"OUR OWN MAKE" OF "CHAMPION SKIRTS"
are in every way superior to all other Hoop
Skirts before the public, and only have to
be examined or worn to convince every one
of the fact. Manufactured of the best lin-
finished English Steel Springs, very superior
tapes, and the style of the metallic fasten-
ings and manner of securing them surpass
for durability and excellence any other Skirt
in this country, and are lighter, more com-
fortable, will wear longer, give more satisfaction
and are really cheaper than all others. Every
lady should try them. They are being sold
extensively by Merchants throughout this
and the adjoining States at very moderate
prices. If you want the best, ask for
Hopkins' "Champion Skirt." Do not do
without them, get the merchant with whom
you deal to order them for you, or come or
send direct to us. Merchants will find our
different grades of Skirts exactly what they
need, and we especially invite them to call
and examine our extensive assortment, or
send for Wholesale Price List.

ICED MUSLINS FOR SUMMER.—It has
doubtless occurred to many, while admiring
the beautiful effects produced by frost
on windows, to imagine how delightful it
would be if a sensation of coolness could
be produced in the sultry days of summer,
by the aspect of those effects, artificially
obtained. The imagination has been
realized. It is known that by means of
almost any ordinary salt, reduced to a
liquid, and applied with a brush to window
panes, those fiery-like forms of crystalline
filings may be successfully reproduced,
and that with a chemical ingenuity, any
tone of color may be given to them, from
snowy white to richest purple or coolest
green. That process is well known; but
another step in advance has recently been
taken in the same direction, by means of
which muslins may be similarly iced for
summer wear. The line which separates
a pretty experiment from a commercial
product is that which may be drawn be-
tween results obtained by an original
manipulation, which can only be repro-
duced by a repetition of the same original
means, and those results which, once
perfected, can be re-produced ad infinitum
by mere mechanical processes. Dagu-
erotype was only a pretty toy till M. Ta-
bot discovered the means of producing the
same effects on paper, and a process for
multiplying the image when once pro-
duced. An analogous method has been
discovered by M. Bertsch, and practically
applied by M. Kuhlman, for multiplying,
as from an engraved plate, the exquisite
effects of the crystalline, from which any
number of impressions can be taken, in
any tone of icy grays, or pale silvery
greens, or any other cool tint. In order
to secure continuity of design, without
stop or interruption, the first manipulation
takes place on a polished cylinder, by
means of which a continuous pattern,
"never ending still beginning," is imparted
to as many thousand yards of any tex-
tile fabric as may be required. So that
for the first time in the fanciful story
of fashion, ice is muslin for the summer
season may be had in any quantity.

THE PUBLIC LANDS should be distributed
as widely as possible among the people, and
should be disposed of either under the pre-
emption or homestead laws, and sold in reason-
able quantities, and to none but actual occupants
at the minimum price established by the govern-
ment. When grants of the public lands may
be allowed necessary for the encouragement of
important public improvements, the proceeds of
the sale of such lands, and not the lands them-
selves should be applied.

That the President of the United States, An-
drew Johnson (applause) in exercising the pow-
er of his high office in resisting the aggressions
of Congress upon the constitutional rights of
the States and the people, is entitled to the
gratitude of the whole American people, in
behalf of the Democratic party I tender him
our thanks for his patriotic efforts in that re-
spect. (Great applause.)

ting all past differences of opinion, to unite with
us in the present great struggle for the liberties
of the people, and that to all such, to whatever
party they may have heretofore belonged, and

ATROPINE EPITAPH.—On a Liar—
He lies here, his spirit's fled; he cannot lie
because he's dead.

On a Cobbler—He spent his all (and);
he lived too fast; and at death's call he
breathed his last.

On a Fiddler—Death has got him out
of many a serape.

On a Grocer—Of all who here lie under
ground, than him no better can be found,
yet he was a grocer man; unsolve this
mystery if you can.

On a Printer—He locked up forms
while he had breath, and now he's locked
in 'th arms of death.

On an Editor—He who lies in this small
space, was good for he did right (write) al-
ways.

On a Beerseller—In life he measured
out his beer; and now he measures his
length here.

On a Fishmonger—No longer in good
fish he deals, for death has got him by the
(h)uels.

On an Accountant—Gone to his last ac-
count.

On a Prizefighter—"Called to time" by
death.

On a Boarding-house Keeper—"Peace to
her (h)ashes).

A GENTLEMAN and his son from the
interior arrived in this city a few days since,
and took lodgings at one of our hotels.

In the morning they were the first at the
breakfast table, and with appetites as keen
as a briar, and casting their eyes over the
good things there congregated, their
mouths began to water for the savory dis-
play. The parent, with due regard for
his son's comfort, inquired what he should
help him to. The son, rising upon his
knees in the chair, and extending himself
across the table with wishful look, re-
plied, "Father, I'm not very hungry, but
I'll take two of them hickoms and a tater,
and two of them squats of nuts and a
twister, and a great hunk of ere nine pie."
