HON. JAMES P. BARR has been appointed the member of the National Democratic Committee from Pennsylvania, to fill the vacancy caused by the death of Hon. Isaac Heister, of Lancaster. The appointment was made by Hon. W. A. Wallace, Chairwith the wishes of the members thereof.

Fon several days we have missed from our table that always sprightly and ever welcome visitor, the New York San. It is a grievous loss and can only be remedied, since it is the boast of its editor that "the Sun shines for all," by its political rays sgain penetrating and enlivening our now indeed dreary sanctum. The New York Sun is one of the institutions of the age. Always lively, entertaining and fearless in its discussion of the issues of the day, its sudden taking off. so far as the Freeman is concerned, is a calamity not lightly to be borne. Will not the Sun permit its light to shine upon us once more ? Don't say nay, Mr. Dana !

The LEGISLATURE met on Tuesday last. In the House William Elliot, radical, of Philadelphia, was elected Speaker and Gan. Sulfridge, radical, Clerk. A dead lock exists in the Senate--six ballots for Speaker on Wednesday, resulting each time in a tie vote. The Speaker of the Senate, Mr. Brodhead, before vacating his seat on Tuesday, issued his writ for the election of a Senator in the the great mass of the people appear to be to vacant Philadelphia district, on Tuesday the 80th day of the present month.

P. S. Since the above was written, the Senate has been organized by the election of James S. Rutan, radical, as Speaker. By what manner of compromise this result was brought about, we have not learned. The are eminently sound and will command uni- troughs, and several statues and tablets to message of Governor Geary, a very lengthy versal appproval : and very prosy document, will be noticed in detail in our next issue.

His latest military exploit is an unwarranted intervention by United States troops in the civil affairs of Illinois, Some time after the great five in Chicago, a few timid and indiscreet citizens of that place,

conjuring up before their heated imaginations riots, plundering and all manner of lawlessness, called upon the administration at Washington to station four companies of United Status soldiers at or near the city until it should appear that no danger of riotous propromptly complied with.
