LETTER FROM JOHNSTOWS. JOHNSTOWN, March 29, 1872. DEAR FREEMAN-There was a meeting at Mr. Elder's office on Monday at 20'clock P. M. to appoint engineers for the survey of the Johnstown and Somerset railroad. I do not

know the result of the deliberations. There are now six railroads projected to connect the Connelsville railroad with the Penna. R. R. The first connects Brintons station with Port Perry, about nine miles this side of Pittsburgh. The second commences at Greensburg and runs southward, crossing the Coupelsville R. R. and terminating at Charles ton, West Virginia The third commences at Latrobe, runs to Ligouier, Jones' Mills Springfield, and down Indian creek to the Connelsville road The fourth commences at Johnstown and runs through Davidsville, Stoystown and Somerset. This is the best route of the siz. The fifth route commences at Hollidays. burg and passes through Martinsburg, Wood

bury. Pattonsville and Hopewell, joining the Huntingdon and Redford road. The sixth is the Broad Top R R running from Huntingdon to Bloody Run. Bedford and Bridgeport. Thus

will be opened up all the coal and iron and timber interests of the entire country in West ern Pennsylvania James J. Murphy has just returned from the

east with a solendid assortment of new madeup clothing for spring wear, including hats, caps and gent's furnishing goods. Boxes crowd the highway opposite 109 Clinton street.

We called in Adams' Express office the other day, but vamoosed suddenly opon reading the following "notis," printed upon the inside of a paper box lid: "Took Notis .- Mebbe you don't better leaf around 'ere when you don't

Mr. Akers will soon have any amount of fine flowers and trees for sale at the butcher shop of Akers & Baumer. The best and tre-hest flowers and trees of the season can be had there, one door from the post office.

The steel mill is to be enlarged. We do not think, however, that this has anything to do with Goy Geary's or President Grant's STRAL mill, because our steel mill people are all hon est and make their living by the sweat of their brows

Our District Court will convene next Monday, and will probably last all week, as there is considerable business before it.

The accidental spilling of a little cold water on some heated tallow caused an explosion on a small scale at the steel works, on Thursday last, and the hot grease flying into the face and ever the hands of a young man named Davis, burned him very severely-so had in Geed that it is leared he will lose the sight of both eves.

Two young men claiming to be residents of Altoona whiked into an eating saloen on Washington street, ou Friday last, and finding no one present they helped themselves to the

contents of the money drawer, some four or five dollars, and then made their exit. The theft was soon discovered, however, and making clase, the proprietor of the salbou ere long overtook and croured one of the thieves, whom he committed to the lock up; but on Saturday morning the young man "dug out" of that institution and thus far has managed

to myke himself scarce. Excavating for the foundation of the new market house and jail will be commenced next week. All the some is on the ground and the our Connty Court : contractor, Mr. Wm. Callan, will no doubt push

THE CAPTIVE ENIGHT. Editor Freeman-In my last I briefly aligned to the rainous, crippling influence of the Pass-Book System. I will now endeavor to show the glaring wrong perpetrated on this community by its continuance. The moment a man goes to work for this Company he is expected to call for his pass book and take it home to his family. For two months he must labor hard before he can hope or expect to restore the call before he can hope or expect You may tell her I fell in a foreign land

which she could and would do without it she had to pay ready cash for it. This proves the pass-book system to be a temptation. If she wishes to go to the Union Hall (not the Opera House) to see some swindling play-actor, she can get an admission ticket and fifty cents cash is [entered on her pass-book. She can buy a fancy comb or tooth brush, powder, paint and AN OLD EXCITEMENT REVIVED .- About thirty-five years ago a great excitement prevailed in the upper end of Buffalo Valley and the lowhair oil, and because she can get them charged the pass-book she thinks they are cheap and cr end of Penn's Valley, caused by the finding of a dead horse in the Narrows between Motz's hotel and Roush's hotel, near the saw mill pond. that she cannot really do without them. Or if she has a hankering after an oyster stew while Many of our readers no doult recoilect the re-peated searches made to find as they supposed a murdered man, and when the water was let r husband is on the "night-turn," or at any ther time, she can gratify her appetite by sim-dv taking with her the all-getting pass-book. She can likewise get her meat, sausage, cab-bage, etc., from Wood, Morrell & Co., and have it all charged on the inevitable pass-book. It out of the mill pond tracks were discovered in the mud, but no body was found. The excite-ment throughout Centre and Union counties It is now reported that a man died in Illinois is even rumored that they are going to start a

milk wagon and hawk the factcal fluid all over town. They may as well do it, for they have everything else from a needle to an anchor or a pig's ring to a live bullock. Now if the Pa. lately who confessed to the murder, and impli-cated four other parties. He states that the that they killed was a drover from Berks coun-ty and had a large sum of mon y. They killed him and his horse and buried the man under the horse, but when the excitement broke out they became alarmed and dug it up and put it R. Co. should establish mammoth stores in iladelphia, Harrisburg, Altoona and Pitts burgh, or at any of those places, on the same sweeping scale, what a howl of indignation would be raised against Thomson, Scott & Co. the mill pend. During one of the search if was agreed in the evening one of the searches out of the pond the next morning. That night the murderers let off the water and took the dead body away up on the site of the Sugar Valley mountain and buried it, and the next for monopolizing a legitimate traffic which of right belongs to others. And yet this is exact-ly what the Cambria Iron Company are doing and have been doing for many years past. Persons outside of this locality may be led

