

Cambria Freeman.

EBENSBURG, PA. SATURDAY MORNING, APRIL 8, 1871.

The English crown is none the worse for the Jewell that has just been lost in Connecticut.

The Democratic County Convention which met in this place last August neglected to appoint Senatorial conferees, to meet the conferees from the other counties with which Cambria county may be connected, for the purpose of nominating a State Senator.

The bill restoring that time-honored institution, the Spring elections, passed the Senate several weeks ago. It is of course a bill applicable to all the counties of the State, and therefore a general law.

The manifest want of ability on the part of the House committee on the apportionment bill, (of course an honest one was not contemplated,) is fully illustrated by the fact that after the bill was reported and had been sent to the State printer, it was discovered that Armstrong county had been entirely overlooked, or in other words, had been "left out in the cold."

The Connecticut election took place last Monday. For the last four years the vote of that State has been remarkably close. In 1868 English, the Democratic candidate for Governor, defeated Hawley, Radical, by a few hundred votes; in 1869, Jewell, Radical, was elected over English by a very small majority; in 1870 English defeated Jewell by 843 votes.

On an occasion like this the people have a right to expect that their representatives should have the courage of a great duty. Let this first precedent of acquiescence in an act of usurpation by a successful soldier pass into our history, and you will have struck a blow at the cause of the government that will resound throughout the earth.

There is more of the Grant-Stoms middle in Cincinnati. The venerable William Stoms is out in a long letter in which he convicts the equally venerable Jesse R. Grant, of a series of falsehoods by which the President's father attempts to escape the charge of trying to get appointments in the Revenue service by means of bribery.

On Monday last that veteran Democratic journal, the Pittsburgh Post, appeared in a new and handsome outfit. The Post now presents a very elegant appearance. This marked improvement in the Post affords not only evidence of its continued prosperity, but also of the spirit of enterprise and energy of Messrs. J. P. Burr & Co., its proprietors.

It is now quite certain that no bill giving the President power to suspend the writ of Habeas corpus, and declare martial law, can pass the House.

Carl Schurz.

Two days after Mr. Sumner's speech in opposition to the acquisition of San Domingo, Carl Schurz, the Radical Senator from Missouri, delivered a most scathing and withering philippic against Grant and his Secretary of the Navy for their conduct in connection with that visionary scheme.

Mr. Sumner's Speech.

We fulfil the promise made last week by publishing herewith the concluding portion of Senator Sumner's able and unanswerable argument against the crooked and illegal measures resorted to by Grant & Co. to effect their darling project, the annexation of San Domingo.

All this was folly in the senate.

All this was folly in the senate. Let the people judge. Thus do we discern, whether on the coasts of San Domingo, or here in Washington, the same determination with the same reckless disregard of great principles as also the feelings of the people of Hayti who have never injured us.

EXCHANGING BABIES.—At Quincy, Ill., the other day, a lady got on board the car bearing in her arms a handsome little child about four months old, tastefully dressed in white, for which she manifested the deepest affection. When the train reached Shelbyville, she handed the child to the other lady who carried a four-months' old child, the exact counterpart of the one first mentioned, and dressed in precisely the same way, and took her seat directly in front of the first passenger. Just after the train was in motion both ladies had occasion to get up and pass through the car, and each one deposited her baby carefully on the seat. On returning each lady to her seat, and singular to relate, made a mistake in the babies. No. 1 carefully lifted in her arms the baby of No. 2. No. 2 carelessly and fondly the little cherub belonging to No. 1. For twenty-two miles the two mothers rode on the train, each nursing the other's child for her own. On reaching Macon the Shelbyville lady started out of the car, and was on the point of stepping on the platform, with the other lady's infant in her arms, when the conductor, who witnessed the involuntary exchange, called her attention to the fact. She was of course greatly surprised, but could scarcely believe it possible; but on returning to the car and comparing notes as well as babies with the other lady, the mistake was discovered and promptly rectified. Each lady pressed closer to her breast the little angel she came so near losing, and after a profusion of explanations and apologies, which were only terminated by the ringing of the bell, they separated and each went on their way rejoicing.
