DEMOCRATIC STATE COM. ROOMS, PHIL-ADELPHIA. September 4, 1872.-Much care and industry has been taken to impress the voters of the state with the belief than an unusual and excessive majority will be given against the democratic and liberal republican state ticket, at the October election, in the city of Philadelphia. This boast is made upon contemplated frauds, made possible under the infamous and partisan registry law. The objects of these statements are to encourage the radicals of the state. and to arouse a revival from their present depressed and hopeless condition, and secare what they now lack, energy and enthusiasm, during the canvass.

Our friends in this and other states need have no apprehension as to Philadelphia. It is true, schemes of fraud are being arranged, and will be attempted on the day of election, but they will fail of execution. Vigilance has already been and will continne to be exercised to expose and prevent their consummation.

The result in Philadelphia, with the aid of thousands of high-minded republicans, will be a surprise to our friends and to our opponents. I am without fear in this re-

mention, with the view of exposure and overthrow. It has come to my knowledge, and is susceptible of proof, that large numbers of colored men-generally younghave been brought into the state from the neighborhoods of Harrisonburg, Virginia, and Charlestown, West Virginia, to vote at the election in October and November. The former squad were ticketed to Harrisburg, and the latter to Chambersburg, in this state. Numbers, in like manner, have been located in Erie, Clarion and other counties. More are expected.

I now call upon the democrats in every election district in the state to form "Vigilance Committees," to watch and prevent the success of these attempted cheats, and meet all kindred efforts. Under the confrom the privilege of the elective franchise, and in every instance such as are unknown in the communities where they seek to vote should be fully questioned and made to prove their right to vote, before allowing the deposit of their ballot. I call upon the democrats for vigorous organization, and I invoke special vigilance in the northern, southern and western border counties of

this declaration with full appreciation of its import, and the weight which should attach to such a statement, when emanating from one in whom high confidence has been placed. I state it from conviction, and it is made after careful review and full knowledge of the condition and tendency of the public mind throughout the state.

honesty and corruption, in the future administration of the state.

The people will make overwhelming choice in favor of future good government, Friday Morning, September 13, 1872. with a majority beyond the reach of all ballot-box polluters.

> SAMUEL J. RANDALL, Chairman.

The Long Agony Over at Last.

The Radical Congressional conferees from this district having been unable either at Altoona or Lewistown to unite upon a candidate, turned their faces westward again on Friday last and sought the quiet groves of Cresson as the scene of their final, and, as the result will prove, their fruitless deliberations. At that place, on the 283d ballot, A. A. BARKER received eight votes and S. S. BLAIR four votes-the three conferees from Cambria, the three from Huntingdon and two from Mifflin voting for Mr. BARKER and the other Mifflin conferee and the three from Blair county voting for Mr. BLAIR. Thus ended this protracted and bitter contest.

We do not for one moment suppose that either of the eight gentlemen who conferred upon A. A. BARKER the empty honor of this nomination entertained the most remote belief that he would be elected. Although the district has always been Republican until two years ago R. MILTON SPEER defeated Mr. MORRELL by a small majority, there are in our judgment controlling reasons which must render the election of A. A. BARKER, S. S. BLAIR, or any other Radical in the district, over R. MILTON Speer, an utter and hopeless impossibility. It is unnecessary for us now to state them in detail. They are well understood and admitted, and lead to the irresistible conclusion at which we have arrived.

Against Mr. BARKER as a man and a cit-

izen we have not a word to say. We would not attack him personally even if we could. We deprecate all low personal assaults upon political candidates, and are always unwilling to resort to that objectionable mode of warfare unless in repelling attacks of the same character made on the candidates of our own party. So far as R. MIL-TON SPEER is concerned, his entire private and public record are beyond assault. He is not only pure, but beyond all suspicion. Of Mr. BARKER we will say, that since he first came to this county, about 1855, he Auditor-PETER DOUGHERTY, Summitville. has been an industrious, hard-working man, and in all his business operations an THE CAMERON RING COLONIZING, enterprising and useful citizen-a man of his own personal affairs, but, with the exception of his earnest opposition to Mr. MORRELL two years ago, always and on all occasions in promoting the interests of his party. He is a bitter Radical and has always been in full communion with all the heresies of that political church. Although he has amassed a considerable portion of this world's goods, it is but fair to say that in all his business transactions he is regarded as upright and honest. We have heard some of his enthusiastic admirers in this place express their belief in his election. but their wish is simply father to their thought. We are not the least afraid of and do not for a moment anticipate any hereafter hold their peace. such result. We regard Mr. SPEER as invincible and his re-election as a foregone

Buckalew and Victory.

