know how the other half lives." This place is situated on the summit of the Alleghany Mountains, four and a half miles from the Pennsylvania Central Railroad-so high up above the world around it, that the political miasma that foams and boils below does not seem to affect its citizens in the least, or divert

The town of Loretto consists of about five hundred inhabitants, and what is most remark-

The counury around for miles is also inhabited exclusively by Catholics. The congregation numbers about five hundred families, making it the largest in the diocese outside the city of Pitts burg. It is under the pastoral charge of the recently. Dera good for two of them, but when I was a cow-herd. When entirely at Rev. Next to it is the Convent of St. Aloysius, conducted by the good Sisters of Mercy. This institution has been but lately finished. The Sisters have about seventy bourders and a large day school. A mo e beautiful locality for a college or convent than Loretto could not be found.

Next to the convent on the right you see the enjoyed ourselves in pleasant converse about Officer McKelvy, of the Pittsburgh police, the olden time and in sauntering around his brick one was built.
