

THE FREEMAN.

EBENSBURG, PA. THURSDAY, JUNE 11, 1868.

Democratic State Ticket.

FOR ADDITIONAL GENERAL: HON. CHARLES E. BOYLE, Of Fayette County.

Democratic County Convention.

The Democratic electors, and all others opposed to Radicalism, will meet at their respective election precincts, on SATURDAY, THE 21st DAY OF JUNE, instant, between the hours of 3 and 6 o'clock P. M., for the purpose of electing two delegates from each district to attend a County Convention, to be held at the Court House, in Ebensburg, on MONDAY, THE 22nd DAY OF JUNE, instant, to place in nomination a County Ticket to be supported by the Democrats and Conservatives at the coming election, and to transact such other business as the interests of the county and the party may demand.

By Order of the Committee. R. L. JOHNSTON, Chairman. Ebensburg, June 1, 1868.

To the Democracy of Cambridge.

The Democratic County Convention has been called for Monday, the 22d day of the present month—the delegates to be chosen the Saturday previous.

A county boasting one thousand Democratic majority, with a very large number of Democrats competent and willing to perform the duties of any of her offices, experiences some difficulty in settling her ticket. Many candidates for nomination must be disappointed, and it often happens that the candidates and their friends complain of the action of the Convention.

Democratic Victory in Oregon.

Following closely upon the nomination of Grant and Colfax by the Radicals comes the first repudiation of the infamous doctrines of that iniquitous party in the shape of a grand Democratic victory in the far off State of Oregon, which in its election on Tuesday of last week placed the seal of condemnation upon the dastardly demagogues who seek the destruction of our common country that they may rule and riot amid the ruins.

The military fame of Gen. Grant, befittingly and boldly as it is with laurels stolen from the brows of braver and better men, could not save the Radical party from a most disastrous defeat on the shores of the great Pacific, nor will it avert the utter and more overwhelming defeat which awaits that party in the coming November elections.

Negro Riots in Washington.

The municipal election was held in the capital of the nation on Monday of last week, and the occasion was seized upon by the negroes to inaugurate a terrible and bloody riot, which resulted in the brutal assassination of two white men and the maltreatment of several others, as well as the beating of a number of voters of their own race suspected of supporting the Conservative ticket.

a majority, armed bands of negroes appeared in a procession, and being infuriated by incendiary harangues from John W. Furney and the Radical Mayor, they proceeded to murder white men, and to commit the grossest outrages upon the persons and property of unoffending and peaceable citizens. No white man dared to express his political views in the hearing of these black miscreants, and a cheer for the Conservative candidate cost its utterer his life. With razors and other unusual and horrible weapons, white men were deliberately murdered by negroes in the street of the National Capital.

This is the direct and legitimate result of that radical reconstruction of the South, which constitutes the platform upon which Grant and Colfax expect to be elected. Let the people read the account of the affair which appears elsewhere, and then let them remember that this exhibition of what may be expected from negro rule took place in a city where white men are largely in the majority, and where the presence of a strong military force ought to have been sufficient to deter them from such outrages.

Funeral of Ex-Pres't Buchanan.

The last sad tribute was paid to the mortal remains of Hon. JAS. BUCHANAN, Fifteenth President of the United States, on Thursday last. The funeral procession, extended from Wheatland to Lancaster, one mile and a half, and was the most imposing pageant ever witnessed in that portion of the State. It is computed that about three thousand persons were in the procession, among whom were delegations from many of the principal cities and towns, as well as from the National Congress and political, benevolent and other associations throughout the country.

What Democrats Will Do.

It has been asked, "What will the Democracy do if we help to place them in power?" The question is so well and appropriately answered, so satisfactorily summed up, by General W. A. Graham of Minnesota, in a late speech, that we feel bound to insert the answer here.

"We will restore the Union, and turn over all the Southern States' expenses to be paid by the South alone.

"We will turn out and abolish ten thousand Abolition Freedmen's Bureau office holders, and save millions of dollars to the people's pockets.

"We will bid the South support themselves and go to raising cotton and sugar, and we will raise produce to feed them.

"We will pay the public debt in the same currency we pay you and the same you pay each other, and by so doing save millions more in the pockets of the people.

"We will reduce the army in the South, and send them to the Plains to protect the frontier and new routes to the Far West.

"We will reduce taxes, both State and National.

"We will lessen the officeholders, and release you from the taxation to support them.

Call for a Conservative Soldiers' and Sailors' Convention.

The following call for a national convention of the conservative soldiers and sailors at New York on the 4th of July next, has just been issued by the National Executive Committee appointed by the Cleveland, Ohio, Convention of Sept. 17, 1866:

WASHINGTON, D. C., June 4, 1868. In pursuance of a resolution of the National Executive Committee, appointed by the Soldiers' and Sailors' Convention, which assembled at Cleveland on the 17th of September, 1866, a national delegation convention of all who served in the Union army during the late rebellion, and who are anxious to rescue the country from the rule of the radical party, is called to meet at New York city on the 4th day of July next.

General Grant is the candidate of the radical party, which for three years past has prevented the accomplishment of nearly all the avowed objects of the war, and turned to the destruction of the Constitution and the Union the powers confided to it for its preservation; but he will be no stronger before the people than the policy he represents.

