A brief description of the new shops which the P. R. R. Co. have now in course of erection at this point may not prove uninteresting to your readers. These new shops are located in East A'toons and are divided into two classes-the motive power and the maintenance of way. I now speak of the motive power shops, reserving a description of the others until a future letter. First, the round house, which is 484 feet in diameter, and nearly three-quarters of a mile in circumference. This building contains 40 tracks, or "stalls," each 190 feet long, and the walls are pierced with 152 large windows and eight ponderous doors. The inner circle of this round house is 234 feet in diameter, and here is located the largest turn-table in the United States. In this portion of the building are 40 windows and 40 doors. Water and gas pipes extend throughout the entire structure, and six water-plugs are so distributed as to be available in case of fire. The roof truss is made entirely of iron and covered with slate-there being 1.065 squares

of the latter material used. In the entire structure there is not less than one million of brick. A continuous row of skylights, Finity werk, the latter threw the former that the members of the literary societies not 20 feet wide, extend around the entire building. In some places it was necessary to dig sixteen feet deep to find a solid toundation. and the wall in these places is from six to

eight feet wide. This is said to be the largest building of the kind in the world. About 500 feet west of the round house the passenger car shop will be erected. In ing will contain five tracks, each 184 feet in length. Fifteen passenger cars, with all

the modern improvements, can be completed here at one time. West of the passenger shops is a plaining mill 424 feet long by 74 wide, and adjoining this is the blacksmith shop, in size 204 by 74. The latter will be occupied by 100 fires, furnaces, etc. The wheel shop is north of this building and its dimensions are the same. Still farther Lorth is the paint shop, two stories in height and 706 by 74 feet, containing convenient room for the or beauties and plainly indicate that tions can be extended as increase of means painting of 40 large passenger cars. South of the paint shop, a fire proof store-house, 54 by 84, will be crected, and immediately portheast a two-story office, 84 by 44 feet. In addition to those enumerated, there will he necessary buildings erected for stationary eugine, fire steamer, etc. All of these build jugs will be of brick and all will be heated with steam. The entire work will be under the personal inspection and supervison of that able engineer, Wm. B. Brown, E-q. It would be impossible to do justice to

these great improvements in the course of a interesting. We feel a deep interest in the gather from the above that Altoona still success of the two young men who have un-

of Leopold Mayer is the place where all ladies which he conceives to be invaluable ; and he fair should at once repair, to witness the glare of his dry goods so fine, for it is his design to sell at less than cost to make room for new spring goods and spring fashions. His present stock is all new, but will be out of season in a couple of months, and must be sold at any price-say 12 yards of calico or muslin for 75 cents, furs at half price, etc. 212 Main street.

"OLE CLO'S."-Throw away your 'ole clo's'--they are getting threadbare and soiled -- and go to L. Colten & Bro., Opera House, Main street, Johnstown, who are selling out \$15,000 worth of choice new made up cloth ing at less than cost, because they are going away. They have the latest styles, best cloth and very neat patterns of clothing-all new goods --- which must be sold at any price. Call!

MARRIED.

BARKER-ZAHM .- At the residence of the bride's parents, in this place, on Tuesday last, by Rev. B. M. Kerr, Mr. F. H. BARKER and Miss MAGGIE A., eldest daughter of Geo. C. K. Zahm.

"Ye printer man" has never been more generously remembered than on this interesting occasion, and to our young friends, thus so happily mated, we tender our sincere thanks and warmest congratulations, joined a report of the Deeds and Assignments left to the hope that they may live to celebrate for record at the office of Geo. W. Oatman, their golden wedding half a century hence, and that the years which interim may to them be filled with the complete measure of unalloyed felicity and true domestic happiness. Maggie has always been a favorite in our community, and her many friends will he glad to learn that her fate is indissolubly linked with one who is in every way worthy of her. Our newly wedded friends took their departure the same evening for the State of Maine, the former home of Mr. its effects, as the Nicotine has been extracted Barker. May they have a pleasaut trip and a safe return.

