THE ATLANTIC DISASTER. METHOMAS CARLAND,

SCENE OF THE CHEAT CALAMITY-WRECES OF THE PAST.

Cape Prospect, situated on the Atlantic coast of Nova Scotia, about twenty miles from Halifax, near the entrance to the har. bor of that town, and to be henceforth ever memorable as the scene of the late terrible steamship disaster, is a stretch of high bro, ken land extending into the sca. The appearance of this whole coast is rugged and uneven, and of a hight in some places of $500\,\,{\rm fect},\,{\rm and}\,\,{\rm is\, composed\,\,mainly\,of\,\,granit}_{\rm e}$ and primary rocks. From the configura- FEED AND PROVISIONS. tion of this coast and the peril that would necessarily attach to any vessel driven, as was the Atlantic, upon it in such a gale as was prevailing at the time that vessel went Between 13th and 14th Sts.. Altoona. ashore at Meagher's Head, the intelligence that a ship had thus been hurled by wind and wave upon its inhospitable shore would almost certainly imply as well that her wreck was complete. So has it too fatally proven in the case of the Atlantic, of which probably scarcely a vestige will remain afloat by the time these lines meet the eyes freights from the principal cities and no dray of our readers.

The dispatches recounting the story of the loss of the Atlantic informs us that that, a fair, upright business, and by promptly and vessel, at the time of her destruction, was endeavoring to make the port of Halifax, which town lies some fifteen miles inland from the outer Atlantic coast, on the west side of a deep inlet called Halifax Harbor. It is the capital and chief scaport of Nova Scotia, and is the principal naval station for the British American colonies. The harbor is one of the finest in the world, and could float the entire shipping of the world. Ice rarely obstructs it, and hence its great advantages at all seasons of the year. The town, including the suburbs, is two and a half miles long and nearly one mile wide, with spacious streets that cross at right angles. The houses are mainly built of wood, plastered and stuccoed, but there are also many handsome dwellings constructed of stone. It possesses a splendid dock-yard covering fourteen acres. Numerous wharves line the water's edge, where ships discharge their cargoes. Strong forts and batteries defend the approach to the town. There is a light-house at Sambro Island, at the southwest side of the harbor, 132 feet above the level of the sea, and another faither up on Manger's Beach, called Sherbrooke tower, which disphays a light tifty-eight feet above the level of the sea.

THE WRECKS OF THE PAST. An idea of the comparative magnitude of the disaster may be obtained from the following statement of the prominent marine accidents since 1840: In the month of March, 1841, the steamer President sailed from the port of New York with a large

Cigars and Tobacces,

THINGS WORTH KNOWING. ANTIBLISTED THE ALTER THE AREAS FOR BURNS .- For burns or scalds apply immediately a soft linen rag or lint satu-

rated with strong spirits of camphor and keep it wet for an hour. You will be surprised at the relief it affords. TO CURE A FELON ON THE HAND .-

Take sassafras bark-the inside barkdry, and grate it fine, and wet in a teacup with cold water, for a poultice. Apply to the felon, and wet once in five minutes in cold water. This, followed up, will draw it to a head in twenty-four hours, without any pain and without any injury to the WHOLESALE AND RETAIL, hand. Use the bark of the root.

TO MAKE A WHITE FOOT, OR A STAR IN A HORSE'S FOREHEAD.-Take pickled mackerel and confine it on, in any shape you please, three or four days repeating, and it will produce a white foot, or a white spot. Rub the white saddle spot on a horse's back a few times daily in the spring of the year, before the coat is shed, with bacon grease, and it will restore the natural color.

