JOHNSTOWN, Nov. 28, 1870. DEAR FREEMAN-The old year is tapering down rapidly to a point. The sun will soon leave Saggitarius, the old archer, and enter Capricornus, the climbing goat. The days have reached nearly the shortest span, and the

nights are growing to an unusual length. And though the sun is now nearer to the earth by three millions of miles than he was in June, he has much less influence now than he had then. The time, too, is rapidly approaching when the sun and clocks agree, which makes me hope nate man was aged about 55 years, and leaves for a French armistice when the sun and clocks last agreed. Christmas, too, is coming-the great festival of all festivals-the great nativity-day. Though Thanksgiving was well observed here, yet it is no such day as Christmas. There is a large quantity of recruiting going on already for the coming Christmas fight. far as chances are concerned, he is said to be Droves of turkeys, geese, ducks and chickens, second on the list. George is one of the most are pouring in from all quarters, much like Garribaldians, Irish Ambulance corps, France Tireurs, etc., etc., in France. The clatter and

Thanksgiving day was well kept-piously umns with something, and we suggest a little kept-religiously kept-notwithstanding the home news as just the thing to occupy the space fact that Johnstown has a bad name abroad. Stores were closed and churches were opened, and cloquent sermons were preached, and peocondition, although about twenty four hours ple all appeared willing to give thanks for the behind time for Thanksgiving, which was a blessings enjoyed. They had, of course, to get up at three in the morning and work till eleven at night, for one dollar and a half a week to make other people happy-just as if President Grant and Gov. Gevry had not included them in the call ! Poor hired girls ! Hope there are no hired girls in heaven. Religious, pious, praying people, think nothing of making hired people work till their eyes are in a mere war of words, and Gondon thereupon themselves comfortable. Negroes have souls,

The Teacher's Institute docs not meet until the 19th of December, but it is not premature

to request a general attendance. The State

Superintendent asserts in the November School Journal that one third of the teachers (5,00) leave the business every year, making room for 5,000 raw recruits. These young teachers need instruction, and if the Institute is rightly managed it will be just the proper place for these inexperienced teachers. Let all the teachers in the county attend, and we will try once more to make the Institute what it ought to be. Directors will lose nothing by allowing the teachers the time and paying them for going. It will be a gain to the school. And Directors would lose nothing by attending regularly themselves. We hope to see a large turnout and a prosperous meeting

TO CLOSE THE SEASON.

The Kidneys are two in number, situated at the upper part of the loin, surrounded by fat, and consisting of three parts, viz : the Anterior, the Interior, and the Exterior.

The anterior absorbs. Interior consists of tissues, or veins, which serve as a deposit for the urine ann convey it to the exterior. The exterior is a conductor also, terminating in a single tube, and called a Ureter. The ureters are connected with the bladder.

The bladder is composed of various coverings or tissues, divided into parts, viz.: the Upper, the Lower, the Nervous, and the Mucous. The upper expels, the lower retains. Many have a desire to urinate without the ability; others urinate without the ability to retaiu. This frejuently occurs in children.

To cure these affections, we must bring into action the muscles, which are engaged in their various functions. If they are neglected, Gravel and Dropsy may ensue.

The reader must also be made aware, that however slight may be the attack, it is sure to affect the bodily health and mental powers, as ourfliesh and blood are supported from these

GOUT, OR RHEUMATISM .- Pain occuring in the loins is indicative of the above diseases. They occur in persons disposed to acid stomach and chalky secretions.

THE GRAVEL .- The gravel ensues from neglect or improper treatment of the kidneys.-These organs being weak, the water is not expelled from the bladder, but allowed to remain; it becomes feverish, and sediment forms. It is from this deposit that the stone is formed, and gravel ensues.

Duorsy is a collection of water in some parts of the body, and bears different names, according to the parts affected, viz: when generally diffused over the body, it is called Anasarca; when of the abdomen, Ascites; when of the chest, Hydrothorax.

TREATMENT.-Helmbold's highly concentrated compound Extract Buchu is decidedly one of the best remedies for diseases of the bladder. kidneys, gravel, dropsical swellings, rheumatism, and gouty affections. Under this head we have arranged Dysuria, or difficulty and pain in passing water, Scanty Secretion, or smail and frequent discharges of water; Strangury, or stopping of water; Hematuria, or bloody urine; Gout and Rheumatism of the kidneys, without any change in quantity, but increase in color, or dark water. It was always highly recommended by the late Dr. Physick, in these affections.

This medicine increases the power of digestion and excites the absortents into healthy netion by which the watery or calcerous depositions, and all unnatural enlargements, as well as pain and inflammation, are reduced, and it is taken by men, women, and children. Direcons for use and diet accompany,

DEAR SIR-I have been a sufferer, for upward

of twenty years, with gravel, bladder, and kid-

the treatment of the most eminent Physicians,

Having seen your preparations extensively

I did this because I had used all kind of adver-

and some quite injurious; in fact, I despaired

of ever getting well, and determined to use no

remedies thereafter unless I knew of the lugre-

dients. It was this that prempted me to use

your remedy. As you advortised that it was

composed of buchu, cubebs and juniper berries,

it occurred to me and my physician as an excel-

lent combination, and, with his advice, after an

examination of the article, and consulting again

with the druggist, I concluded to try it. 1 com-

menced its use about eight months ago, at which

time I was confined to my room. From the first

bottle I was astonished and gratified at the ben-

eficial effect, and after using it three weeks, was

able to walk out. I felt much like writing you

a statement of my case at that time, but thought

my improvement might only be temporary, and

therefore concluded to defer and see if it would

effect a perfect cure, knowing then it would be

of greater value to you and more satisfactory

after using the remedy for five months.
