THE people of Nebraska recently voted on the adoption or rejection of a new constitument were sustained by the popular verdict, that clause in it providing for female suffrage met with the indignant wrath of the voters, and was overwhelmingly defeated. If this superlative humbug were submitted to a vote in each of the States of the Union, righteous verdict. The occupation of Victoria C. Evans and Geary. Nothing has ever occurred in the history

of any former State administration which shows such bare-faced and premeditated fraud as the embezz!ement of George O. Evans. Geary's conduct in the whole history of the case, as well as that of Hartranft. the Auditor General, has been such as to justify and give color to the gravest suspicions of their own integrity. When Evans came to Harrisburg and proclaimed that he was prepared to make a full and complete fectly well that he was a defaulter to a large amount-that he had utterly failed to discharge the trust reposed in him-that he had swindled the common wealth, or, in plain the Governor and his advisers not then take the necessary steps for his immediate arrest and why was he permitted to remain at the capital a week or ten days, and then, like the Arab, fold up his tent and silently steal away? It was a most strange and suspi cious circumstance-it was conduct unusual. totally inexplicable, and the people who have been thus openly robbed and plundered will never believe anything else than that his escape from Harrisburg was connived at by those in authority, for a purpose well known and understood by them. This conclusion is strengthened and enforced from the fact that no bona fide, serious effort has to the bar of justice. No man who is familiar with the facts in the case will pretend that Evans could not have been arrested in New York, whither he went after parting with his kind and accommodating friends, John W. Geary and John F. Hartranft .-He made no effort at concealment, but took after day publicly announced his whereabouts. After Geary had given him ample time to make the necessary arrangements for proven himself to be a knave if he had not

Mr. Rose represented us at Harrisburg last winter, and we need not state, what is admitted by the candid of all parties, that he represented us honestly and efficiently. His speeches and his votes contributed to save the people from millions of taxation by aiding to prevent the passage of swindling acts and all manner of corrupt legislation.

Some days ago the newspapers published a thrilling account of the subsidence of an entire county in Florida. Houses, lands, trees, horses, cattle sank to rise no more, while the inhabitants fled from the appalling scene believing that the Last Day had come. Whether this subsidence was confined to the political and geographical limits of one county the writer neglected to say. A similar phenomenon will take place in portions of Pennsylvania on the second Tuesday of October. Whole counties will go down for the Cameron ring to rise no more, carrying candidates, ringleaders and all to the bottom. The Syracuse Journal, Sept. 18th., says: "A young man named William O'Reilly aged twenty-one years, son of Thomas O'-Reilly, residing at No. 33 East Onendage street, had a narrow escape from death by failing on Sunday afternoon. O'Reilly, in company with several others, were at the new Centra Baptist church, the steeple of which is in course of erection. O'Reilly who is a tinsmith by trade, has experienced some trouble in working on high buildings. My stock consists in part of every virid; and thought to cure his timidity by ascend ing the steeple. He succeeded in climbing up the ladders to the uppermost scaffold, and after remaining there a short time commenced

After descending part way he stopped on one of the lower scaffolds, and then went up again. His friends remonstrated with him to come down. This he finally attempted to do, by means of a rope inside the steeple, and used in hoisting materials. After descending a short distance he became confused, and either let go his hold or the rope slipped through his hands, and he fell. After thus failing a short distance he struck on a board placed across the steeple, which broke, and he fell to the ground, striking on a coil of rope. The distance which he fell is between fifty and sixty feet, and it is a miracle that he was not instantly killed.

He was taken up by his friends, who sup posed him dead, being insensible, and caried him to the residence of his father. We are informed that some of old Jacob's friends telegraphed to Wilming ton for his daughter to come down and at tend to her father's burial, when a return dispatch informed them that she was also tronage I have already received, and lead, and that her remains were about to be endeavor to please all who may call, whellsent to Dover. The daughter owned some er they buy or not property in Wilmington, which she devised o her father. He owned some property here, which he left to his daughter.

ANGEL, THIEF, OR DEVIL .- A new thieving dodge is out, as practised on railroads with success by females who enter cars, and, finding a gentleman sitting alone, ask if the other seat is occupied. The gentleman Near Pa. R. R. Depot, Johnstown, Pa at once motions her to be seated, when she politely asks him if he won't allow her to sit by the window. Of course this request is also granted, and she becomes seated .-Presently she finds that there is not air enough in the car, and requests the gentleman to raise the window. He at once rises to do so, and as he leans over her she picks his pocket or removes his watch, which she passes to a male confederate in the next seat behind her. There are three kinds of woman, and this is number two.

-The fences of the United States cost more than the houses, cities included; more than the ships, vessels and boats of every description which sail on the ocean, lake and rivers; more than our manufactories, with PROVISIONS and FEED, ALL KINDS all their machinery, and more than any one class of property, real estate excepted .-Those of New York are put down at \$144,-000.000; those of Ohio at \$115,000,000, and Pennsylvania at \$190,000,000. At this rate the money invested in fences alone is more than equal to the national debt. As fences require to be renewed, on an average, once in ten years, the annual cost to the country is not far short of \$200,000,000.