At South Bend, Indiana, on Tuesday evening, Misses Mary Miller and Delphine Soixas with Eugene Soixas and Charles Waterhouse, went out for a sail upon the river above the dam. By some means they lost control of the boat, which drifted into the swift current and went over the dam, and all were drowned.

On Wednesday evening, near Bucyrus, Ohio, a brakeman named Henry Crumley, while sitting in the cab or talking with the conductor, suddenly fell to the floor, exclaiming, "My God, my legs!" He remained in an insensible condition, and died shortly afterward.

During the rain storm last Friday, a water-pump swept down Moody's Mountain, in Howe township, Knox county, Maine, cutting three ravines down the side of the mountain, one of them four rods wide and eight feet deep, and also uprooting in its course trees ten inches in diameter, and raising Lincolnville Pond, in one night, three feet higher than ever known before.

Michael Barrett, convicted, against conclusive evidence of innocence, of firing the fuse that started the Clerkenwell explosion, has been hung to appease the latest English cry for Irish blood.

The telegraph agent of the Associated Press in San Francisco on Wednesday gave a rather neat specimen of what the late lamented Artemus Ward used to call "sarkasm."

"We will enact laws to enable you to buy your goods where you can buy the cheapest, and sell where you can get the best price.

"We will protect labor from the encroachments of capital.

"We will leave each State to govern itself, limited only by the Federal Constitution.

"We will reduce the army in the South, and send them to the Plains to protect the frontier and new routes to the Far West.

"We will restore commerce, peace and good will between the North and the South.

"We will enact laws inside the Constitution.

LATE NEWS ITEMS.

—Prentice thinks that, when Ashley refused to take Mr. Chase's hand, there was a clear saving of soap and water to the Chief Justice.

—Joseph Rabideaux, the founder of St. Joseph, Mo., died in that city on Wednesday, at the age of 84 years. He established an Indian trading post at that point 60 years ago, and resided there ever since.

—Gen. Schofield has been appointed Secretary of War by the President, and confirmed by the Senate. He entered on the duties on Monday week. Since the acquittal of the President, Stanton has left the War Department, and can't be heard from.

—At the city election held in Norwich, Connecticut, a few days ago, the Radical ticket was elected by one hundred and seventeen majority—a Democratic gain of nearly two hundred on last year's vote. The vote polled was ten hundred and fifty three, the largest ever cast.

—It is stated on good authority—we have never tried it—that putting pens into boiling water for about one minute before planting, the crop produced will be free from the bug. This seems to be an easy and plausible remedy; the parboiling of the seed will also doubtless help germination.

FIRST AFRICAN VICTORY SINCE THE NOMINATION OF GRANT AND COLFAX.

Those who happened to be in the vicinity of the Erie Canal bridge, on Plymouth avenue, Rochester, about eight o'clock on Saturday morning, were entertained by a hand to hand encounter between a black man and his wife. It appeared that the man had started to go toward the centre of the city, when his wife overhauled him and demanded that he should return home.

Each was armed with an umbrella of considerable antiquity, which was brandished in the air as the tongue was used in no delicate manner. At length the woman received a blow from the umbrella in the hands of her antagonist, which depressed her lips a foot or more, and was the signal for action at close quarters.

Castor, her husband, and telling a boy that she would pay him a dollar to carry them to her house, she pitched in, and in less time than is required to record the fact she tore the cloth from the black fellow till he was in a state bordering upon nudity.

His boots being several sizes too large were shaken off in the fight, and his wool was pulled till he begged for mercy. Having given the fellow a severe thrashing, the woman led the piece of damaged ebony away amid the shouts of spectators, he as tame and subdued as a lamb. If he was not a lamb he was covered in part with wool, and was badly *knocked*. This is the first negro victory since Grant and Colfax were nominated.

BACK TO FIRST PRINCIPLES. BOOTS AND SHOES OF MY OWN MANUFACTURE.

After an experience of more than a year in the sale of Eastern made work, during which time I have expended more than the profits in expiating tips and terms, I have determined to come back to first principles and manufacture my own boots.

I have at present in my employ a competent corps of workmen, and can say without fear of contradiction that I can turn out as neat and substantial Boots and Shoes at as moderate prices as can be made anywhere in the State.

I am having Boots made of the finest French leather, and within the past month or two have had orders put in upon me for many quarters for this kind of work. The material in these Boots is the best to be found in the market, and the workmanship, both in neatness and finish, cannot be excelled at any other establishment in the country.

All work will be ready for delivery at the time promised. Weddings, visits and other interesting or important occasions need not be postponed through any failure on my part to come to time.

Good work and moderate prices is my motto, and one trial will convince any person that the motto is well chosen.

Repairing of Boots and Shoes attended to promptly and in a workmanlike manner. Thankful for past favors I feel confident that my work and prices will commend me to a continuance and increase of the same.

Messrs. Jos. W. Neess and D. P. Everette say that they took one of these hives, in June, 1866, 48 pounds of honey, and in 1867, 62 1/2 lbs. and a swarm, and the bees had plenty to do them through the winter. In 1867, 80 lbs. of surplus honey was taken out. Out of nine hives J. D. Kagarie took 265 lbs. of box honey in 1866.