CHARLES R. BUCKALEW is making a gal lant fight for victory in October. He has made a very thorough canvass of the eastern portion of the State, and his able and unanswerable speech at Lancaster, which was published in the Freeman, is a correct index to all his other addresses. He is now in the north-western portion of the State and has everywhere been enthusiastically recived by every Democrat, as well as by One plan of fraud commenced I will thousands of Liberal Republicans. On last Saturday night he addressed an immense meeting in Allegheny City, at which speeches were also delivered by Thomas M. Mar-SHALL and Gen. J. K. MOORHEAD, both heretofore leading Republicans of Allegheny county. We have no reason to doubt his success in October, but while he is thus fighting the good fight, himself, we call on the Democracy of Cambria and their Liberal Republican ailies to nerve and strengthen the arm of our noble standardbearer. Let there be instant and thorough organization in each election district in the county. Three active Democrats in each district can accomplish this result. "There is a tide in the affairs of men which if taken at the flood leads on to fortune."-This is true also in political contests. Let there be united and vigorous action in each district of the county—let it be commenced at once by the Democracy themselves in each district-and let a complete organization be stitution, these colored people not having kept up until the second Tuesday of Octobeen residents for one year, are debarred ber, and then Charles R. Buckalew, R. MILTON SPEER, JOHN HANNAN and the entire county ticket will feel proud of their majority in Cambria. It can be done!-Democrats of Cambria, see that it is done!

WE publish in another column an excelent and temperately written article from the present week's issue Johnstown Democrat, over the caption of "Buckalew and the District Court." We heartily endorse the conciliatory tone manifested in the article, and if it is imitated both here and Victory in October is certain. I make in Johnstown, peace and harmony will yet prevail between the north and the south of

Charles Albright.

The man whose name heads this article is one of the three Radical candidates for Congressman at large. He resided in this place in 1854-the year in which the bill organizing Kansas into a territorial government passed Congress and was approved by President Pierce. At that time he (Albright) was engaged in the practice of the law here, and was also one of the editors of the Alleghanian, a Republican and Know-Nothing sheet published in this place. Soon after the October election in 1854 he started this place, as we well remember, during the winter following, and then his career of swindling commenced. Just when he finally left here for Kansas we are unable to say, but believe it was in the early part of the spring of 1855. The particular date is not at all important for our present purpose, which is to expose and hold up before the honest voters of the State the ways that are dark and the tricks that were not vain of this political demagogue and shyster. We therefore make and are prepared to prove by the most indubitable evidence the following specific charges and allegaions against the aforesaid CHARLES AL-BRIGHT, now a candidate on the Radical ticket for the high and responsible position of Congressman at large from this State:

First, That immediately before he left Ebensburg for the territory of Kansas, he was paid, at his own urgent request, by everal of the most respectable citizens of this town, divers sums of money, to be inrested by the said Albright in the purchase of town lots in what was then known as ouncil City, in Kansas, for the benefit and advantage of the gentlemen who paid him, Albright) their respective sums of money. Second, That one gentleman of this place,

still residing here, paid him one hundred dollars to be so invested in the purchase of town lots in said Council City-that CHAS. ALBRIGHT never returned to this place after he left Kansas, where he only remained a short time, but on his return to Pennsylvania, went to Carbon county, where he now resides-that the gentleman referred to, now residing here, addressed to Albright after his return from Kansas to this State, two or three letters wishing to know what had become of his \$100, and where his prospective town lots had been locatedthat up to this day Charles Albright has refused to reply to either of the letters, or to render any account of the aforesaid \$100.

Third, That another prominent citizen of this place invested \$30 for the same puruntiring energy, not only in attending to pose, and paid that sum to Albright, with like results.

