A LEGEND.

# Cambria Freeman. MATURDAY, : : : MARCH 2, 1872.

## LOCAL AND PERSONAL.

-Court begins next Monday. 'I hose who owe us will please make a rote of this fact. -The delegates to the Republican State Convention, from Clearlield county, are instructed to support Hon. Frank Jordon for Governor.

-The Herald reports the scarlet fever as raging fearfully in some of the townships south is, and that five children in one family have died of the disease.

well known chizen of Huntingdon, was run for the other officers. over by a freight train and so badly injured that he died the same evening.

-February went out with a slight show storm but March came in lamb like enough. There will probably be some lich. (or lying.) however, shout the present month before it ends.

-Mr. Nicholas Altimus, of Brushvalley township, Indiana county, was thrown from a horse on Friday last, and sustained injuries which caused his death early the following morning

-One day last week. Jacob Miller, of Unity township, Westmoreland county, was injured o such an extent by a limb falling on him while felling a tree, that it will most probably enuse his death.

- Mr. Peter Campbell, of Carrolitown, has had his patent car-coupler attached at his own expense to the passenger train on our Branch road, and Conductor Quartz assures us that it works to a charm.

-Subscribers who are in arrears or who desire to ray for the present volume of the Fase MAS will prove themselves "penny wise and pound foolish" if they don't "sock up" within the next two weeks.

-The Bedford Gazatte says: We noticed a horse, on the street the other day, having a Jurge and full grown moustache on his upper the lair was about an inch long, an it ch in thickness, and running across the entire lip. - Under the cry of "stop thiel !" directed

spainst our county officials, the last Johnstown Tribune runs up the name of Ulysses S. Grant for President. Which may be set down us a clear case of preaching vs. practice-under difficulties

-Shakspeare savs : "Thrice is he armed who hath his quarrel just." The Herald man says he is going to buy four revolvers, two towe knives and a slong shot. Therefore it can't be he is chap Shakspeare had in his mind's ey's.

-John McGirty and Christian Hartman were both found guilty of murder in the second cegree, last week, in Bedtord. The former was sentenced to five years and six months', and the latter two years and six months' imprisonment in the penitentiary.

- Mr. Jacob Erb of Richland township, forterly of Burks county, says the Johstown I enterat, las a cew 13 years old; which has had 15 calves, 4 times twins, all alive and good cics. This beats any thing yet heard from, and is a democratic cow. So says Mr. Erb.

-- The District Court authorit.es have lessed Union Hall Johnstown, for ten years, at a yearly rental of \$500, and friend and foe are alike disgusted and obtraged by their action. It is none of our funeral specially, but we hope the county commissioners will repudiate the coutract and refuse to nay the bill.

-On Monday, March 18th, a normal school for the instruction of students in the theory of teaching, and in all the various branches of ed. rantion, will be opened by Prof. Geo. Marsden, and all expecially who desire to fit themselves ; for the education of others should avail themselves of the opperturity thus afforded. -The Hen h save" Michael Coming! am bad the mistor une of having one of his index finpres rut off by the machinery of an engine cute weeks past while at work near Chest Springs." Some weeks past is a considerable length of period" for the machinery of an engive to be operating on one index finger. - Dr. Walter Bell and A. J. Reilly, Esq., two of Alteona's most intelligent, respected and successful citizens, interviewed us briefly this week-the former on Monday and the latter on Friday. It elevates out bump of self esteem very perceptibly to have such worthy gentlemen look in up on us occasionally. -At the Presbyterian church on next Wed nesday evening the pupils of the Presbyterian Sabbath school, aided by the choir of that I church, design giving a grand vocal and instruneural corvert in aid of the Sabbath school Brary. The entertainment will no doubt be missible, and the cause is worthy of a liberal paircrage. Let them have a full house -All lovers of the beautiful who read our paper connot feil to be pleased with the exquisite (rightal poem, entitled "A Legend," which we jublish on this page. The author has not doulged to us his name, and even his postmark is (perhaps purposely) obscured, yet we could not resist the temptation to publish his several productions thus far, and trust they ill continue to come weekly, even though the author should still continue to "go behind -' well never mind. - The entire stock of ready made clothing contained in the store of Mr. Jacob Pircher, Hollidaysburg, will positively be sold at whole sale city prices, to close business, from and atter this date. The stock, which was selected by Mr Pitcher, who is a practical tailor, may be depended on as perfect in styles, make and textures, and comprises all manner and quality of men's and boys' wearing apparel. ## Local Correspondence. JOHNSTOWN, Feb. 28, 1872.

DEAR FREEMAN-Every year for ten years we have insisted upon having trees planted on the Public Square in Johnstown If they had been planted ten years ago, we would now have thriving trees which would soon be cov ered with a profusion of verdant leaves and fragrant blossoms. But the Square is as bare as the street yet. When will the council move in the matter. If they would permit it, the

citizens themselves would plant the trees. AS YOU WERE. All the old officers of our borough were re elected by the councils, except two. A. Kopelin, Esq., was elected legal counsellor for the bordugh, in place of J. P. Linton, Esq, and -On Wednesday last, James Bricker, a W. Bowman. There was some sharp balloting

pardoned out. It ought to be. TWO BEASONS.

There are two strong reasons why human beings should not drink strong drinks. The first is that man was so created as to derive heat from the continual struggle between the car bon in the food he cats and the oxygen in the air he breathes. He needs no other stimulent. Ladies can live without artificial stimulents. Why cannot men? The second reason is that Why cannot men? The second reason is that tainly wrong to drink the peisoned drinks that are now sold everywhere It is not necessary to inquire who poisons these drinks-whether it is the manufacturer, the wholesale dealer, or the retail gill vendor. It is enough to know that every drink one buys has more or less poison in it, and some has enough in it to kill, and some of it nots kill. If a person stops at

a hotel and asks for something to eat, he would expect that the victuals he pays for would not be poisoned. Why, then, should the public submit to poisoned drinks? There should be CHIMICAL inspectors appointed to analyze samples of all the liquor that is offered for sale, and those who sell poisoned drinks should forfeit their licenses. If this were done this thing of making three barrels out of one would cease.

