

Cambria Freeman.

HENSBURG, PA. THURSDAY MORNING, NOV. 3, 1870.

The Ravings of a Defeated Political Traitor.

The last Johnstown Democrat, editorially and bisarcically, rants most furiously about the Chairman of the Democratic County Committee.

We doubt not, Mr. Johnston will plead "guilt" to the offences of his youth, such as being a "soldier," and a "schoolmaster," and he might have added, "wood chopper."

We hold that the position of a "collier," a "wood chopper" or a "schoolmaster," is just as honorable as that of an editor or a lawyer.

As to the rest of the trash about Mr. Johnston—so silly, so false, that even the Republican papers of the county and district have for years refused to publish it.

When Mr. Johnston shall allow his bondsmen to be sued for his neglect of official duties—when he shall busily betray his friends who confided in him—when he shall agree to take a nomination for removal or against removal, and run on either side of the question—when he is willing to run on a ticket with Know Nothings—when he shall prevail on a respectable young gentleman, like Francis Cramer, to sacrifice himself for his benefit, by promising him 700 majority in Johnstown—when he shall eat the Poor House bread and afterwards abuse the Poor House—when he abuses a worthy priest for correcting a falsehood in his paper—when he shall receive a nomination from a meeting that gives three cheers for Daniel J. Morrill—when, we say, Mr. Johnston shall get low enough to do all these things—then, and not till then, will he be degraded enough to hold a personal controversy with H. D. Woodruff.

The notorious Whittemore has been defeated for Congress in the first South Carolina District, by a negro named Rainey. It would therefore seem that in the hour of his deepest tribulation, his former negro allies went back on the carpet bag church. To other negroes were also elected to Congress from the same State, and a negro Lieutenant Governor and a majority of negro members to the Legislature. We infer from this dark array of talent and statesmanship, that the proceedings of the Legislature of the "Palmetto State," at its approaching session, will be decidedly "rich, rare and racy."

The Harrisburg "State Journal," the organ of Gov. Geary, is more honest and candid than the other leading Radical papers in the State. It prints the votes by counties for the different Congressional candidates, and conclusively shows by its figures, taken from the official vote, that the Democratic party had a clear majority in the State of two thousand six hundred and eighty-one (2,681). We will accept the conclusion arrived at by the Journal, as it is entirely satisfactory.

Gov. Geary has issued his proclamation recommending that Thursday, Nov. 24th, be observed as a day of thanksgiving and praise to Almighty God for the blessings, ends and uses set forth in the proclamation issued by President Grant on the 27th of Oct.

The End Reached.

In the last issue of the Johnstown Democrat the senior editor of that mendacious journal, by one bold and reckless plunge, descended into a more profound depth of editorial infamy than he had ever before, by the most persistent efforts, succeeded in reaching. In his own peculiar, but natural sphere, he now stands unrivalled, unapproachable. In its palmy days, that once scurrilous and libellous sheet, known as the Pittsburg Jakey, the shame and disgrace of its time, never succeeded in soaring higher into the regions of pure and unadulterated blackguardism than did the editor of the Democrat, in that model number of his "Jakey."

At Paris things are unusually quiet and uninteresting. The Germans keep at a respectful distance from the forts in daytime, but are said to be very busy in the night in perfecting their appliances. The French watch them closely and shell them occasionally, but have lately made no sorties of any importance. The army of the Loire is said to be ready to take the field and commence active operations against the Prussian rear, but, owing to the liberation of a large army corps under the command of Prince Frederick Charles, it is most likely that the whole plan of campaign will at once be changed.

Case, viper, you gnaw at a flea!

Judge Taylor and the District Court.

A case has very recently been decided by the Supreme Court of this State, which will relieve Judge Taylor from hereafter acting as the President Judge of the District Court at Johnstown. The case was this: By an act of the Legislature of April 15th, 1869, a Mayor's Court was established for the city of Scranton, in Luzerne county. By that act Judge Conyngham, the President Judge of the several Courts of Luzerne county, became Recorder, or, in the other words, the Presiding Judge of the aforesaid Mayor's Court, just as Judge Taylor, by the act of Assembly erecting the District Court of Cambria county, was made the Presiding Judge of said District Court. The question before the Supreme Court, in the case referred to, was, Has the Legislature any power under the Constitution to appoint a Judge of a Court of Record in this Commonwealth? The Supreme Court in disposing of the case quoted Section 2, Article 6, of the Constitution as amended in 1850, and which is as follows:

The Judges of the Supreme Court of the several Courts of Common Pleas, and of such other Courts of Record as are established by law, shall be elected by the qualified electors of the Commonwealth, in the manner provided by law, and shall be elected by the several Courts of Common Pleas and of such other Courts of Record as are or shall be established by law, and all other Judges required to be learned in the law, by the qualified electors of the respective districts over which they are to preside or act as Judges.

