A Modest Man in a Bad Fix.

I haven't dated this letter, because I don't know where I am. I am about nine miles from Julesburg, at a little settlement on the South Platte River. At daylight to-morrow, I am to catch the finest salmon you ever saw. They will not bite at any other time of day. I suppose they learned this disagrecable habit of early breakfasting from the "Bull Whackers," who have navigated these plains I am stopping at a little hotel about thirty by ten feet. The scarcest thing in this country is lumber, settlers having to pay ever so many dollars a foot for all they use, besides what they bro't in their valises. The landlord is from Pennsylvania, and seems to be doing a thriving business. By dint of hard talking and liberal promises, I got a room to myself. It is just large enough for the bed and candle box set on a chair upon which I am writing this letter. It is in one end of the building, and separated from the next room by a bed quilt, which you must crawl under to come in or go out. But it is my room, and after the jolting I have had upon the Indian pony, I expect to have a good night's-

Was ever a poor pilgrim in such a fix ? Just as I had written "night's" above and had sleep on the point of my pen. I heard a knocking on the floor outside the bed quilt! "Crawl under," said I.

Enter the landlord's daughter, a buxom young lady about seventeen years of age, I should judge. She opened her rosy lips and spake as follows:

"Mister, don't take off your clothes tonight when you go to bed." "Why ?"

"Because I am going to sleep with you," "Well, if you have no better reason

"Hush! Shet up! You teld par that

you would not sleep with a man." "I had rather sleep with a wet dog," "Well, I have given up my bed to a sick man. I have been hard at work all

day, and have to work hard all day tomorrow, and I can't afford to set up all night. That bed is wide enough for us both. I shall stay on the back side, and if you don't stay on your side, you'd better, that's all. As she said this she raised from her

dress pocket an infernal jack-knife, such as farmers use in trimming fruit trees, and then let it fall back with a chog. I comprehended the situation in half a moment, and unto this maiden I quote as follows: "Miss, young lady, your intentions

may, or may not, be honorable. I am traveling entirely by myself. My natural protectors are miles and miles away beyond the boundless prairie, ignorant of the perils which may beset their idol. I am a man of a few words, but they are always emphatic. I will give you up a part of that bed, and that's all I will do. If you attempt during the silent watches of the night, anything contrary to this firm determination by St. Joseph, my patron saint, I will shoot you right throthe midriff!"

As I concluded, I laid a Slocum pistol upon the candle box. A low chuckle outside the bedquilt gave evidence that pater familias had heard and approved the arrangement.

My antagonist laughed and saying : "Mister, I reckon we understand each other,"bounced over to back side of the bed. There she is, now, pretending to be asleep. I can't finish this letter. I can't do any thing. Talk about the trials of the earlier saints-about being flayed alive-about being boiled in oil. What was all that to all this?

SOME GIANTS.

In 1718 a French academician named Henrion endeavored to show a great decrease in the beight of men between the periods of the creation and the Christian era. Adam, he says, was 123 feet 9 inches high; Eve, 118 feet 9 inches; Noah, 26 feet; Abraham, 20 feet; Moses, 13 feet. The allegation about Adam is moderate compared with that made by early Rabbinical writers, who affirm that his head overtopped the atmosphere, and that he touched the Arctic pole with one hand and the Antarctic with the other. Traditionary memorials of the primeval giants still exists in Palestine in the form of graves of enormous dimensions; as the grave of Abel near Damascus, which is 30 feet long; that of Seth about the same size; and that of Noah, in Lebanon, which is 70 yards in length!

Pliny says that by an earthquake in Crete, a mountain was opened, and in it was discovered a skeleton standing upright 46 cubits long, which was supposed to be that of Orion or Otus. The same Author relates that in the time of Claudius Cæsar there was a man, named Gabbarras, brought by that Emperior from Arabia to Rome, who was nine feet four inches high, "the tallest man that has been seen in our times." But this giant was not so tall as Posio and Secundilla, in the region of Agustus Cæsar, whose bodies were preserved as curiosities in a museum in the Sallustian Gardens, and each of whom measured ten feet, three inches.

The Emperor Maximus (very much of a man) was nine feet high, and was in the habit of using his wife's bracelet for a thumb ring. His shoe was a foot longer than that of any other man, and his strength so great that he could draw a carriage which two oxen could not move. He generally ate forty pounds' weight of roads coming into the city. The Restaurant flesh every day. Not at all desirable or profitable guest for the "St. Nicholas," even at the current price of board; though not so tall as one of whom Josephus tells, viz: Eleazer, a Jew, who was one of the hostages whom the King of Persia sent to Rome after a peace. The giant was over ten feet high. But these are pigmies compared with him of whom Kircher writes (though this is what a Yankee philosopher would denominate a whopper.) The skeleton of this giant was dug out of a stone sepulchre near Rome in the reign of the Emperor Henry II, and which, by

another skeleton was found near Palermo, that must have belonged to a man forty

A GIRL THAT JEMPS .- The Boston Herald gives a report of a jumping match in Dorchester, between a man and a young girl named Katie Murphy. It

