

THE FREEMAN.

EBENSBURG, PA., JAN. 30, 1868.

OUR SECOND YEAR.

The Freeman this week enters its second year. It boasts the best subscription list and more reading matter than any paper published in the county.

During the last year we did more than we promised, and can only promise to do our best for the future.

"He who does the best he can will whiten his name."

GEARY AND MEXICO.

The Alleghenian says our remarks in reference to the "failure," John W. Geary, in connection with the Mexican war, is "indignantly repudiated by every Mexican soldier in our midst."

ENGLAND STILL QUAKING.

The Fenian excitement in England is still unabated, and notwithstanding all the efforts of the government to suppress these champions of Irish freedom, every day seems to add new strength and vigor to the organization.

THE RUSSIAN CONGRESS.

The body of revolutionists is busy in the attempt to destroy the co-ordinate branches of the government.

THE JOHNSTOWN TRIBUNE, NEGROES, AND STEALING.

A lady in Florida had a thousand sheep a few months ago. Every one of them has since been stolen, killed and eaten by negroes.

We find the above in the last Ebenberg Freeman. It is a fair specimen of the Democratic "arguments" of the day.

We had no reason to doubt the truth of the item, or we should not have given place to it; neither has the Tribune. Nor does it deny it rather than to aver that it is not "certainly" true; in other words, the Tribune is not certain that it is true.

But the pith of the Tribune's article is that the Democrats are responsible for negro sleeping-stealing, because they were the masters of the souls and bodies of these negroes up to 1867.

Previous to the rebellion the Radical Abolitionists were loud in asserting that the Tribune now asserts that the slaveholders of the South totally neglected the mental and moral culture of their slaves.

In short, the Radical song was, that mentally and morally these poor negroes, who had immortal souls to save, were in no better condition than the "beasts of the field that perish."

And yet—"tell it not in Gath, publish it not in the streets of Askelon"—the Tribune and its party are determined to throw the government of ten sovereign States into the hands of these negroes, who so far have only been educated up to the point of stealing sheep.

We don't want the Tribune to ignore this great practical question. It is no answer to say that these negroes were slaves—that it is not their fault that they are ignorant and degraded.

We ask the Tribune to meet this practical question squarely. With the past we have nothing to do. Let the past "dead bury its dead."

New occasions teach new duties; Ancient good becomes unchast; He must upwards look and onward; Who would keep abreast of truth.

We feel as much true friendship for the negro race as any Radical. They are free—they may be and remain forever. They are equal before our Courts and Juries—we trust they may be always so.

The Indian tribes are not allowed the franchise, nor are the Chinese. The most intelligent foreigner, Kossuth himself, could not have acquired the right of suffrage without five years residence and the oath of two reputable citizens that he was of "good moral character," and "attached to the principles of the Constitution."

The propensity of the Southern negro to appropriate the property of others to his own use, is, perhaps, not so much a fault of the negro himself as of Radical teaching.

Decline of Grant Stock.—The waning popularity of General Grant with the people, since his recent duplicity in the Stanton imbroglio, says the Age, is every hour becoming more apparent.

Hon. Norman Williams, one of the oldest and most prominent citizens of Vermont, and father of Norman Williams, Jr., Esq., of Chicago, and of E. H. Williams, Superintendent of the Pennsylvania Central Railroad, died at his residence at Woodstock, in that State, on the 12th inst.

The wife of a lager beer dealer in Louisville, on the 18th gave birth to four bouncing boys. This is doing pretty well, considering that they have been married only about a year.

As the Radical candidate for the next governorship of Connecticut is running chiefly upon a large fortune accumulated in the carrier trade, a factious individual combines the would-be Governor's politics and profession by calling him the Black-and-Tan candidate.

Mr. Lincoln appointed five of the Judges now upon the Bench of the Supreme Court, and yet his friends will not trust them. This is paying but little respect to the memory of the "late lamented" head of the Radical party.

That Strange Story.

After republishing the truly strange story we printed a couple of weeks ago of the Troy, N. Y. Daily Press publishes the following:

There is a person in this city of the highest respectability, whom we will call X for convenience, who has seen this Miss Mrs. Ellen—Edgar—Powell—Burrham, and has been in his drug store at Broadhead, many times, and was informed by reliable parties in Broadhead of this wonderful transformation.