The Court then proceeded to decide that the Mayor's Court at Scranton, in view of the provisions of the act establishing it and the nature and extent of its jurisdiction, is a Court of Record, and that, therefore, in pursuance of the Constitutional provision quoted above, the President Judge of said Court must be elected by the qualified electors of the district over which he is to preside or act as Judge, and that he cannot be appointed to fill that position by an act of the Legislature. The District Court of Cambria being also a Court of Record, it necessarily follows that Judge Taylor cannot, under the Constitution, discharge the duties of its Presiding Judge. These are the two points decided by the Court.

What will be done in the premises we are not prepared to say. The District Court in its inception was peculiarly a Johnstown institution, and we have no doubt that the citizens of that great and important "commercial center" will be abundantly able to take proper care of it.

BUFFALO felt another earthquake shock, but short, Tuesday afternoon.

The War Record.

Almost the only news of interest and importance from the seat of war is in the details of the surrender of Metz by Marshal Bazaine. By it the flower of the French army, including the Imperial Guards and one of the strongest fortresses in the world, have been given away to the Germans.

It is not much to say adversely given away, because Bazaine had 150,000 effective men left, was supplied as yet with several weeks' provisions, and there was no lack of ammunition or arms and artillery. The capitulation comprises 173,000 men, of which 20,000 are wounded, 6,000 officers, sixty generals, three marshals, 3,000 cannon, and an immense war material, besides a vast chest containing 40,000,000 francs, equivalent to \$5,000,000. The entry of Prince Frederic Charles, at the head of his army, is said to have been very imposing, and immediately after it several army corps began to take up their march to Paris. The capitulation has created profound sensation not only in France, but also in Germany. The French government and people are indignant, and plainly call it treason. The Germans are "astonished" at their own luck and success.

At Paris things are unusually quiet and uninteresting. The Germans keep at a respectful distance from the forts in daytime, but are said to be very busy in the night in perfecting their appliances. The French watch them closely and shell them occasionally, but have lately made no sorties of any importance. The army of the Loire is said to be ready to take the field and commence active operations against the Prussian rear, but, owing to the liberation of a large army corps under the command of Prince Frederick Charles, it is most likely that the whole plan of campaign will at once be changed.

A Meteoric Explosion.

From the Troy Times, October 25th. We yesterday noticed briefly the meteor which was observed in this vicinity on Sunday morning last, at six o'clock. The phenomenon seems to have been one of extraordinary character—something at least with results quite unusual in meteoric bodies. Wherever noticed it was accompanied by a low rumbling sound in the earth, and at Bennington people supposed that a repetition of Thursday's earthquake had occurred. The Saratoga and Schoharie papers also describe its appearance in their respective sections.

Either the earth has got the shivers or is going to have it. Friday's quake was a bad symptom, but the thing seems to be not ended yet. Here, a certain person, who resides on the West side of Saratoga Lake, about three-quarters of a mile below Moon's, and reports that early Sunday morning, before the sun was up, he being out doors at the time his attention was attracted by a low, deep rumbling sound, as if from the very bowels of the earth. The noise had hardly ceased when he saw an immense object, appearing as large as a man's hand, shooting swiftly across the firmament from north to south. Just as it reached the southern limit of vision it appeared to split up and divided into several parts. The noise and the meteor were heard and seen by several persons beside Mr. Ramsell.

WASHINGTON, October 25, 1870. Ex Representative Cassin, of the Sixteenth Pennsylvania District, was in the city on Saturday, and has indicated his intention to contest the election of his opponent, who has a majority of fifteen votes. Mr. Cassin proposes to show that a large number of voters are colonized against him from Franklin and Somerset counties.

The above dispatch simply shows that John Cassin has less brains, but not less cheek, than he gets credit for. Why should "a large number of voters" be colonized against him from Franklin and Somerset counties, two of the counties composing his own district? If they were not in their own counties, as the dispatch concedes they were, why would they leave them and go to Fulton and Bedford counties to vote for Meyers, the man of their choice? They could have done that in Franklin and Somerset counties. Cassin was fairly whipped in a square stand up fight, although he had the aid of at least six hundred negro votes, and now, like a drowning man, he is grasping at straws.

