The Ebensburg Branch is sometimes snow- Traugh. ed up. That was the case during the present December storms. Still there was a contract for delivering the mails at Ebensburg. and that contract should have been complied with, as Ebensburg is the point at which the mails for thirty miles north-east, north and north-west, are made up.

On Tuesday the 8th of December, the Evensburg Branch was blockaded by snow, appeared from the point of departure (Cresson) on the P. R. R., and Northern Cambria, so far as ordinary mail facilities were concerned, was frozen in. Our energetic postmaster, Rees J Lloyd, Esq., appreciating the position, procured a party to carry the

mail through. That party breasted the storm, levelled the road, went through to Cresson, and delivered the mail. Strangely He expatiated on the sublunar atmosphere, enough, the agent of the Pa. R.
