EBENSBURG, PA. SATURDAY MORNING, : : MAY 6, 1871.

GEORGE BEAGNER, the proprietor of the Harrisburg Telegraph, has made a complete retraction, over his own signature, of all the charges against Judge Black, which appeared in his newspaper. He alleges that the of jectionable articles, were inserted without his knowledge or consent, and avows his belief that Judge Black was as clear in every office he filled as mortal man could possibly be. The Lancaster Intelligencer presumes the Judge will graciously permit Bergner to go unwhipped after the publication of a retraction which is so complete in every sense

"We hold Butler to be the wickedest demarevolutionary, merciless and avaricious. That he is able to lead any considerable number of politics is in great part debauched. That he influences President Grant is not only a national but a human calamity. IT will be seen from the proceedings of the County Committee, published elsewhere, that the election for delegates to the next county convention will take place on Saturday, the 22d of July, and that the convention will be held on the following Monday. The action of the committee on this subject was wise and judicious. Heretofore, with the exception of last year, for which there was a good reason, the convention has been held so early that the smoke of the previous fall campaign had scarcely passed away before the different aspirants for office com menced the contest for the coming year. This was a punishment which the people could not well bear. There will be two months and a half of time between the meeting of the convention and the election, which is ample enough for any candidate to make his calling and election sure. The next convention ought to designate a fixed day in July, on which all future county conventions shall be hold.

WE were mistaken, as was the press generally, when we stated that the bill restoring the Spring Elections had passed both branches of the Legislature. It seems that after the bill passed the House and went to the Senate, certain amendments were offered to it (of course by an enemy to the bill) and adopted, applicable to Luzerne county. The House refused to concur in the amendments. and the bill was handed over to the tender mercies of a conference, where it still remains with but a slim prospect of an agreement on | tion in substituting the will of the President the disputed points. It is as wonderful as it is disgraceful that the Legislature will a second time, in defiance of the almost unanimous wish of the people, refuse to pass this bill, pure and simple and entirely disconnected with any debateable or conflicting propositions. The Senate had no kind of difficulbill of such magnitude as the border claim project, involving the trifling sum of almost three millions of dollars, but it could not pass a meritorious law, like the Spring Election ble amendments, which in all probability ate share of the same. will defeat it. It seems, however, that, like the insatiable horse leech. the members of the House at least demand more. On the 27th of April Mr. Cloud. from the Committee of Ways and Means, reported a bill which, amongst other things, contained an item giving to the members and officers of the Senate and House of Representatives seven dollars per day extra from April 7th. By a strange and mysterious coincidence it happened, most probably by s previous understanding between the Speaker, Cloud and Sam Josephs, that when Cloud made his report, Samuel, who knows all the ways that are dark in legislation. compled the chair. Political Treason.

The present national administration has

proved itself to be so lamentably weak and inefficient, that evidences not only of a want of confidence in, but openly avowed contempt for it, have manifested themselves in various parts of the country in the house of its original friends. The result could not well be otherwise. So completely has it failed to realize the expectations of those who invested it with power, that even ordinary reliance in its wisdom has given place te a feeling of alarm at its dictatoral purpose. It is not the entertainment to which they were invited. It has been such a rickety, such a nondescript affair, that of the six cabinet ministers originally nominated to the Senate by Grant, when he assumed office a little over two years ago, only one (the Post Master General) now remains. Gen, Sherman and the Ku Klux.

Gen. Sherman, who is now on a tour of Inspection to the different military posts in the southwest and on the western frontier, was in New Orleans a few days ago and was tendered a reception by the American Union, Club of that city. In replying to a complimentary toast, Gen. Sherman, in alluding to