As an election for Governor, three Congressmen and members of the Legislature was held in West Virginia on Thursday last. The result proves to have been a decided and glorious Democratic victory, and so far as the Congressional ticket was concerned, is a gain of two Democratic members. The following dispatch to the Harrisburg Patriot tells the whole story:

WHEELING, October 29, 2.30 P. M.—The evening a United States Senator, Davis, of the Democratic State ticket is elected by the Radicals by about 2,500. Re-elected.

Now for a genuine Democratic earthquake in New York on Tuesday next.

Pre-Eminent Fraternity.

There is one thing which the editors of the Johnstown Democrat can claim pre-eminence in—fraternity. The senior editor of that paper either left or hired himself to forward a movement, the express purpose of which was to elect a Republican candidate to Congress in this district, a movement against which, so far as the Republican actors in it are concerned, we have nothing to say. They were playing a desperate game, and their candidate from here, for which we do not condemn them. But what of the men who, professing to be Democrats, assisted in this conspiracy to defeat their own candidate? There was it is true many Democrats who were defeated and left to stray on the Removal issue, through the false teaching of a few aspirants to political preferment, who basely deserted the standard of their party and went over to the enemy with a full knowledge of what they were doing. And now for the Senior editor of the Democrat, who came to the rescue of the other having failed in his treasury to accomplish the base design, to make it appear that he was the friend of Mr. Seger, and that the disaffection among the Democrats of the county was caused by Robert L. Johnston and others, is pre-eminently fraternal.

The editorial and anonymous articles in this week's Democrat, aside from their cruel and infamous assaults upon the character of Mr. Johnston, are extremely indignant (and usually, and come with exceeding bad grace) from the man who can never repair the harm he has done. The Senior editor of Cambria county, it is perfectly well known, that the Republican pretenses to whom the editor of the Democrat hired himself, were the avowed friends of Mr. Morrill, and that the great purpose of the movement was to elect Mr. Morrill to Congress. It is a fact, and it is well known, that the Senior editor of the Democrat, that up to the time he flipped over, he maintained the movement as one organized expressly to carry Mr. Morrill's election, and he cautioned the Democracy against it. After having agreed to do this, he then, in a public meeting, to elect the Democratic candidate for Congress, it is contended in Mr. Woodruff's article, that he went to the aid of Mr. Morrill's election, and he cautioned the Democracy against it. After having agreed to do this, he then, in a public meeting, to elect the Democratic candidate for Congress, it is contended in Mr. Woodruff's article, that he went to the aid of Mr. Morrill's election, and he cautioned the Democracy against it.

A remarkable phenomenon occurred the day on which the earthquake occurred, about three miles east of Louisville, O., at a place called Stump's mill, and on a small hillside that has heretofore been dry ground. A stream of water about one foot in diameter gushed out in great violence, and has been running with the same force ever since. The ground for a considerable extent around the water-spout is settling. A long pole has been inserted, but no bottom has been found. There seems to be an underground lake. It is causing considerable excitement.

Three years ago a man named Cahoon was appointed Mayor of Richmond, Va., by Gen. Schufeldt. Subsequently, he was a candidate before the people for the same office, and defeated. All this time he was endorsed by the loyal press of the North as a model man, and held up as the kind of a man necessary to be first in office in the South by bayonets. On Thursday last this same Cahoon was found guilty of forgery, by which he defrauded the State out of seven thousand dollars, and sentenced to the State Prison for four years. And thus ends the career of a "holy" man and model Radical office-holder.

One of the greatest curiosities of the age is now on exhibition at the Fair Ground, in the form of a half-blind negro child fifteen months old, full of whose body is pure white, and the other pure black. The child was born on the farm of Mr. Shearer, in Appomattox county, and is certainly one of the most singular specimens of human kind that has ever been known. Lynchburg News.

Political and News Items.

Negro and all other kind of Republican candidates for Congress were elected in South Carolina the other day. The magazines containing fifteen thousand pounds of nitroglycerine, exploded at Prescott, Ariz., on Tuesday afternoon of this week, literally blowing four men to atoms. Four thousand U. S. soldiers to overthrow the Democratic majority in New York, but not one hundred to protect the settlers in Arizona from the Indians. How for Grant.

