P. H. Director-JOHN BLOCH, Johnstown.
Auditor-PETER DOUGHERTY, Summitville

A JOINT RESOLUTION has passed Congress fixing the time for final adjournment on next Monday.

A DISPATCH from Washington to the Philadelphia Inquirer, states that on Wednesday last Grant visited the capitol and made a personal effort in favor of the passage of the Ku-klux bill. His mission ended in disastrous failure. No former President ever stooped so low in order that he might conquer. It was a disgraceful repetition of his lobbying appeals in favor of the infamous San Domingo job.

of next March to suspend the writ of habeas subservient Senate, an effort was made in that body. It met with a swift and thrice under a very great delusion : deserved defeat, twenty-two Republicans vot ing with all the Democratic members against so dangerous and monstrous an assault upon civil liberty. It is to be hoped that this pet project of the administration has now been consigned to a legislative grave from which it will know no resurrection.

On next Wednesday Grant's office-holders the Presidency. If there was any other available candidate in the Republican party, Grant would not be seriously thought of, and radi cal politicians and office-holders, unlike sunflowers, would not now, "turn to their god the last and only hope of radicalism in its present desperate condition.

We regard the nomination of the gentleman who heads the tieket as the candidate for Assembly, John Hannan, of Johnstown, as being eminently fit to have been made. He is both competent and honest-has always been an active and efficient member of his party-and possesses a reputation for integrity without spot or blemish. No man who is not either a knave or a fool, or both, will assert that his nomination was procured through the corrupt and scheming influence of a political "Ring." It was as unbought and as generously given as it was well deserved.

The entire ticket is unobjectionable and composed of good and true men, and hence the Democracy of the county must show a solid front in its support and by their undivided strength carry it to an assured victory. That they can do it is admitted-that they will do it, we cannot for a moment permit ourselves to doubt.

NEW YORK, May 20, 1872. GENTLEMEN: I have chosen not to acknowledge your letter of the 3d inst. until I could learn how the work of your Convention was received in all parts of our great country, and udge whether that work was approved and stified by the mass of our fellow citizens. Their response has from day to day reached me through telegrams, letters, and the comments of journaliets independent of official natronage and indifferent to the smiles or frowns of power. The number and character of these unconstrained, unpurchased, unsolicitwhich found expression at Cincinnati has received the stamp of public approval, and been hailed by a majority of our countrymen as the harbinger of a better day for the Repub-

I do not misinterpret this approval as espe cially complimentary to myself, nor even to the chivalrous and justly esteemed gentleman with whose name I thank your Convention for associating mine. I receive and welcome it as remarks made by you in the United States Senate on Friday, the 17th inst., in which you mirable platform of principles, wherein your mirable platform of principles, wherein your Convention so tersely, so lucidly, so forcibly, set forth the convictions which impelled and the purposes which guided its course-a platform which, casting behind it the wreck and rubbish of worn-out contentions and by-gone feuds, embodies in fit and few words the needs stand ready to condemn your every act, hardly he knew upon the subject," and you affect to a syllable of criticism or cavil has been aimed be fairly epitomized as follows : I All the political rights and franchises

which have been acquired through our late bloody convulsion must and shall be guaranteed, maintained, enjoyed, respected, evermore II. All the political rights and franchises which have been lost through that convulsion should and must be promptly restored and reestablished, so that there shall be henceforth no proscribed class and no disfranchised caste within the limits of our Union, whose long estranged people shall reunite and fraternize ipon the broad basis of universal amnesty with mpartial suffrage.

III. That, subject to our solemn constitutional obligation to maintain the equal rights of all cit zens, our policy should aim at local sel'-government, and not at centralization : that the civil authority should be supreme over the military; that the writ of HABRAS CORPUS should be jealously upheld as the sateguard of personal treedom; that the individual citizen should criov the largest liberty consistent with public order; and that there shal be no Federal subversion of the internal polity of the several States and municipalities, but that each shall be left free to enforce the rights and promote the well-being of its inhabitants by such means as the judgment of its own people shall prescribe.

IV. There shall be a real, and not merely a simulated reform in the civil service of the Resublic ; to which end it is indispensable that the chief dispenser of its vast official patronage shall be shielded from the main temptation to use his power selfishly by a rule inexorably forbidding and precluding his re-election.

