EDITORIALITIES, LOCAL AND GENERAL -

A servant girl at the Mountain House. Cresson, we are told, died very suddenly on Sunday last.

Why is the handsomest young lady in Ebensburg like a hinge? Because she is comething to adore.

Our friend Huff, now of Greensburg, spent a day with us not long since, and was greeted by all his old friends "on sight."

Our down town neighbor, Edward Glass, Esq., who has been suffering seriously from protracted illness, is now, we are pleased to say, slowly convalescing.

It is alleged by persons competent to indge, that the wheat crop of Cambria this year will more than double the yield of last reason. The same will hold good in regard to neighboring counties.

The barn of Daniel Shrader, in Sewickly township, Westmoreland county, was struck by lightning on Sunday week, and barn, wheat, hay, machinery, etc., to the value of fifteen hundred dollars, were destroyed.

A fracas occurred between Wm. Lane and Thos. H. Fagen, two plasterers in Hollidaysburg, on Saturday, which resulted in the latter beating the former so brutally that he died almost instantly. Fagen arrested.

A German resident of Yoder township, named John Widman, fell from the iron bridge near the Cambria Iron Co.'s store, Johnstown, on Saturday week, and received injuries which caused his death the next evening.

The painters art has made a great improvement in the outward appearance of the Town Hall, which is now one of the finest looking buildings in our town. Messrs. John Stough and Jerry Fegan did the work, and they have certainly done it well. Mr. John Skelly, of Blacklick township.

was thrown from a horse, on Saturday last, John Wilkin. and received a severe fracture of the hipbone. The injury is of a serious character, and as he is a man of some seventy years of Age, his recovery may be considered doubt-

A Scotch miner named John Hodgets, while intoxicated, fell or lay down upon the railroad track near the Johnstown station, on Monday night week, and was run over and instantly killed by the mail train west about half-past teu o'clock. His body was . horribly mangled.

The house of Dr. D. D. Taylor, at Irwin, Westmoreland county, was entered through a window, by burglars on the night of the 17th iost., ether administered to the Doc- Pryce. tor while sleeping, and a pocket-book containing eleven hundred dollars abstracted from under his pillow. GRAND AND TRAVERSE JUBORS .- Below are the names of those who have been drawn | REPORT .- We have been presented by Mr. to serve as jurors at the September term of T. J. Chapman, A. M., County Superintendent, with a copy of his report for the year ending June 1st, 1868. We give below such portions of it as we can find space for in our columns. After alluding to the fact that he work without any time in which to survey the work before him, Mr. Chapman goes on to treat of the educational progress which has been made in the county during the year ending with the above date. This portion of his report we give entire :

And they seem to be following it. Johnstewn has just completed a new house, the very counterpart of that in Millville. Its cost was about the same. Public school is now taught in it. Two new houses were erected in Allegheny township during the year. These are as good country school houses as can be found anywhere-large, airy, light, well ventilated, well painted inside and out, substantially built, provided with good seats, blackboards, etc., and last, but not least, properly located. The other districts that have built during the year are-Chest 1, Jackson 1, Conemangh 1, Summerhill 1, Taylor 2, Washington 1, Susquehanna 2, Richland 2. These have all done well, and speak noble words for the interest which our

Schools .- Our schools, so far as I could discover in visiting them, and from what I could learn by inquiries, have done reasonably well. Some of them have done very well indeed ; others, of course, not so well. There have been very few, if any, cases of decided failure. Some dissatisfaction has been expressed concerning a few of the teachers ; but when was this otherwise? As good an illustration as I can give of the success of our schools during the year, is the fact that the per cent. of at

LIGHTNING'S DOINGS .- Within the recollection of that mythical individual, "the oldest inhabitant," we doubt whether more destruction to property from that subtle fluid. lightning, has occurred at any season than during the present spring and summer. We scarcely pick up a newspaper without finding one or more catastrophes of this kind detailed in its columns. Our own county has not escaped, and in addition to other accidents of this nature already recorded we today give an account of the destruction by lightning of a barn and all its contents only a few miles from our town. In view of these oft-recurring conflagrations it behooves every property-holder to adopt means to guard against loss in this way. The only sure preventative is a good lightning-rod, and the one among the many admittedly the very best is the Munson copper tubular lightning-rod. with spiral flanges, now being erected thro'out this county by Mr. Richard Jones, of Johnstown. No man who regards his own interests should neglect this matter, and no tendance in 71 schools of which I made memo-rands was a fraction over 70. These schools to be convinced of its superiority over all one who examines the Munson rod can fail were not selected cases, but were taken just as others. Mr. Jos. Hoffman, whose barn was they came, and represent, I believe, a very fair destroyed by lightning not long since, has average of all. at Cresson, on Monday week, but his hold slipped, and had it not been for the timely aid of a gentleman who stood near, he would have fell under the wheels and most probably have been killed.

Mrs. Kate Moore, of Bell township, Westraoreland county, was noticed going into an old cooper shop at Huff s saltworks, one day not long since, and shortly after the dead body of a child was found secreted in the wells near the building. The child is supposed to have died from neglect or violence. and Mrs. Moore, who has been separated from her husband for two years, is supposed to be the inhuman mother. Not yet arrested.

AN UNFORTUNATE TRAIN .- Two Smash The and Serious Jajury of the Engineer and Fireman - A fieight train west on the Pa. R. R. ran off the track between Cresson and Gallitzin, on Sunday night last, and some five or six cars were sadly demoralized by the operation. Two travellers who were migrating on the "free gratis for nothing" principle, we are told, were buried in the wreck, but fortunately escaped with a few scratches. After several hours' severe labor the train, or that portion of it not demoralized, was got in running order and proceeded on its way, but when in the vicinity of Wilmore on Monday morning, owing to the fact that no flagman had given the required warning, it came in collision with the pusher of the local freight east, which for some purpose had passed on to the western track, and the result of this collision was the serious injury of the engineer of the train, David Randelph, and the fireman, John Flanagan. as well as the a'most total demolition of four of the cars and the engine attached to the train. The pusher also sustained considerable damage. The train engine was thrown from the track and almost broken to pieces. and how the engineer and fireman escaped with their lives seems to us a mystery. Randolph bore but few outward injuries, yet it was feared that he was injured internally to an extent that might eventually prove fatal. Flanagan, who was held by the machinery for an hour or two before he could be extricated, had one of his arms broken and the flesh on his thigh, by which he was held, hadly lacerated. Both the injured men were taken to Altoena, where they reside.

DASTARDLY OUTRAGES .- During the past ten days or two weeks there has been quite a number of complaints made in regard to an offence for which it is hard to conceive a motive, much less form an excuse. Several ladies have had very valuable dresses ruined in consequence of vitriol having been thrown upon the skirts of them while promenading our streets, but thus far it is not publicly known who the miscreants are who have engaged in this nefarious and hellish business, One or two links, however, have been obtained in the chain of evidence, and we may yet have the satisfaction of announcing that the base wretches who could conceive and execute such dastardly outrages are serving the State in capacities for which they are best fitted and certainly most worthy and tion in regard to it. deserving.

To BE REVIVED .- We have no direct authority for the assertion, but from what we see and what we hear we are led to believe that the Alleghanian newspaper, which gave up the ghost some five months ago, is to be resurrected, and will probably make its appearance next week.