WHAT IT COSIS. Johnstown is a fast town. We have had three balls, fifteen nights at the Opera House,

eight nights at Union Hall, Lutheran and Presbyterian tableaux, a Catholic fair, and three other nights now advertised-all in about one month. The drain upon the pocket-book is immense."

A MAN KILTED.

An aged German named Rauch, about 70 rears old, was killed at the railroad station in this place on Saturday morning last as he was attempting to cross the track on his way to work in the Company's coke vard. A freight train was standing on one track, the ergine of which was blowing off steam, making a noise that drowned the sound of the Southern Express, at the time approaching, which struck him just as he stepped on the track, inflicting injuries which produced death very shortly after being conveyed to his home in Kernville. HAND INJURFD.

A young man named Bretzler placed a block of wood under the steam hammer at the steel vail mill, on Friday evening last, but failed to withdraw his hand in time to escape the descending hammer, and he now deplotes the loss of two or three fingers and a thumb, they hav ing been crushed so terribly that amputation became necessary.

street is almost finished. The Sunday school rooms are completed and present a very neat ing to make sale of Bonds. Ac. appearance. The chapel will be ditto in May. A B G STR KE. I have a friend in Arizona who has struck for higher wages. He had an in'erest in a gold mine there during the war, but the Indiars drove the hands off. He went back last sum-drove the hands off. He went back last sum-drove the hands off. He went back last summer, and for the last four months he has been taking out rock that contains \$510 per ton, and they take out five tons a day. This is making of the District Court than the law allows him, good wages. He is a brother in law, and I have a son out in the same diggings. All will bave a see out in the same diggings. All will be right in a few months if the Indians don't in glass houses should not throw stones." And while you may an action bring Built will dismiss the case, in the come again. Frank writes "I see a small forune Belofe me."

### COMMUNICATION. [Written for the Cambria Freeman.]

FEBRUARY 29, 1872. Editor of Cambria Freeman-Will you be kind enough to give me space in your columns to do some justice to certain of our county officials who, I think, have been undeservedly abused? Since the Auditors of Cambria county have made their report of the Receipts and Expend-

made their report of the Receipts and Expends-itures of the county for the year 1571, the Johns-town Tribune and the Ebensburg Herald have been, week after week, holding up to the view of taxpayers what they are pleased to term the enormous frauds and robberies committed by the officials entrusted with the financial affairs of the enormous The Topher commuted the enormous of the county. The *Tribure* compares the sum paid to Commissioners in Bedford county with the gigatite (?) anount paid to the Commission-ers of this county, for services rendered, and makes quite a noise about the difference. The writer of this has not seen the report of the bordugh, in place of J. P. Linton, Esq, and John Fisher was elected Clerk in place of Jno. W. Bowman. There was some sharp balloting for the other officers. TEN YEARS. The Union Hall has been sentenced ten years to the perimerce-chary by the judges of the District Court. It is thought in will be

the District Court. It is thought it will be seen that the "frauds and robberies" in other counties, if there were any such anywhere, far exceed those alleged by them to have been co mitted, in Cambria county. Still, as the said editors have drawn a comparison with Bedford county in regard to the amounts paid to the re-spective Boards of Commissioners, I will take the liberty of extending comparisons a little -

further. All the amounts given below have been carefully compiled from the reports made by the Auditors of the several counties named :

in Dycoming county	and a second

ompared with Cambria, in each one of five of them the with Cambria, in each one of live of them the amount paid to Commissioners, their Clerk and Counsel far exceeds the amount paid to like officials in Cambria; in two of them only was the amount smaller. Average the seven coun-ties, and the amount for each will be \$3,636,49-exceeding that of Cambria, for which the Trib-exceeding that of Cambria, for which the Trib-une and the raid lament so much the same af une and Heraid lament so much, the sum of \$786. And in Venango county, governed too by honest Republicans, the fees for counsel is not included in the amount mentioned above-neither is counsel fees included in the amount for Dauphin, another Republican county, where

f course nothing wrong could be done. The Tribune wants light on a certain item called Miscellancous-about 490-which the ed-itor thinks must have been puld for "Toothpicks and Tom and Jerry." But would not the Trilonic like to have light sufficient to enable him to see on what the small "Miscellaneous,"

amounting to \$2,122.06, was expended in Indi-ana county? It could not have been on "Tom and Jerry, as the Republicans are all temper-ate, notwithstanding one of them, while a can-didate for the Legislature, got, it is said, five gallons of that "Hite whisky," about which so much noise has been made, and another Re-

publican, now a co-worker, I am told, on the Tritmuc, drank more than double that quantity of the said "Hite whisky." Light was also wanted so as to know who got the 204 dollars the error mentioned in the Auditor's report. Well, it is easily explained thus : The Auditors by mistake charged the Treasurer with money received from Collectors-\$29 more than he ad received-therefore the Treasurer was the Well, would any hor oser to that amount. The Tribune made a noise about the Military

fund, asking if "war or insurrection existed in the north of Cambria county," that so much money was needed? On making inquiry, the writer has discovered, that Johnstown must be the place where the "war or insurrection" had its existence, as over \$1,000 of the military fund went to parties in that place. As regards the office time made by the Commissioners last year, writer knows nothing; but this much he

does know : Last year was the irlennial for as-sessments, and it is well known that the Commissioners revised them and altered every fig-Dist. Alt'y-Then may it please your honor, but
