It was repeatedly asserted during the recent political canvass, both by the Johnstown Tribune and Voice, that there then was and for years heretofore had been in existence what is styled an "Ebensburg Ring." It was charged that this imaginary "Ring" is corrupt in all its purposes and operations, and that it is a well organized political cabal, whose sole and entire purpose is to control political nominations in this county and to rob and plunder the people. R. L. Johnston, Esq., and John A. BLAIR, ex-sheriff of the county, were declared to be the head and front of this dreadful combination. Of course all this political abuse was manufactured and utsered for a special purpose. It may, perhaps, have had its influence in some parts of the county so far as the county ticket was concerned, but it is none the less a falsehood. We have known R. L. JOHNSwon long enough and well enough to say that he has always manifested and proven himself to be a gentleman, not only personally, but politically. Did he ever commit a dishonorable act, political or otherwise, in all his life? If he ever did, or if JOHN A. BLAIR, or J. K. HITE, or any other gentleman named as a member of the mythical Ring ever did such an act, let it be published to the world, and then, if the proof be forthcoming, let the guilty one fall and be forever dishonored in the estiand it will not be proven. The three genbeen specially singled out as objects of perand feel that they can outlive all the aspersions that have been or may hereafter be cast upon their fair fame, but nevertheless have felt constrained to repel the dastardly attacks that have been made upon their political characters while at the same time we repulse and utterly deny the silly and in same charge that there does now or ever did exist what the Johnstown radical

Ring.

The leaders of the Radical party in this county boast, and even offer to bet money, that GRANT will carry Cambria at the election on next Tuesday week. The editor of the Johnstown Tribune, with his accustomed, cool and proverbial impudence, asthink we know the integrity of the Democracy of this county, and that they will teach defenders of GRANT and HARTRANFT, that election as Buckalew received on the 8th day of the present month.

We admit that the result of the October election in Pennsylvania disappointed all our expectations, but that it is decisive of the election in November for President we utterly deny. Let every Democrat in Cambria county regard it as his solemn and imperative political duty to go to the election on the 5th of November and vote for HORACE GREELEY. There must be no such word as "surrender." That was the reply of the "Old Guard" of Napoleon at Waterloo to the victorious troops of WEL-LINGTON. We trust that the Democracy, not only of this State, but of Cambria county, will fight the battle out to the bitter end until the November election.

We publish in another column an article from the Philadelphia Age on the question of not voting. It is sensible, prudent and to the point, and we hope every Democrat suggestions of the Age. Why should we

The Blacklick Navigation and Im provement Company.

An Ebensburg lawyer violated the election laws at the late election by going to the polls in Barr township and there electioneering for SAMUEL HENRY. An Act had been passed on the 19th day of June, 1871, entitled "An Act to incorporate the Blackfick Navigation and Improvement Company," and this man appeared before the people of Earr township to induce them to believe that Mr. HENRY had nothing to do with the passage of that law, and that the connection of his name therewith was the basest of misrepresentation. Let us see how far the facts of the case bear out the assertions of this astute lawyer. The record will show that instead of injustice having been done Mr. HENRY, the whole truth, had it been known to the voters of Barr township, would have induced them to repudiate him by a large majority. We give herewith the Act passed by Mr. Rose and the Supplement thereto passed by Mr. HENRY. They tell their own stories:

AN ACT to incorporate the Black Lick Navigation and Improvement Company. SECTION 1. Be it enacted by the Senate and House of Representatives of the Commonwealth of Pennsylvania, and it is hereby enacted by the authority of the same, That John Stoneback, Edwin R. Martin, John C. Martin, John O'Neal, Josiah Lydic, G. Hill Ogden, Rob't Geary, A. Beaver, Chas. Perkins, A. T. That the capital stock of said Company shall be two thousand dollars, divided into shares of twenty dollars each, with the privilege of increasing the same, from time to time, to an amount not exceeding thirty thousand dollars; said increase and all transfers of stock to be made at such times and in such manner as the by-laws of said company may prescribe.

The fight will be along any right to interfere with the rights and privileges of the Two Lick Navigation and improvement Company on Two Lick creek; and in erecting piers and making such other from his flag-ship at the battle of Trafal- improvements as authorized by this act, no injury shall be done to any private rights in the water power of the said streams, or to

The company can easily have enough of these places, when taken in connection with the toll chargeable, to exact more than one-half the real value of the timber caught at these piers.

We pronounce this bill, and more espe- Philadelphiacially Mr. HENRY's supplement, an outrage upon every man residing along the waters of Blacklick, inasmuch as it takes his property, the result of his hard labor, without his consent, and confers it on monopolists | del, R. from Lancaster, Harrisburg, and elsewhere.

The election is over and we have no purpose now but to present the truth and put the people of Blacklick and Barr townships on their guard, so as to enable them to take the necessary steps for having this odious legislation repealed. Mr. HENRY well knows that a thorough knowledge of this act would have lost him the vote of every man whose rights are thus shamefully trampled upon, and the best thing he can do, in this one instance at least, is to shake off the speculators in land and labor who make use of his popularity to accomplish their own selfish purposes.