Windsor township, Berks county, gave at the late election one hundred and seventy-nine democratic votes and one republican vote. There was no ballot-box stuffing either. There is in Spring township, Crawford county, a wild grape vine measuring four feet in circumference near the ground, and three branches measuring respectively twenty-two, twenty-five and twenty inches.

Two fatal accidents occurred in Snyder county last week. William Harmon, aged ten years, was kicked in the throat by a horse, and died in three hours. A son of Edward Row, of Penn township, was run over by a wagon, and died from the effects of his injuries.

A dog, having all the proclivities of a cat, is now in the possession of Mr. Jacob Maas, of Careyville, Illinois. The pet dog, full age of the feline character, while the rest of the body is wholly canine. The above fact is vouched for by some of the most prominent citizens of Careyville.

Mrs. Esther M. Davis, of Cedar Rapids, Iowa, who left her husband because he would not try to work, and was in the habit of whipping her seven times a week, announces that the situation is open for any man of the Cedar Rapids women wants to try him on.

Colonel O'Brien, a fervent republican of high standing in Maryland, was arrested at night, and taken twenty miles to jail, and a rain-storm, for alleged interference with elections. The United States Commissioner gave him the prior satisfaction of an honorable discharge.

A melancholy scene was witnessed at the national meeting in October, Wis., the other evening. A young man who had left the city four days previously on his wedding-tour, and was assisting to organize it from the train to a house.

An old man named Joseph Bachler, was found dead in his bed at Chicago, on Tuesday. A post mortem examination was held, and it was found that he died from starvation. He was worth nearly \$20,000, but lived in a miserable hovel, without fire or food, and without company.

A capital case of individuals of Barre, Vt., Massachusetts, was the act of sitting down Tuesday afternoon, when a violent earthquake shook the building, in which the lot took his seat, for a high offense he was required to stand three quarters of an hour.

A special train was sent to return from the precincts of Red Bank, Pa., to the election of Armstrong, Democratic by vote, two Republican candidates were run—Bartlett and Spink—and the vote was nearly equally divided between them. Bartlett, however, was elected by a majority of 150 votes.

The Cincinnati Dispatch features that as many as twenty thousand votes were cast by negroes in Ohio at the late election. As the Radical majority over the Democrats was 10,000, this shows that among the white voters of Ohio there is a Democratic majority of about fifty thousand. The Radicals would their success entirely to their negro allies, and would on purpose neglect the white vote.

The Bible in the Public Schools.

Michael Larkin vs. John H. France. This is an appeal from the following decision of J. H. France, one of the Justices of School District No. 1, of West Hazley: At this school there was a female teacher employed who read the Protestant version of the scriptures each morning at the opening of the school. Michael Larkin objected to the Bible read, and so he kept them from the school until after the reading. By advice of the Trustees the children were sent home, the teacher declaring to them that they must be present at the reading referred to or stay away all the day. Whereupon Larkin, acting under advice of J. H. France, applied for a writ of Habeas Corpus, signed by J. H. France, J. Westcott, Superintendent of Public Instruction, who gave his opinion, of which the following is the substance:

The object of the common school system of this State is to afford the children within its borders, the best of instruction in the State does not provide and with it does not interfere. No distinction is to be made between Christians, whether Protestants or Roman Catholics, in the schools. It is the duty of the State to provide for the education of all children, and it is the duty of the parents to send their children to school. The object of the common school system is to afford the children within its borders, the best of instruction in the State does not provide and with it does not interfere. No distinction is to be made between Christians, whether Protestants or Roman Catholics, in the schools. It is the duty of the State to provide for the education of all children, and it is the duty of the parents to send their children to school.

Neither the common school system nor any other school system, be established upon the conscientious views of all are equally respected. The rule is to be applied to all alike, and no distinction is to be made between Christians, whether Protestants or Roman Catholics, in the schools. It is the duty of the State to provide for the education of all children, and it is the duty of the parents to send their children to school.

This is what the Chicago Republican (Radical) thinks about conferring seats in Congress. One or two deluded candidates in this State might profit by its perusal: We hope there is truth in the report that Gen. Schenck desires an invitation to contest for a seat in Congress. The race, as far as we are concerned, is a close one, and Schenck's defeat is more honorable to him as a statesman, than a seat in Congress would be. The substance of a contest would be left to the Southern States, and the Northern States would be left to the Southern States, and the Southern States would be left to the Southern States.