As far south as Texas the snow has been unusually heavy. Titus county, Texas, has had an inch and a half of the white dressing.

The Murder of Captain Reiter.

In our last issue there appeared a telegram from Pottsville, stating that young Albright had divulged the facts relating to the murder of Captain E. Godfrey Reiter, with the circumstances of whose mysterious disappearance from Tremont, several weeks ago, our readers are familiar.

At Sparfa, Miss., a Methodist preacher, Rev. T. Young, aged forty-six, has married Mrs. G. Mixon, aged eighty-three. Their united family numbers over one hundred children and grandchildren.

On the A. & G. W. evening train up from Youngstown on Friday evening was a man about thirty years old, named Charles Freese, formerly a brakeman on the road, but discharged about a week ago.

On the train last evening, Freese told the conductor that he was going to remove from Warren to Youngstown—that he expected his wife would not want to go, and that he would have trouble about it—

The following is going the rounds of the press: "A rule by which counterfeit greenbacks or national bank notes can be detected, has lately been discovered, which upon thorough trial, has proved infallible. It is this: Divide the last two figures of the number of the bills by four, if one remains the letter on the genuine will be A.

The "turning to Rome" of several Anglican sisters, and clergymen in England, recently chronicled, has been followed by the profession of the Roman Catholic religion by three members of the Irish aristocracy, Lords Dault and Grandare, and the Countess of Portarlington. These events have caused much comment in religious circles in Great Britain.

The Philadelphia Sunday Transcript, an original Grant paper, in speaking of Gen. Grant, says that he has "forfeited all claim to respect as a gentleman or confidence as a soldier," and that "he has sacrificed his lust for office to over ride his manhood," and furthermore says, "A candidate who commences his career in deceit will not fail to find shame, if nothing worse in the end."

A remarkable medical discovery has recently been made in the treatment of deafness by Professor Scott, of the New York Medical University, by which the most apparently hopeless cases have been radically cured. The method consists in introducing atomized Oxide of Phosphorus directly into the tympanum. No unpleasant sensations are produced, and a feeling of clearness seems to follow.

A destitute father in St. Louis had not enough money to procure a coffin for his dead child. So, taking the body in his arms, he carried it a long distance to the cemetery, but on arriving there discovered that he had neglected to obtain a burial certificate, and was compelled to retrace his steps and repeat his sad journey, carrying his dead child all the way.

At Springfield, Massachusetts, a gentleman is said to own a machine which cuts meat and vegetables, sifts flour, kneads bread, works a grater, slices fruit, churns, works butter better than it can be done by hand, grinds and scours knives. 1868. "THE WORLD" 1868.

At the opening of the year 1868, THE WORLD challenges, more confidently than ever, the sympathy and support of all patriotic citizens. A glorious work has been gloriously begun. Deep already answers to deep. The long fidelity of this journal to the cause of Liberty, protected by law, stands nobly vindicated in a splendor of victory shining from Maine to California.

For this the facilities of THE WORLD are surpassed by any journal in the United States. It seeks to excel in an accuracy and candor, a spirit and freshness in its news columns which shall commend it to readers of whatever party, sex, creed or place.

A Liberal Progressive Democracy, whereof the cornerstone is Freedom restrained by Justice; Freedom pure and simple, in the largest collective measure; the office of Justice being to protect Freedom from encroachments; Freedom of thought, speech, religion and locomotion; in his Right to choose his own food and drink, in spite of middle-class temperance laws; in his Right to make any money bargains he thinks proper, in spite of foolish usury laws; in his Right to buy and sell in all markets, domestic and foreign, in spite of unjust protective tariffs; in his Right to represent in the legislative bodies which tax him, in spite of unconstitutional exclusions; Freedom of collective citizens to assemble for discussion of grievances; Freedom of all local communities to manage their local affairs without external interference; Freedom, in every section of the country, from the arrogant and unconstitutional domination of other sections. This large and comprehensive idea of Freedom sums up the politics of "THE WORLD," which will never be found wanting to this capital interest of the country and of the human race.