V. That the raising of revenue, whether by tariff or otherwise, shall be recognized and treated as the people's immediate business, to be shaped and directed by them, through their repre entatives in Congress, whose action there-on the President must neither overrule by his veto, attempt to dictate, nor presume to punish by bestowing office only on those who agree with him or withdrawing it from those

VI. That the public lands must be sacredly reserved for occupation and acquisition by cultivators, and not recklessly squandered on the projectors of railroads for which our people have no present need, and the premature construction of which is annually plunging us into deeper and deeper abysses of foreign indebteds

VII. That the achievement of these grand purposes of universal beneficence is expected and sought at the hands of all who approve them, irrespective of past affiliations.

VIII. That the public faith must at all hazards be maintained and the national credit IX. That the patriotic devotedness and in-estimable services of our fellow citizens who,

as soldiers or sailors, upheld the flug and main tained the unity of the Republic shall ever be gratefully remembered and honorably requited. These propositions, so ably and forcibly presented in the platform of your Convention, have already fixed the attention and commanded the assent of a large majority of our countrymen, who joyfully adopt them, as I do, as the bases of a true, beneficent national reconstruction-of a new departure from jealousies, adequate motive or even plausible pretext, into an atmosphere of peace, fraternity, and mutual good with. In vain do the drill sergeants of decaying organizations flourish menacingly their trunchions, and angrily insist that the files shall be closed and straightened; in vain do the whippers-in of parties once vital, because rooted in the vital needs of the hour, protest against straying and bolting, denounce men nowise their interiors as traitors and renegades, and threaten them with infamy and ple have aiready made your cause their own, fully resolved that their brave hearts and strong arms shall bear it on to triumph. In his faith, and with the distinct understanding that, if elected, I shall be the President, not of a party, but of the whole people, I accept your nomination, in the confident trust that the masses of our countrymen North and South are eager to clasp hands across the nomination for effice at the hands of a ConBenjamin Whitman, Esq. is chairman, is forgetting that they have been enemies in the henceforth remain brethren.

The subject here treated are really of vital importance, and it is passing strange that so little attention has heretofore been paid by Americans to the simplest rules for eating and drinking. Dio Lewis, who is eminently pratical, inculcates the necessity of boldily exercise, of temperance in eating as well as in drinking, of simplicity in diet, of proper attention to the cooking of victuals, of fresh air, of not overloading and evertasking the stomach, of slow mastication, of regularity n eating, and of other means whereby indigesunhappiness in our midst has a weak digestion and artillery jackets for eighty years, and for its prime cause, and DYSPEPSIA may almost be considered a national failing. Others have not yet been heard from, but all those recounted above have been totally wrecked, and their crews have not been accounted for except in very rare instances, and the few who were saved could not give any deficite intelligence of those they had left behind them.

Out of 4 000 souls only 175 have been accounted for. Most of these vessels were dashed to pieces on icebergs and fields of ice during a terrific hurricane. Many of them were insured in American companies, and merchants in this city and Massachusetts were largely interested in the fleet.

This wholesale disaster spreads poverty and ruin throughout New Foundland, when the victims nearly all belonged, and the vessels generally belonged During the night of the loss of the steamship Ratriever sixteen sail of vessels were hemmed in by high boulders and bergs of ice, over which tremendous seas dashed high and wild. While this fleet lay to as a last effort to survive the hurricane, many tossing crafts cut down each other, and one fearful instance is recorded drowned himself in a stream only nine wherein a vessel driven on an iceberg by a high sea, fell back with a mighty crash upon the Twin Sisters, which lay beneath the brig. A large number of men were instantly crushed to death, and the Twin Sisters was literally burst in two. Of the rest, only fifteen out of ninety-eight clung to broken spars and were by chance picked up by the

crew of the Retriever. The day after the storm the ice opened and the steamship Retriever made land, on reaching which she sunk and keeled over. but her crew succeeded in escaping to the shore. She was the only vessel that reached shore out of the fleet of sixteen in her vicinity during the hurricane.

Hundreds of the fleet are still to be from, and their fate may be even as gloomy as that of the forty-one vessels of which the above account is given by the Times. The disaster occurred on the night of the 11th of Between 13th and 14th Sts., Alteen ban April. The ruin of the seal fishery is com-

Dyspepsia -- Indigestion.

The subject of Indigestion has attracted much attention, because it has ever been a difficult and troublesome disease to treat. It is characterized by a great variety of symptoms, the most prominent of which are, freights from the principal cities and is terbrash, fullness of stomach, with tenderness, load or weight in that region, debility, loss of flesh, despondency, headache, bad or capricious appetite, palpitation, cough, pervousney, restlessness, &c., &c.