> Fourth, There are others of our citizens whose knowledge of Albright's financial the bill, no doubt the other Democratic operation in Council City lots is of the same Senators would have had the measure

The foregoing allegations are true and are susceptible of the clearest proof. Albright played the same game with several citizens of Johnstown, as was recently ventilated by the Mountain Echo. Now let CHARLES ALBRIGHT, who is making Radical speeches throughout the State, come to Ebensburg and explain to his old friends but deluded victims what he did with their money, and on his failure to do so, then let him and his political supporters forever

have heard of the old story about the "Dutch having taken Holland." Last Monelection by a majority of 15,000. What Democrat ever doubted or even asserted in that radical-ridden State? At the last

Presidential election GRANT had a majority in Maine of 28,030. Now the GRANT candidate for Governor has 15,000 or 13,000 less than Grant had four years ago. The friends of Horack Greeley always admitted that Maine would go for the Radicals, but by only one-half the majority given to GRANT in 1868. The result of Monday's election has proved that this calculation

There are just two of the six New Engand States in which GREELRY will receive a majority-New Hampshire and Connecticut. "As Maine goes," was formerly the cry, "so goes the Union," but we say now as Pennsylvania goes next October so goes the Union; and, further, we express our honest and deliberate judgment when we say that the vote of the people of this State will be overwhelmingly for Buckalew in October and for GREELEY in November; and then the fate of U.S. GRANT is sealed and settled, as by common consent it will

WE publish under our editorial head : circular issued by SAMUEL J. RANDALL, Chairman of the Democratic State Committee, and invite the special attention of our readers to its contents. Mr. RANDALL says it is susceptible of proof that the friends of HARTRANFT and GRANT have sent two squads of young negroes from Harrisonburg, in the Shenandoah valley, Old Virginia, and from Charlestown, West Virginia, to Chambersburg and Harrisburg, in this State, to vote at the coming election. This is a most startling disclosure. Is the legally expressed voice of the white voters of Pennsylvania to be thus nullified and set aside by the importation of Southern negroes to carry the October election in favor of HARTRANFT, ALLEN, and their master, Simon Cameron? Let the Democracy throughout the State watch this nefarious and most villainous game and see that it fails of success,

THE Democratic and Liberal Republican State Conventions of New York met at the following strong union ticket: Governor, FRANCIS KERNAN; Canal Commissioner, John F. Hubbard-both Democrats; Secretary of State, Chauncey M. DUPUY; State Prison Inspectator, Exos. C. Brooks-both Liberal Republicans. A union Electoral ticket was also agreed upon and S. S. The request was comsay, the sick and suffering physician refor Kansas, from whence he returned to covered the possession of robust and vigorous health. We believe that our District Court is now in the same condition as was the ill docter. The "emetic" has already been administered by the Supreme Court, and

> We cannot help but believe that if there Court, that there was equally none to elect the judges of the said court. The same was used to elect the judges. The Supreme Court, in its decision on this case, left no room for doubt as to what its opinion is, and that opinion is clearly that none of the officers of that court were chosen according

> Now, we ask what is the use of criticising the action of the Supreme Court? We cannot change that opinion, nor can we overcome its effects on the District Court by producing all the learned opinions of all the legal gentlemen in the country. In confirmation of this we merely state the fuct that the operations of the court are stopped, and will remain in that position until new to law! We think this can and may be accomplished.

Believing this to be the case, we ask, as a supporter of the interests of Johnstown, is it good policy to force this into a political question? We think not, because we then array one powerful political party against us, and if that is done through unwise councils the District Court will

never be revived. What has the HON. CHARLES R. BUCK-LEW to do with this court? Not anything now, but a great deal, perhaps, hereafter. Mr. Buckalew is not an "enemy of Johnstown," but on the contrary he wishes for the progress and success of every part of our grand old Commonwealth. All editorials written in behalf of the District Court that contains aspersions on his vote in the State Senate last winter will fail to do the court any good. It is, we believe, an old custom, and generally found to be a good one, for members of the Senate to vote on a question affecting a particular locality as the Senater from the district in which the people reside whom the legislation concerns desires them to. Hon. W. A. WALLACE, our Senator, contrary to all excourt bill and through his efforts it was defeated. If the friends of the court had supposed that Mr. WALLACE would use his position as our representative to defeat properly explained to them, and they might, possibly, have voted differently. As the case stands, Mr. WALLACE alone is responsible in the Senate for its defeat, whilst Mr. Buckalew only acted as an honorable Senator should towards another one in a matter which concerned that gen-Democrat, or any other honest man, who wishes to have a court in Johnstown, be geneer. cajoled into voting against the honest BUCKALEW on that account, because the assertion that he is unfriendly to our interests is not true and is without any foundation whatever.

If the moral feeling of the State has not entirely departed, Mr. Buckalew will most assuredly be elected our next Governor whether he receives a large or small majorty in Cambria county, and it will be the heerest folly to have the friends of the court arrayed against the chief officer of the State without any cause.
