.

Submarine Not New.

The man has got to get up early who would get there before the Scot. It is now mentioned that the earliest known patent upon a submarine vessel was one granted by a French king in 1640 to a Scotoman who had invented an underwater craft for fishing and salvage purposes.

Sensitive Artist.

A young artist named Ernest Goess caused a sensation at an art exhibition in Budapest last week by suddenly tearing down his own picture and slashing it to pieces with a knife. "I cannot stand my work being criticized," he said.