Nothing has yet been done under Mr. HENRY's supplement, and those interested should at once petition for its repeal. If they do they may be sure that the obnoxious act will be obliterated from the statute book, for Mr. HENRY will not dare go counter to their wishes.

And now what will the Herald man say about "THE LIE" somebody has induced him to utter? Of course he will not retract -that is more than could be expected from such a source-but nobody cares whether he does or not. He dare not deny, however, that the most obnoxious part of the bill is its supplement, and that that was passed during Mr. HENRY's term and was signed by the Governor on the 12th day of April, 1872. Further comment is uncalled

Not Voting.

An assemblage at Harrisburg, which, according to the Patriot of that city, was entirely insignificant in every particular, has issued a manifecto recommending the Democrats of Pennsylvania not to vote at the November election. This is rather a lame and impotent conclusion to the movement that has constantly promised to furnish candidates better than these nominated by the Democratic Convention at Baltimore. So many people always neglect the duty of voting, so much urging, drumming and transporting to the polls is always necessary to get out a full vote, that anybody who may ake upon himself to recommend people not to vote, may afterwards complacently assume that he has swayed those who not her heeded nor heard his advice. Having, however, given such advice a place in our news columns, we will add that we never saw, and hope we never shall see, a political conjuncture in which it would be desirable for an American citizen to neglect his dut and refuse to vote. While we will not affect a confidence of carrying this State in November against the agencies that are yet in a vigor that has grown with impunity, we believe that the spirit is still alive in other States to continue the Presidential contest with a manly spirit that sees success as possible, and never ceases to strive for it. The issue now is not the ancient opinions of Mr. Greeley or the expediency of his nomination at Baltimore. What we had to say on those points we said before the nomination was made. Since the nomination our candidate has displayed a vigor, ability and public spirit that have gone far to remove all sincere objections to him .-Very few Democrats have taken any part in the illusory and impracticable movement to put some other candidate in the field-a movement that, as most sagacious men expected, has ended in smoke. Many Democrats there are who have entertained the purpose of not voting, and this not from any one's suggestion, but as the result of personal dissatisfaction or discouragement. We ask them to reconsider any such purpose. The citizen's function is one too important to be lightly neglected. He who orms in himself or encourages in others a ples, D. habit of not voting, withdraws himself from his share in carrying on a popular government. If we expect to overcome fraud and re-establish free and pure elections, it must be by asserting and exalting the importance of the vote of every citizen, not by slighting it or voluntarily resigning t. There was never a conjuncture in which free civil government more needed the open, manly support of its true friends, There will be a peculiar significance in every vote cast for the Democratic Electoral ticket in November. It will be the freeman's utterance against fraud, corruption and despotism. It will keep up to the last hour the contest on our soil, and not leave Radicalism free to spread its repeaters over mighboring States This is our view of the matter, and we never uttered with more carnestness the old American call to duty: 'To the polls, fellow citizens, to the polls! -Phil. Age.

THE PROSPECT OF SUCCESS .- There is no reason to despair of the States that gave Democratic majorities in their last elections. The following carefully compiled table, prepared and printed for another purpose in the early part of June, gives the date of the latest elections which had then been held, the Democratic majority in each State at those elections, and the number of electoral votes to which the several States are entitled. This table is

HOLL HOLLES	onsidering.		
State.	Electoral Vate.	Dem. Majority.	Last Election
Alabama	10	1.771	1870

Now, supposing the Democratic party able to hold its own in these States, it is not difficult to discover a way to success in this Presidential contest. To these 138 electoral votes we may safely add New York, which, with its 35 electoral votes. increases the number to 173. It requires only 184 votes to elect a President; and there are sources enough from which we could make up the other 11 with proper site 11, leaving only 5 to be sought else- cons

THE SECRET OF CAMERON'S POWER .-An old Pennsylvanian was lately asked to explain the secret of Simon Cameron's power by a matter of fact correspondent conveyed in the single word, "money." He knew about the use of money; he knew how Simon Cameron once went to the Senate by purchasing the votes of three members of the Legislature. And he knew about his defeat in '63 when he needed only one vote to elect him; how he bought up a Democrat, but before the election took place the constituects heard of it and went o Harrisburg en masse and threatened to kill him if he sold out. The correspondent knew how Cameron bought voters and election officers like sheep, but even that did not explain the source of his power; for men bought to-day must be bought again to-morrow, and the power acquired over thronged, and crowds outside were unable them is only temporary, while Cameron's hold seems to be permanent. The Pennsylvanian admitted all this, but still he insisted that the sole secret of Cameron's strength was money. He controls the Treasury Ring at Harrisburg. The Treasury Ring is empowered to deposit the public funds in any banks which it may select. One of Cameron's creatures starts a bank of the most common objects.
