A lady correspondent at the West, puts the following question: without a servant, than with one. Now, here let me ask: What would a woman do with very few of these appliances, and six

ence, my thinkings, plannings, and doing and yet when I have read them through, have felt as though there was something wanting. A wish came up that some one who had six or eight small children to care | ferent piece exactly like its fellow. for and do for, in addition to her other duties, would write on the subject.

sons. I wish to make my system of house- thread of steel, finer than the most deli- natural teeth when in a bealthy state. keeping as good as I can under present circumstances. But for want of such a paper, I intend to make the most of those pub-

is likely to be busy for some time, we will presto! change! out comes a knife and answer for her. Eight small children and cuts off its head. All this is done so no help! It is a hard case, and requires | quickly that you have to wait and watch | considerable philosophy, and some piety, to get along with smoothly. Do not despair. Your case might be worse in two particulars; you might have no children at all, and you I have described. The bits thus beheadmight have more. We know of a woman ed with a hug, look exactly like little who has twenty-five, all comely and doing grains of powder. But they are screws well. The saddest people we know of are You notice that when you take a microchildless husbands and wives, and the most scope and examine them. They are comcheerless homes are those where there is no cradle to rock, and no playthings to put up when evening comes. Better a dozen than none. You need the education which will tool, and places them in rows, one in every come of training them to thrifty and virtu- hole in a flat piece of steel. This little they will live, grow up, and be useful and another machine, and it would do an Irishhappy, and that they will all rise up and man's soul good to see it work. It beats call you blessed. The kind Providence that Doneybrook Fair "all hollow." I never has given them being, has a work for them to do, and will in some way provide for their training. Do not worry. Worry kills a riority of mechanical over manual labor. great many more people than work. There For while a good hearty man with a stout must necessarily be a different standard of bit of shillalah may break half a dozen attainment in such a home, from that which heads off a day-with fair luck-this maprevails where money and servants are plen- chine, without so much as saying "By ty. There can not be so many or so fine dresses, playthings, books and amusements. They can not be kept in such absolute cleanliness and order, as if each child had a nurse, of each one of them exactly in the certer. and governess devoting her whole time to And now the screw is made. their education. If you do the best you can under the circumstances, duty is discharged

-a matter of thanksgiving.

Look at the Sunny Side. There is such a side in every lot in life. Most children grow up in homes where there are no servants, and turn out passably well. Men and women of the highest culture and social position, more often than otherwise, began life in this condition, and the early habits of self help and industry there formed, determined their characters and success. To be born in Our stock will embrace everything in the jucts of compassion. What shall be done the latest styles and of a! is a much more difficult problem to solve than the proper training of the children of country store. the poor. The men who make our laws and that their mothers were the best women and the most savory cooks in the world.

Cultivate Self-Help in Your Children .-Mothers sometimes err in excessive tenderness and devotion. Children love occupation and will have it. The passion for dressing dolls may as well be turned to dressing something substantial. A little girl can soon learn to dress and wash herself, and then to perform these offices for her younger brothers and sisters. Play should never be forestalled, but it may be so judiciously mixed mixed up with healthful labors that the toil will not be irksome. The boy may as well pull on his first boots, as have another do it for him. If he is taught that it is manly to help himself and keep his clothes and and person clean, he will glery in the use of brushes for the hair, the clothes, and boots. He will soon learn to measure manhood by usefulness, and not by the amount of dirty work other people do f r him. Some people, indeed get too much out of their children, but that is not the tendency or peril of American society. They can be made much more helpful with pleasure and profit to themse'v s, and to the world.

Buy Labor-Saving Machines .- A large part of the labor in the family can be saved by them, and they pay for themselves many times every year. It is difficult to see how a housekeeper can get along without them. Most people are too poor to do without them. They save what is more precious than money -health and life. We forbear to say more, FLIES, MOSQUITOS AND OTHER INSECTS lest there should be nothing left for the woman with the eight small children to say. We yield the floor until she speaks.

How TO KEEP BUTTER SWEET .- It is the easiest thing in the world. Simply put it in clean jars and cover with a strong brine. This will keep butter pure a year, fresh and sweet, as we know by experience. It is almost equally good to put in oak casks, headed tight. This is equivalent to canning fruit. The brine in the case of the jar acts as a heading to keep the air out. But butor should be made well; we have never ex- England, eximented on poor butter. Work out the Wales, uttermilk till you have only pure "beads," lear as rain water; but do not work so much as to break the grain, in which case | Hanover, you have a tough, heavy article in winter, and grease in summer. Such butter we ad vise no one to try to reserve .- Cor. Rural

BURNS AND SCALDS -A correspondent of New South Wales or the Rural New Yorker offers his remedy for these accidents: "The most efficacious remedy I ever tried was to apply common starch just moistened with cold water, and spread on a cloth to effectually cover the wounded part. A little girl who was badly scalded was instantly freed from pain by the above remedy. Keep the starch moistened, and in a few hours the inflammation will be gone, leaving the scalded part perfectly white. After the inflammation is out apply a linen cloth dipped in sweet oil. It is a

speedy cure." To CLEANSE BLANKETS .- Put two large table-spoons full of borax and a pint of soft soap into a tub of cold water. When fully dissolved put in a pair of blankets and let them remain over night. Next day rub and drain them out, and rinse thoroughly in two waters, and hang them to dry. Do not

Ayer's Sarsaparilla, FOR PURIFYING THE BLOOD.

