LOCAL AND PERSONAL. HOW ABOUT THIS?-We have fully made up our mind that the FREEMAN shall have an entire new outfit of type within the next two months, if it should take "the last men and the last dollar" to accomplish the purp se, and we earnestly hope that all persons schied to us in any war will make prompt parment within a month or six weeks. Besides that, we should by all means have a power press, and as we do not expect to secure the neces-ary funds in the regular way, although there is nearly enough due us, we have concluded to solicit the aid of patriotic Democrats everywhere. It seems to us that there are two Squared earnest friends of the FREEMAN who and be willing to advance five Gollars each o sid n the purchase of a power press, and take their pay in subscription, etc. At least we are open to proposals of that kind, and hope to receive favorable responses without

CHUECH DIDICATION -- By special invitation of our kinsman, Rev. P. M. Ward, pastor in charge, we attended the dedication, on Sunday last, of St. Stephen's (Catholic) church, Hazelwood, near Pittsburgh-by for the most elegant, though not the largest, religious ed fice t has ever been our province to enter. The edicatory services were of course conducted by Rt. Rev. M. Domence, Bishop of the diocese, assisted by a number of prests, who, with the students of St. Michael's Seminary, close at hand, made up the procession which passed around the church out-ide and inside, chanting the "Miscrere" in grand style as they went, the Bishop blessing the walls of the beautiful structure. The dedicatory sermon was pre-ched by Rev. S ephen Wall, President of the Seminary, whose elequence and learning are proverbial, and was as it could not fail to be, a masterly and pleasing off t. The students of the Sen inary sang the Mass, and also chanted the Vespers in the even up, acquirting themselves on both occ. s ons with t'e greate-t credit. In the evening, the Bishop delivered a most instructive and elequent lecture-one of the best we have ever hatened to from his lips. The church is a perfect gem, and is well worth a good round trip to see. It is a fitting monument to the zeal and energy of its worthy paster, and a triumph of architectural skill of which its projectors and pations may weil feel

A HIGH COMPLEMENT. - It is not at all surprising that certain cracker manufacturers should find it to their advantage to imitate Messrs, Marvin & Co. as closely as possible. This is certainly the highest compliment they could pay this firm, and if their efforts were confined to 5 naking as good, or if possible better, articles in their line of business, this competition would be legitimate and honorable. But we regret to learn that this imitation consists in copying the shape and styles of Marvin & Co.'s boxes and other packages; in imitating the brands, labels, lettering and marking; adopting even the color of the inks employed; and in short approximating as nearly to Marvin & Co.'s trade-marks as it is possible to do without direct infraction of the law. By these disingenious methods, purchasers have been deceived into buying an in-ferior article of cracker, cake, or biscuit, under the impression that they were obtaining Marvin & Co.'s; and the latter firm has be justly charged with manufactures that were not up to their standard. To avoid this danger let purchasers, in orders to their grocers, be sure to specify Marvin & Co.'s various crackers; also, to note carefully the marking of the pack-ages. or, if convenient, make their purchases at the Bakery, Nos. 91 and 93 Liberty Street, Pittsburgh.-Presbyterian Banner.

WHY 15 THIS THUS? - If there are any persons who know more than others about the merits of different sewing machines, it is the men who sell them.

During the past three weeks more than forty of the most skillful and intelligent sewing ma-chine agents, who have, heretofore, represent-ed such companies as Wheeler & Wilsor, Howe, Grover & Baker, Weed, Singer & Co., have vol-untarily quit them, and have taken the agency of the "Light Running Domestic," because it is the easiest machine to sell, the easiest to lear the simplest in construction, the most durable, and the latest improved in every respect.
