A LOVER IN A CLOSET. - A short time since a very enterprising young merchant of Lancaster city, Pa., who is the happy possessor of a wife as beautiful as the heart could desire, had occasion to visit New York. He was gone but a short time, and returned sooner than was ex- them from horn to tail. They would go pected. Reaching home at an hour when the gray of the morning was mingled with the shades of night, he, of course, found the family all in bed. Proceeding directly to his wife's apartment, he rapped for admission, at the same time announcing who he was. At the mention of his name he thought he detected a smothered exclamation of surprise; and then some one got hurriedly from the bed and sought refuge in a closet adjoining his bed room. All this he heard distinctly, as he waited in the cold, with the demon of jealousy thugging away at his heart .-There was some one in his wife's room. There could be no doubt of that: and that some one had sought refuge in the closet was equally clear. Who else could it be than a lover? Mad with jealousy, Bouble Extra Jamily flour, furious and indignant, he could scarcely wait for the door to be opened, when he burst into the room and made for the closet. His wife interfered, and begged that he shouldn't open the door concealing his disturber of domestic peace. He dashed her aside furiously, but she clung to the tails of his coat. The strain made ALL KINDS OF FRUITS, upon those useful appendages at last compelled them to give way, and the angry benedict threw wide open the door of the closet; and lo! instead of the curning SYRUPS, MOLASSES, CHEESE, &c. libertine, his astonished eyes rested upon one of the prettiest girls imaginable.-She was passing the night with his wife; and trying to avoid meeting him in dishabille, brought about a rather embarrassing denouement. The gentleman, however, it may be as well to state, prosecuted his searches no further, and, instead,

I was called upon, a few days ago, to attend a sick child, a daughter of William and Mary Jane Hearsy, living in the Southwestern part of St. Charles township. I found the child, aged a few days under five months, very ill. After administering medicine to the child, I was startled to hear it say, very distinctly, "Mamma, baby don't want any more." Completely nonplussed, I inquired of the mother how long the babe had talked.

As though it were no unusual occurrence, she coolly said it commenced talking a few days before it was three months old. Deeply impressed with this unheard of and premature development, I watched the child with the deepest interest. It does not prattle, as is usual with infants when first trying to talk, stumbling upon and straining at words. It speaks, clearly and coherently, a regular sentence that clearly expresses its thoughts or ideas.

It seems to think, and then expresses its thoughts calmly and clearly. It seems to note the anxiety and wishes of others. A little four-year old brother was out of the house, and several members of the family inquired where he was. For restoring Gray Hair to its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. Faded or gray hair is soon restored to its original color with the gloss and freshness of youth. Thin hair is thick-

ened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a

Ayer's Cherry Pectoral. For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine, has anything won so widely and so deeply upon the confidence of mankind, as this excellent remedy for pulmonary complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in their estimation, as it has become better known. Its uniform character and power to cure the various affections of the lungs and throat, have made it known as a reliable protector against them. While adapted to milder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and the dannt the same time the most effectual remedy that can be given for incipient consumption, and the dan-gerous affections of the throat and lungs. As a pro-vision against sudden attacks of Croup, it should be kept on hand in every family, and indeed as all are sometimes subject to colds and coughs, all should be provided with this antidote for them. Although settled Consumption is thought in-curable, still great numbers of cases where the disease seemed settled, have been completely cured, and the patient restored to sound health by the Cherry Pectoral. So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. When nothing else could reach them, under the Cherry Pec-toral they subside and disappear. Singers and Public Speakers and great pro-

tection from it.

Asthma is always relieved and often wholly cured by it.

Bronchitis is generally cured by taking the Cherry Pectoral in small and frequent doses. So generally are its virtues known that we need not publish the certificates of them here, or do more than assure the public that its qualities are fully