> RIAL LIST .- Causes set down for trial at a Court of Common Pleas of Cambria county, to convene or MONDAY, the 7th day of MARCH Dext, to wit :

Lorillard's | is an excellent article "EUREKA" of granulated Virginia -wherever introduced Smoking Tobacco mired. It is put up in it is universally adhandsome muslin bags, in which orders for Meerschaum Pipes are daily packed.

I classed by all who con-Lorillard's sume it as the "finest Yacht Club of all"- it is made of the choic'st leaf grown Smoking Tobacco ______t is anti pervous in -it leaves no disagreeable taste after smoking -it is very mild, light in color and weight, hence one pound will last as long as three of ordinary tobacco. In this brand we also pack orders every day for first quality Meerschaum Pipes. Try it and convince yourselves it is all t claims to be -"THE FINEST OF ALL-

Lorillard's

| have now been in genand is still acknowledged "the best" wherever

Cherry Pectoral. So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. When noth-ing else could reach them, under the Cherry Pec-toral they subside and disappear. Singers and Public Speakers find great pro-

tection from It. Asthma is always relieved and often wholly

Bronchitis is generally cured by taking the Cherry Pectoral in small and frequent doses. So generally are its virtues known that we need not publish the certificates of them here, or do more

han assure the public that its qualities are fully Ayer's Ague Cure, For Fever and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Dumb Ague, Periodical or Bilious Fever, &c., and indeed all the affections which arise

from malarious, marsh, or miasuratio poisons. As its name implies, it does Curre, and does not full. Containing neither Arsenic, Quinine, Bismuth Zine, nor any other mineral or poisonous substance

whatever, it in nowise injures any patient. number and importance of its curves in the ague dis-tricts, are literally beyond account, and we believe without a parallel in the history of Ague medicine. Our pride is gratified by the acknowledgmonts we receive of the radical curve effected in obstinute cases, and where other remedies had wholly failed. Unacclimated persons, either resident in, or travelling through miasmatic localities, will be protected by taking the AGUE CURE daily. For Liver Complaints, arising from torpidity of the Liver, it is an excellent remedy, stimulating

the Liver into healthy activity. For Bilious Disorders and Liver Complaints, it is

an excellent remedy, producing many truly re-markable cures, where other medicines had failed. Prepared by DR. J. C. AYER & Co., Practical and Analytical Chemists, Lowell, Mass., and sold all round the world.

PRICE, \$100 PER BOTTLE. REESE J. LLOYD, AGENT, EBENSEURG, PA. DETER CAMPBELL'S IMPROVED

BEE HIVE. The undersigned has secured letters patent of the United States, dated December 14, 18/9,

for an improvement in the construction of Bee Hives, and claims for his invention advantages possessed by no other heretofore patented.

The principal feature of this Ree Hive is the arrangement by means of which it is thoroughly ventilated, thus precluding the possibility of the bees smothering, the comb moulding or the honey souring. This desirable end is accomplished by a vertical perforated tube, running centrally through the hive and open at the top and bottom. All persons interested in apicul ture will at once see the great advantages secured in this improvement. The ventilator is for the increase of bees

The peculiar construction of the box, partieularly in the arrangement of the inner compartments, whereby it can be cleaned at any time without disturbing the bees, is another valuable improvement which will be obvious to any person who examines this Hive. An examination of the workings of the bees or the condition of the interior can be made at any time, as the sides are cased with glass. Bees can be trasferred from a different hive to the mproved one without any difficulty whatever. It would require too much space to enumerate here all the advantages claimed in this invention, but full information will be promptly furnished by applying in person or by letter to the patentes. I am now repared to dispose of territory for the sale of the Improved Bee Hive in any portion of the United States.

PETER CAMPBELL Carrolltown, Cambria Co., Pa.

AUTOMATIC RAILWAY GATE The patentee of the above has also invented and patented an AUTOMATIC RAILWAY GATE, to which he invites the attention of railroad men. Full information will be fur ni-hed on application, and Company Rights will be disposed of by the inventor. Address [jan.11.'70.-tf.] as above. JOHN GAY. WM. WELSH. to settle all accounts.

Sheriff's Office. Ebensburg, Feb. 3, 1870.4t.