astray by supposing that the Hon. D. J. Morrell is the prime mover in this monstrous monopoorning were among the first on the ground to off the water and assist again in the search. Although but a small boy at the time we re

y. The contrary is the fact, for we have it on rood authority that Mr. Morrell and one or two other leading men in the Company are opposed dlect the facts of the excitement and searches to the system. But against these honorable gentlemen are arrayed a dozen life-sucking leeches who would crush out all fair and legitivery distinctly, and when our parents removed from Lyconing to this county, soon after, while passing through the Narrows, we looked mate competition in order the more effectually to enrich themselves. We look, then, to Mr. Morrell to remedy this crying evil, now that the before and behind at every curve in the road to see a murderer or a dead horse. And so great was the excitement at Motz's hotel, where we almost united voice of our people has been raised against if, for we are satisfied that he at least would not willingly defraud the laborer emained over night, that no one seemed to alk about anything else but the nurder. We will be able in a short time to give our readers something more definite about the matter. Because, if a nam has, on his death bed in the west, related these facts, the manes of any part of his wages or make bankrupts of our merchants. One need only look about him see duliness in our stores and despondence aarked on the faces of our business men. And et while our town is thus advancing backward, of the parties will not be concealed much longer. If there were five persons engaged in the murder it will open a wide field for conjecture the Company's mammoth store, like a mighty magistroin, is attracting towards it the hun-dreds of working men and gobbling up their and investigation .- Clearfield Republican

he work right along with his usual energy well known ability.

A broken rail was the cause of throwing three palace cars over an embankment, twenty feet downwards, on last Friday forenoon, nine miles west of Johnstown, killing a woman, from Chicago, and a nisu from Baltimore, be sides injuring more or less some fitteen others. C. T. Frazer, druggist, has prepared for this wonderfully changeable season by laving in all kinds of patent medicines drugs and other medical preparations, so that no one can say

that he has no remedy in reach for his cough or cold, his headache or rheumatism. The way to do the thing up right is to go to Frazer and get the medicines; then take it and get ROB ROY. cuied.

LESS THAN SEVENTY YEARS AGO.

DEAR FREEMAN-Two weeks ago we told your readers something about "seventy years ago," and spoke of fox-hunts, kicking frolics. We will now describe the for hunt: A number of men would get up a meeting in the fall or early spring, appoint a marshal and deputies, and instruct them to define boundaries for a fox hunt. These officers would first se lect a point at which all the parties in the hunt would meet, say some avern, or still house, or other public place. They would then reckon ten miles in every direction from that centre, making a diameter of twenty miles, and a cir cle of more than sixty miles The marshal

and his aids would then ride round that circuit and tie wisps of straw to trees, fences and other places, thus indicating the starting point for all the neighbors. Closing lines were also indicated by straw bandages on fences, trees, etc. A day was appointed, and at 10 o'clock on said day the neighborhood would all repair to the outer line with tin horns, drums and everything else that would make a noi-e. At a signal given by the marshal, at some point a horn

was blown, which was immediately sounded round the entire circuit in a lew minutes, when the most hidrous notes, blowing and making the most hidrous notes, imaginable No re-spect was paid for tences or grain notes, but Adams Twp.—Israel Goughnour. Blasklick Twp.—Henry Campbell. Clearfield Twp.—Bawara Bark, Clear every one pushed forward for the centre, up hill, down hill, through fields and through streams, till all, some thousands in number.

would reach the inner line. At a signal the dogs would be let loose on the loxes, which at some hunts would number from six to twenty. After despatching the game, resort was had to whiskey, then to fighting, wrestling, jumping, etc., till the close of day, and often till late in the night. Sometimes deer were captured

within the euclosures intended only for foxes. but this did not often occur. The reign of fox hunts in Westmoreloud county was from 1520 to 1840 Another occasion for the assembling of the

people in large crowds was review day, under the old miliua system In my locality at that time review day was about the second or third Monday in May each year. The people from quite a number of townships would assemble at one place to be reviewed, inspected and enrolled. Sutler wagons, with whisky, cordial. heer, cider, ginger brend, etc., could be found in every public corner, and the number of fights would be very great. All disputes were settled, at the for hunt, or the review, as law suits are settled at court. There was no appeal from the result of a fight

I promised to tell you something of a "kicking frolic." Well, imagine a crowd of stout roung boys and girls gathered at a neighbor's house. The girls would heat water, clear the floor and but down thirty or forty yards of woolen blan kets or flundel in a heap. This would be well saturated with soap suds made quite hot.

Chairs were placed round and tied together by ropes, so that they could not move. A nummonths or more ; so now while wild winds are ber of young bors would then strip their feet losing, and we hope it's done snowing, is the bare, and get on the chairs, all around the me to be going to Huntley's mammoth cheap flannel, and kick just as hard and as long as their muscles could stand it The suds would fly all around, and often some poor, discomfit-'s feeding, you will find all you want and ed wight would be seen sprawling on the floor or on top of the cloth that the rest were kick-

cars of the Southern Express west were thrown ment, though the boys generally did the kickrom the track at Conemaugh Furnace, a small ing. Such were some of the pastimes of less Ros Roy.