I so believed, and before signing the agreement with Gen. Joe Johnston, I called together all the generals in my command, and without a dissenting voice they agreed with me. I believed they surrendered in good faith, and would have lived up to the very letter of the agreement; and in my opinion, if there had been no reconstruction by Congress, and the army been left at the time to settle all the questions of difference between the different seccared to put themselves on the record in favor of the swindle. MURDER NORTH AND SOUTH -Hon. Sharon Tyndale, late Secretary of State of Illinois, was murdered in cold blood while walking from his residence to the railroad depot. This is certainly a fearful tragedy, and yet we have no comments upon it by the Republican journals. All that is said of this cold blooded outrage is contained in suppose that an ex-secretary of State had een murdered in any of the Southern States, what would have been the result? The columns of these journals would have teemed vengeance of the Federal Government have been invoked. Language would have failed to express their detestation of the deed. It would have been pointed to as only another evidence of the lawlessness of the South .- . But occurring as it did in a Northern State, at the capital of which nearly as many murders and outrages are committed as in the Last week a respectable merchant was

murdered in the streets of New York, without even the temptation of pecuniary gain to the murderer. It was a most destardly, unprovoked affair; and yet we hear of no case for the interference of the Federal Gov ernment. Here in Philadelphia not a week passes in which some one is not tried for murder; and yet the journals that clamor so londly for Federal bayonet interterence in the South, in spite of the protest nearly every Southern executive, do not demand it for this city. What is sauce for the goose should be sauce for the gander .--If a certain number of murders in the South demand Congressional interference, why then should not an equal, or possibly a greater, number in the North require the same panacea ?- Evening Herald.

> WHAT DOES IT MATTER ?- The people of Arizona recently applied to Gen. Sherman to send more troops into that territory to protect them against the Apaches. These savages appear to be more ferocious than ever, and massacres of whites constantly occur. Gen. Sherman replied that "Conand increased the necessity for it, while reducing its capacity, that he had no more troops to send to Arizona. All that could be spared must be sent to the South.'

GRANT'S VERACITY .- In his Indianapolis peech General Grant said that he had no tention of coming to Indianapolis until he met Senator Morton at Pittsburg, by whose soft persuasions he was induced to make the Indiana visit. It is a well-known fact in railroad circles that two of Pulman's fine sleeping coaches were despatched from Harthe congressional policy of reconstruction risburg to Baltimore the Saturday previous, there to await the Presidential party. One of them, known as President Tom Scott's car, was assigned for Senator Morton, and the other (the Jewett car) was placed at the disposal of President Grant. These two cars, containing the royal and Santo Domingo party, left Baltimore on Thursday night at o'clock, and in due time arrived at Pittsburg jointly. It was here that Grant says he first met Morton, having travelled with him from Washington in the Pulman cars, and there it was from the time they started armies, it would be settled at once, and every- at Washington that the Indiana visit was "cooked up."-Cincinnati Enquirer.

IMPRISONMENT OF THE ARCHBISHOP OF PARIS.—In reference to the imprisonment of the Archbishop of Paris by the red republicans of France, the New York Herald of the 30th ult. has this to say :

It appears that the Archbishop of Paris, held in prison by the reds, was in danger of being sacrificed to the bloody spirit of the commune, when Prince Bismarck through General Fabric notified the commune, that if any further indignities were committed upon the archbishop, the German army still near Paris, to the number of 200,000 men, in the cause of civilization would go into Paris and make short work of the commune. In response to this broad hint from Prince Bismarck General Cluseret says he will propose to the commune to release the archbishop of Paris and other ecclesiastics now in prison. Thus it will be seen that Cluseret is more of the knave than the fool, and that the hint of Bismarck brings him down. In this view it is a fortunate thing for the cause of civilization in Paris that the German army remains on guard there just outside of the northern wall. But what a story for poor Paris as the capital of the civilized world.

The blasphemy of the Paris commune as far as developed, is fully up to the standard of the God-defying Jacobins of 1793. Some days ago a chief of the commune spoke of the priests and nuns imprisoned as suspicious parties "worshipping a person they call God," and now it appears that the Jas cobin Rochefort, in justification of the robbery by the commune of the Paris churches. says of the goods of the churches: "We do not hesitate to declare them national property, for the single reason that they proceed from the generosity of those to whom the church has promised a Paradise, and the promise of imaginary returns made to obtain any property, is qualified as swindling by every code; and furthermore, he says our eternal belief is that Jesus Christ having been born in a stable, the only treasure that Notre Dame ought to possess is a bundle of straw." If these infamous wretches of the commune had not yet set up the worship of a prostitute as the "Goddess of Reason, is because M.