As Katie made her appearance, clad in her jaunty little jumping costome, she was greeted with many joud and hearty cheers by the crowd. In tossing up for the first jump the man won, and at once his position, and straining every nerve made a leap of 10 feet 61 inches, receiving great applause for his effort. It was Kate's turn next, and she came to the scratch very unconcernedly, and taking her position, apparently with great ease made a leap of 10 feet and 8 inches. This was discouraging to the Flynnites,

and their man sold low in the pools. Time was again called, when Flynn made another leap of 10 feet and 9 inches and won the Leat, as Katie jumped again right | back's Blood Pills, is sure to produce. into her old tracks, making only 10 feet and 8 inches. Here was encouragement for the Flynn party, and they put on their stamps more freely. After a few moments delay the third and last jump was called. Every one was on the tip toe, and both parties confident. Flynn came to the scratch well braced and well cheered, and like Sampson of old bowing himself with all his might, made the leap, which follow from eating too heartily. clearing only 10 feet 9 inches. There was a moment of suspense, and anxiety was mirrored in every face save Katie's. She seemed perfectly calm and not the least excited. Nimbly she walked up to the line, and with much gracefulness took her position amid a most profound silence.

Scanning carefully the ground, she suddenly bounded off like a young fawn, making the extraordinary leap of eleven feet two and one-half inches. Cheers then rent the air and the pretty and happy little champion was nearly overcome with the greetings of her exultant friends. One gentleman who had won \$400 on the match, came forward and presented her with a \$50 note, for which she most kindly thanked him. The match was for a purse of \$300, which was at once turned | tonic and appetizer. over to the victorious Katie. It is mooted that the defeated party are about to bring out another young girl and match her against the little champion Katie.

Ayer's

Hair Vigor,

For restoring Gray Hair to its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. Faded or gray hair is soon restored to its original color with the gloss and freshness of youth. Thin hair is thick-

ened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a

HAIR DRESSING.

nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich glossy lustre and a grateful perfume.

Prepared by Dr. J. C. Ayer & Co., PRACTICAL AND ANALYTICAL CHEMISTS, LOWELL, MASS.

PRICE \$1.00. For sale by R. J. LLOYD, Agent, Ebensburg.

Ayer's Cherry Pectoral, For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping

Cough, Bronchitis, Asthma,

and Consumption. Probably never before in the whole history of medicine, has anything won so widely and so deeply upon the confidence of mankind, as this excellent remedy for pulmonary complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in their estimation, as it has become better known. Its uniform character and power to cure the various affections of the lungs and throat, have made it known as a reliable protector against them. While adapted to milder forms of disease and to young children, it is milder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and the dan-gerous affections of the throat and lungs. As a pro-vision against sudden attacks of *Crossp*, it should be kept on hand in every family, and indeed as all are sometimes subject to colds and coughs, all should be provided with this antidote for them. Although settled *Consumption* is thought in-curable, still great numbers of cases where the discurable, still great numbers of cases where the dis-ense seemed settled, have been completely cured and the patient restored to sound health by the Cherry Pectoral. So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. When nothing else could reach them, under the Cherry Pectoral they subside and disappear.

Singers and Public Speakers flad great protections of the could reach them.

tection from it.

Asthma is always relieved and often wholly Bronchitis is generally cured by taking the Cherry Pertoval in small and frequent doses.

So generally are its virtues known that we need not publish the certificates of them here, or do more than assure the public that its qualities are fully maintained.

Ayer's Ague Cure,

For Fever and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Dumb Ague, Periodical or Bilious Fever, &c., and indeed all the affections which arise from malarious, marsh, or missmatic As its name implies, it does Cure, and does not

fail. Containing neither Arsenic, Quinine, Bismuth, Zinc, nor any other mineral or poisonous substance whatever, it in nowise injures any patient. The number and importance of its cures in the ague dis-tricts, are literally beyond account, and we believe without a parallel in the history of Ague medicing. Our pride is gratified by the acknowledgments we receive of the radical cures effected in obstinate Cases, and where other remedies had wholly failed.

Unacclimated persons, either resident in, or travelling through miasmatic localities, will be protected by taking the AGUE CURE daily.

For Liver Complaints, arising from torpidity For Liver Complaints, arising from torpidity of the Liver, it is an excellent remedy, stimulating the Liver into healthy activity.

For Bilious Disorders and Liver Complaints, it is an excellent remedy, producing many truly remarkable cures, where other medicines had failed.

Prepared by Dr. J. C. AYER & Co., Practical and Analytical Chemists, Lowell, Mass., and sold all round the world.
