HIGH PRICES

GRAND CLOSING OUT SALE

OF V. S. BARKER'S IMMENSE

STOCK of GOODS.

Owing to the fact that money is pretty scarce, and people do not want to invest unless they can get their money's worth, V. S. BARKER has determined to offer his entire stock of Goods at

GREATLY REDUCED PRICES

Bradde CALSBE

As it is my desire to dispose of every article contained in my large and varied assortment of Goods before APRIL 1sr, 1870,

UNPRECEDENTED BARGAINS

WILL BE OFFERED IN

Clothing, Hats, Caps, Boots,

NDRE W GEODEBESS

And Miscellaneous Articles OF EVERY DESCRIPTION!

The stock is new and contains no damaged or Auction goods, but every article is warranted to be in good and perfect order, and

WILL BE OFFERED AT PRICES LOWER

THAN HAVE EVER PREVAILED IN THIS MARKET.

The Goods are marked down so that ONLY ONE PRICE will be asked FOR CASH, and sold for CASH ALONE.

So buy for CASH, and MONEY save, | I'll sell you CHEAP for CASH to day, And do not yield to sorrow; And I'll trust you all to-morrow.

And Now Look at This: STILL BETTER OPPORTUNITIES

SECURING BARGAINS. ANY PERSON BUYING GOODS TO THE

AMOUNT OF FIVE DOLLARS AND UPWARDS. Will have 5 PER CENT. Deducted from their Bill,

Which they can have either in Goods or Cash, as they may wish. This is the greatest chance for bargains ever offer in this town, and persons wishing to buy Goods and SAVE MONEY will do well to examine our stock and PRICES before buying elsewhere.

Remember, the whole stock is to be CLOSED DUT Before the FIRST DAY of APRIL NEXT.

THINGS WORTH KNOWING.

A SURE REMEDY FOR SMALL-POX AND SCARLET FEVER .- Now that the scarlet fever and small-pox are prevailing in the city to quite an extent, with fatal results, I herewith append a recipe which has been used to my knowledge in hundreds of cases. It will prevent or cure the small-pox, though the pittings are filling. When Jenner dis-e-vered cow pox in England the world of science hur'ed an avalanche of fame upon his head, but when the most scientific school of medicine in the world-that of Paris-published this recipe as a panacea for small-pox it passed unheeded. It is as unfailing as fate, and conquers in every instance. It is harmless when taken by a well person. It will also cure scarlet fever. Here it as I have used it to cure the small-pox. When learned physicians said the patient must die

Sulphate of zinc. one (1) grain. Foxglove (digitalis), one (1) grain. Sugar, one-half (1) tallespoonful.

Mix with two (2) tablespoonsful of water. When thoroughly mixed add four (4) sunces of water. Take a tablespoonful every hour. Either disease will disappear in twelve hours. For a child, smaller doses, according to age. - Correspondence St. Louis Times.

IMPROVED WRITING INK .- In the multiplicity of inks and writing fluids of various shades and colors, the inquiry is frequently made for some of the old-fashioned recipes, known to our fathers, by which an ink could be obtained, indestructible in its nature and jet black when first used. Our readers may. perhaps, thank us for a recipe, which is said to fulfill the above mentioned conditions .-Three-fourths of a pound of bruised nut-galls are to be placed in a stoneware jar containing a gallon of soft water; and the next day six ounces of green vitriol, six ounces of gum Arabic, and a few drops of kreasate or carbolic acid are to be added. The bottle in which the liquid is placed is then to be corked and left for two or three weeks, being shaken up once or twice a day. After being allowed then to stand for a few days undisturbed, the clear liquid is pored off and is ready for use.

A USEFUL HINT FOR COLD WEATHER .-The reason a room takes so long to be warm ed after a fire has been kindled is that the air goes up in a steady column from the mouth of the register, sides of the stove, or front of the grate to the ceiling of the room, and from thence begins to distribute itself downward, which of course is a slow process. To expedite this, take a palm leaf fan, a shawl, a large towel, or something similar, and fan violently or swing the shawl vigorously, thus compelling the upper and lower strata of air to unite, the hot upper to mix with the cold lower. In this way the upper portion, where the thermometer would in licate eighty, and the lower, where it would stand at forty, will be compelled to Between Julia and Caroline, - ALT OONA. witness how much sooner the apartment become comfortable.

CURE FOR TOOTHACHE .- "My friend," said H. "I can cure your toothache in ten minutes." "How? how?" inquired I. "Do it in

"Instantly," said he; "have you any

"Well, then, bring it and some common They were produced. My friend pulver-

ized them and mixed them, in equal quantities; then wet a piece of cotton, causing the mixed powder to adhere; and placed it in my hollow tooth. "There," said he, "if that don't cure you I'll forfeit my head. You tell this to every

one and publish it everywhere." The rem-

Bone Felon .- Of all painful things can there be any so excruciatingly painful as a bone felon? We know of none that flesh is heir to, and, as this malady is quite frequent and the subject of much earnest consideration, we give the last recipe for its cure, which is furnished by that high authority, the London Lancet: "As soon as the pulsation which indicates the disease is felt. put directly over the spot a fly blister about the size of your thumb nail, and let it remain for six hours, at the expiration of which time, directly under the surface of the blister, may be seen the felon, which ROCKING CHAIRS, OF EVERY SIZE can be instantly taken out with the point of a needle or a lancet."

THE AGE OF A HOBSE -The following information to ascertain the age of a horse after it has passed its ninth year is new to us and will be to most of our readers: After the horse is nine years old a wrinkle comes on the eye-lid, and every year thereafter he has one well defined wrinkle for each year over pine. If, for instance, a horse has three wrinkles he is twelve years old. Add the number of wrinkles to nine and you will always get his age.

COMPORT IN OLD NEWSPAPERS .- The thin nest shawl may be made warm by folding a newspaper inside it. The paper is impervious to the wind and cold air from outside, and prevents the rapid escape of the warm air from beneath it. If you suffer from cold Supper's Building, Clinton St., Johnstown, feet on a journey, fold a piece of newspaper over your stocking; this is better than rubbers. If you are cold in bed, newspapers spread under the upper cover, will serve you as an additional blanket.

TESTING FLOUR .- An exchange gives the following simple mode as the proper way to test flour : "Place a thimblefull in the palm of your hand and rub it gently with the finger. If the flour smooths down, feeling gentle and slippery, it is an inferior quality. But if the flour rubs rough in the palm, feeling like fine sand, and has an orange tint, purchase confidently. It will not disappoint you."

MAKE YOUR OWN CANDLES -Take two pounds of alum for every ten pounds of tallow; dissolve in warm water before the tallow is put in; then melt the tallow in the alum water with frequent stirring. This will clarify and harden the tallow so as to make it a most beautiful article, either for summer or winter use, almost as good as

-G. Washington was a great man. He was born of poor but honest parents. He cut down a cherry tree, and when his father, who was fond of cherries, chased him into the barn to lick him, he cried, "Give me Liberty or give me Death." To which his father nobly replied, "I would rather you told me ten thousand lies, than cut down one cherry tree." In early life G. Washington never played truant and never chewed tobacco, nor did he ever write for the New