The reputation this excellent medicine enjoys, is derived from its cures, many of which are truly marvellous. Inveterate cases of Scrofulous disease, where the system seemed saturated with corruption, have been purified and cured by it. Scrofulous affections and disorders, which were ag-gravated by the scrofu-lous contamination until

they were painfully afflicting, have been radically cured in such great numbers in almost every section of the country, that the public scarcely need to be informed of its virtues or uses. Scrofulous poison is one of the most destructive enemies of our race. Often, this unseen and unfeit tenant of the organism undermines the constitution, and invites the attack of enfecting or fatal diseases, without exciting a suspicion of its presence. Again, it agas to bread in faction the appropriate the holds and surface or among the vitals. In the latter, tuber-cles may be suddenly deposited in the lungs or heart, or tunors formed in the liver, or it shows

its presence by cruptions on the skin, or foul ulcerations on some part of the body. Hence the occasional use of a bottle of this Sarsaparilla is advised in the same part of th sional use of a botile of this Sarsaparilla is advisable, even when no active symptoms of disease appear. Fersons afflicted with the following complaints generally find immediate relief, and, at length, cure, by the use of this SARSAPARILLA: St. Anthony's Fire, Rose or Erysipelas, Tetter, Salt Rheum, Scald Head, Ringworm, Sore Eyes, Sore Ears, and other cruptions or visible forms of Scrofulous disease. Also in the more concealed forms, as Duspepsia, Dropsy, Heart Disease, Fits, Epitepsy, Neuralgia, and the various Uterous affections of the muscular and nervons systems.

Syphilis or Fenereal and Mercurial Diseases are cared by it, though a long time is required for

re cured by it though a long time is required for abduing these obstinate maladies by any medicine, but long continued use of this medicine will cure But long continued use of this medicine will cure the complaint. Leucorrhoa or Whites, Uterine Uterations, and Female Diseases, are commonly soon relieved and ultimately cured by its purifying and invigorating effect. Minute Directions for each case are found in our Almanac, supplied gratis. Rheumatism and Gout, when caused by accumulations of extraneous matters in the blood, yield quickly to it, as also Liver Complaints, Torpidity, Congestion or Inflammation of the Liver, and Jaundice, when arising, as they often do, from the rankling poisons in the blood. This SARSAPARILLA is a great restorer for the strength and vigor of the system. those who are Languid and Listless, Despondent, Sleepless, and troubled with Nervous Apprehensions or Fears, or any of the affections symptomatic of Weakness, will find immediate

relief and convincing evidence of its restorative power upon trial. PREPARED BY Dr. J. C. AYER & CO., Lowell, Mass.,

Practical and Analytical Chemists. SOLD BY ALL DRUGGISTS EVERYWHERE. REESE J. LLOYD, AGENT, EDENSBURG, PA.

L. L. LANGSTROTH'S

DRONOUNCED THE BEST EVER YET introduced in this County or State. Any person buying a family right can have their Bees transferred from an old box to a new one. In every instance in which this has been done the result has been entirely satisfactory, and the first take of honey has invariably paid all expenses, and frequently exceeded them. Proof of the superior merits of this invention will be found in the testimony of every man who has given it a trial, and among the number are the gentlemen named below, and their experience should induce every one interested in Bees to

BEEN A FARRENT ERRERETT Henry C. Kirkpatrick, of Carroll township, took 106 pounds of surplus honey from two hives, which be sold at 35 cents per pound. Adam Deitrich, of Carroll township, took from two hives 100 pounds of surplus honey. James Kirkpatrick, of Chest township, took 60 pounds of surplus honey from one hive. Jacob Kirkpatrick, of Chest township, obtained 72 pounds of surplus honey from one hive, worth not less than \$21, and the right

cost him only \$5. Peter Campbell from one hive obtained 36 pounds of surplus honey at one time. Quite a number of similar statements, anthenticated by some of the best citizens of Cambria county, could be obtained in proof of the superior merits of Langstroth's Patent Movable Comb Bee Hive.

Persons wishing to purchase family rights should call on or address PETER CAMPBELL, Nov. 5, 1886.-tf. Carrolltown, Pa.
