#### A Singular Fascination.

The Philadelphia Sauday Dispatch contains an account of a woman that was fascinated by a woman, which is most remarkable as a psychological study. A lady was one of the teachers at a school in a little country town, and among her pupils was a young girl who became so that he witnessed, where the ceremony attached to her as to be resilers when not was performed on the same couple three near her, and so marked did this love I went back to the hotel, too much out more bilious than I had yet seen him ap-of sorts to enjoy my breakfast. The girl was sent to another school in a distant town, but proved so refractory that at one time the principal thought it advisable to send her home ; she would not study nor associate named Jenkins. The latter had a buxom with the other girls, until at last a lady woodsman, and the situation appeared applied for a situation as teacher, which able. The parents discovering that their Jenkins was a liberal provider, and daughter was again under the influence of He laid in half a barrel of whiskey, and dially hated, withdrew her from school his wife and daughter cooked enough for and took her home. There was a preacher in the parents resided and requested to be the another was taken in her place, whereupon the girl became so obstreperous that she tore up her books and threw them at the head of the governess, who, not liking such treatment, went her ways. THERE is a story told of a young man in Baltimore who got into trouble through his persistent folly in reading the newspapers. It seems he saw an account of how lovers in Seville, when they are forbidden to visit their heart's delight, stand under the young ladie's window at night, and converse with them through a bollow tin tube made in sections, so that it can be shut together like a spy-glass, and used as a cane. This youth in Baltimore loved a damsel whose father regarded this love's young dream as an inferior kind of nightmare which had to be shaken of at all hazards. So he refused to permit the dreamer to come to his house Well, this infatuated one went right down to a tinker and procored about forty feet of tubing, which closed up into the smallest possible space. Then he used to go round in the evenings, unreef his speaking trumpet, and run it up into the second story back window, where his angel was, and roost out on the fence, whispering all sorts of sweet things all along through that forty feet of pine. This was all very nice as far as it went. But one evening the engle-eyed old man came to the room door with a pitcher full of hot water in his hand and sent his daughter off suddenly on an errand. Then the despicable old scoundrel called down the pipe in a falsetto voice until the youth placed his ear against it and then-but it was sufficient to make one side of the young lover's face resemble an underdone tenderloin steak. When his friends ask him what is the matter he says he has been down in the country and has been sunburned ; but he is convinced that Spanish customs, taking them as a whole-are abominable ! He thinks, however, that forcible application to the old gentleman of the method of walking popularly supposed to be in use among the Spanish people, will be healthful and invigorating if the said lover ever comes in contact with the said hardened old villain -Sunday Dispatch.

Who will dress them and caress them?

Where are arms enough to hold them?

Who will praise them? who will scold them?

Who will darn their little socks?

Hands to pat each shining head?

Who will pack them off to hed?

Only think of the confusion
