BEFORE MARRIAGE. BY MEDDLESOME MATTIE.

The sunny side of one's life only is exposed to the lover. During courtship, pleasant smiles, honeved words, soft and sweet intonations of voice. amazing aniability, seem to rise to the surface of one s disposition the moment one comes tuto the presence of the object of one's affection.

For the lover, the most becoming dress is donned, the spotless collar is adjusted with nicest care, the ribbons are selected with an eve to the utmost becomingness, the hair combed in a style that will best enchance the beauty of the wearer. The mirror is consulted again and again, to make sure that nothing is left off that might add to the charms of the gazer. A curl is placed here, a rosebud or dainty ribbon is tucked carelessly into the shining braids; even the eyebrows are scanned to see that each particular hair is. smoothed in the right direction; the evelashes are oiled or waxed into place. and I have known fastidious persons to carry the thing so far as to tinge the lips and checks with beet juice. (not carmine, of course), and just rub a mere sprinkling of rice powder, (not paint), over the face to-well-to remove the superfluous oiliness of the complexion, so that they might present a cleanly appearance of face that soap and water could not produce .---Remember, these prodigious efforts to enhance their beauty, were put forth before the matrimonial knot had been tied.

All the choicest and most pleasing expressions are reserved for "courting night," that the lover may think that he is about to secure a silver lutevoiced lady-love, who will while away his years of wedded life with the man voice. His ideas are her ideas: NUMBER 10.

Brother and sister are not orger "dear" and "darlings," but are ordered to shut the door under penalty of knocking them into the middle of next week if they disobey; and the latest dime novel is substituted for useful and instructive works. Indolence and extravegence teke the place of industry and prudence. The husband's dinner is put upon the table cold or halfcocked, or left for him to pick up in a disordered larder, while, perhaps, his · better half' (?) is gossiping with her nearest neighbor on the short-comings of their neighbor across the way .----Link by link the chain of love is lessened. The husband becomes indifferent, forgets to consult his wife a t ste; he growls if asked to gratify her most necessary wants; he never thinks to bring her a souvenir or a flower; if he goes to places of amusement, he goes alone, or with attractive Susan around the corner; she has all the attractiveness for him which his wife had before marriage. If his wife drops her handkerchief, he growls or kicks it aside with the coarseness of a ruttian. Endearing pet names are reserved for stylish Miss Style, or winning Miss Winn. The angels before marriage have now, since the matrimonial knot was tied, shed their angelic coats, and now reveal their true colors, and the wedded pair sigh for a dissolution of the hateful yoke that binds them to each other.

Husbands and wives, you are to blame, culpably to blame, for this lamentable and unnecessary change .----The fault and the cure lies in yoursulves.

Study with as much care how to keep as how to win a husband or wife, and the honeymoon accompanies you through all your wedded life; you will have no occasion to sigh because you did not choose charming James. or smiable Mary, instead of the horhis likes and dislikes are studied with rible thing you are now trying to eke out a miserable existence with. Husbands and wives, you must make yourselves loveable, if you expect the felicity of being loved-God, himself, has said it. After this, when domestic troubles arise, don't peddle them to your neighbors or consult your lawyer on what course to pursue, but go don a becoming sttire, put on your most amiable manners, study and practice the art of pleasing, convert your harsh scolding voice into its former lute-like tones, make your eyes beam love instead of venom, and thus make yourcelf so irresistibly fascinating that your husband or wife, as the case may he, will really feel that home is the dearest and most attractive spot on earth, and that your wife or your husband is by far the most lovesble being in the whole world.

cid and comely enough. The verdict was easily decided on:

"That Walter Knowles met his death at the hands of parties unknown," etc. In the village, a young place, and a good sample of the towns of rapid Calnormia growth, the murder made considerable sensation. Knowles, since

he commenced to fill the position of telegraph operator in the place, was

always very popular, and apparently had no enemies. He was an inoffensive, agreeable young fellow, and was liards, or lounging about bar-rooms, or | porch. practicing any of the ordinary small vices of the young men of the period.

came from, none were aware. His letters were from men in San Francisco, who, when written to on the subject. knew no more of the telegraph operator than that he was a pleasant fellow, and that they felt sorry for his bloody death. And so Knowles was laid to

rest in the new cemetery with the mystery of his death unexplained. Barbara French taught the village school, and was considered an unusu-

aliy smart woman. She numbered among her suitors the principal saloon keeper of the place, and a dentist, who had recently opened an onice in Ehal lowtown. Between them her time out of school and, rumor said, her affections were divided. Some, again, reported that Knowles had always had the inside track, and that though Barbara didn't show much sorrow at the murder, still her cheeks grew hollow and her voice thinner since the funeral; and, indeed, she was not the same girl at all. Nevertheless, the suitors continued their attentions, and the village its gossip; sometimes placing the dentist first in the lady's affections, and

sometimes the saloon keeper, as either was seen walking home with her or accompanying her to the school. Dr. Brown, the gossips said, was certainly the better match of the two: but Bill Bronson had the best business and the most money, and had his life insured besides. One evening the rivals met at the post-office.

"How d'ye do, doctor ?" said Bronson, coolly, as they stood side by side, waiting for their letters.

"Pretty well, thank you," replied the other in the same prying tone;

"when did you have the pleasure of seeing Miss French ?" "Only last evening. She is very

busy in her school now, and has not time to walk around." With this they parted\_Bronson to

his saloon and the dentist to his accustomed haunt in the neighborhood of the school house.
