JOHNSTOWN, Jan. 20th, 1872. DEAR SIR-If brainless, wild and ungr DEAR SIR-II brainless, wild and ungrounatical assertions could pass for sound, clear and truthful argument, then indeed has Mr. J. "Neither mie nor 'any other mina' ever heard." Here we have an ex-Ce. Superintendent and once co-editor of the "Teachers' Advocate" these the man but the "Teachers' Advocate" these the man but the statement. cate" (bless the mark husing the objective for the mominative case. Ain trhat "glaring gram-mar"? O. tempers! D. mores! He admits now that "praste" is not in the ori-ginal, but inhers hard to bolster up a very lame and illogical excuse for calling it so. Had he read the poem according to the book he held in his hard and left. his hand, and lifts which he looked to often, then he could not have been criticized so far as the "brogue" was concarned; but no, he should raise a laugh and have some fun by putting

words into an Irishman's mouth which no Irishman was ever known to utter.

He accepts my challenge to produce an Irishman who pronounces "priest" practe, "street" stode, etc., and produces none other than myself. Of this I am glad, as I can prove from it that J. F. C. is a will'ul, deliberate falsiner of facts, or cless a realless in his constitution. that J. F. C. is a walful, deliberate falsifier of facts, or cise so reckless in his assertions that he cannot distinguish truth from falsehood. He says that "Mr. P. M. called upon a legal gentleman in Johnstown saying that he would like to sell him the 'Lafe of Chafe Justice Taney.'" I have too high an opinion of the many learned legal gentlemen of this city to believe that any one of them said that he, or they, ever heard me say "chafe"; so I am forced to the conclusion that this silly falsehood found birth in the dull brain of J. Frank Condon. Any one that ever heard me speak a dozen words can testify that I am as accurate in my pronunciation as that I am as accurate in my pronunciation as the general run of men, no matter what their nationality. I would not be the least in dread to challenge J. F. C. any day to a spelling, gram-mar or pronouncing contest. This, however, would probably be a mighty poor test of my information.

He asks me how I could recite "Shamus O'-Brien" without the "brogue," and quotes several lines as a test, of which I will take two as

"An' his dancin' was sich that the meh used to stare. value as a literary, political and general news lowered, and in connection therewith have urged there."

An' begorn the whole world gev it into him there."

New here it is, minus the "brogue": "And his dancing was such that the men used to stare. And by gur the whole world gave it into him there."

What a change has come over him since he beastingly Bourisled in the assertion that Samuel Lover was the author of "Shamus O'Brien"!
Now he quibbles, higgles, and wriggles, and hegs the information by asking if I know of my own knowledge was be fanu the author of "Shamus O'Brien"—that the authorship is in doubt—that "some say it is Lover"—that he is "not sure but Le English the surpor"—that I and its citizens.

Such men should go to full a score of times;

This court should rob them, too, of heavy lines;

And thus protect their children and their wives, and, if 'tis necessary, even take their lives! No more to others than to me and you.

And you have sinned, no doubt, a dozon times;
But you need not present pourselves, or us,
But only other folks who drink and make a muss! There may be other cases, such as fraud, Winking the eye, taking a chew, wearing a beard,— But each wrong has its remedy-the law is broad—