CUBE THE BABY'S COLD .--- When your little baby or child is suffering with a cold. and can scarcely breathe, do not dose it with all sorts of medicines, but try this simple remedy-the best we ever knew :

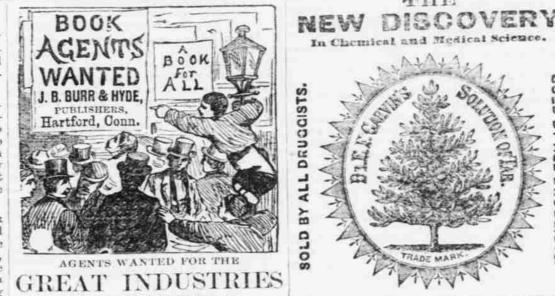

Take a raw carrot, out the top off smooth, and with a knife dig or scrape out the pith or light colored centre, making a hole in the cartot large enough to take in your largest finger. Fill the hole with white sugar, then suspend or stand the carrot up in a cool place. In about twelve hours the sugar will be dissolved, and the cavity in the carrot will be filled with a pure, golden-colored syrup. Give the child from six to twelve drops of this, from four to six times a day, according to the age of the child and the severity of the cold .--We have seen this pleasant remedy, which children readily take, because it is pure and sweet, cure cases of colds after other

remedies have been given for weeks in vain. It is comparatively a new remedy, but so efficacious it seems a duty to the public to make it known. If the syrup be kept in a warm room it will sour in a few days, when it should not be used, but new made from another carrot.

SMALL-POX-A REMEDY.-Mr. Editor: I notice by a late issue of your valuable paper that small-pox is prevailing in many parts of the country. The following rem-cdy is submitted if deemed worthy of publication, for the Lenght of those afflicted. TIN. COPPER & SHEET-IRON It has, I firmly belle, . been the means of saving the life of my fath.r. He was taken ill with the disease on the inth of January. 1873, and suffered in great agony for a week. His head, neck and shoun lers were swollen to double their usual size, a. d covered with peek marks; his hands were drawn crooked with pain, together with the

severe sickness attending the disease; his j tongue was swollen so that he could scarcely speak or swallow. The physicians gave no encouragement, and he had given up almost all hope of ever recovering. At this stage of the disease he asked for buttermilk, that he might put his hands into it. It was furnished, and no sooner had he put them in than it gave instant relief. He kept them in it for three hours, and went to sleep, not having closed his eyes in sleep for three days and three nights previous, Upon awaking, his aches, pains and fever

cover. We then bathed hun with butter-

OF THE UNITED STATES. 1500 PAGES AND 500 ENGRAVINGS, PRINTED IN ENGLISH AND GERMAN, WRITTEN BY 20 EMI-NENT AUTHORS, INCLUDING JOHN B. GOUGH, HON, LSON CASE, EDWARD ROWLAND, REV, E. EDWIN HALL, PHILIP RILEY, ALBERT BRISBANE, HON, LEON CANE, EDWARD HOW DATA TRIBBANE, FOWIN HALL, PHILLP RILEY, ALBERT UNISBANE, HORACE GREELEY, F. B. PERKINS. ETC., ETC. number of passengers ; when two days out she is supposed to have encountered a terrible gale, and was never again heard from. On the 28th of April, 1847, the Exmouth, an emigrant ship from Londonderry, was wrecked, and nearly 240 lives lost. A still more disastrous wreck was that of the Royal Adelaide, which occurred on the Tongue Sands, off Margate, on which occasion 400 lives were lost. In September, 1859, the Edmond was lost on the western coast of Ireland, and more than half of the 200 passengers perished. Upon the occasion of the loss of the troop-ship Birkenhead, in Simon's Bay, South Africa, in February, 1852, 454 of the crew and soldiers perished. Again, in 1853, just a year after this, the Independence took fire on the coast of Lower California, and 140 persons were consumed by the flames or drowned by the sea. In May of the same year 170 lives were lost by the wreck of the William and Mary near the Bahamas; and five months afterward 348 persons, mainly emigrant passengers, on the Annie Jane, of Liverrool, parished on the west shore of Scotkund, where the vessel was beached. The Favorite, on her way from Bremen to Baltimore, in April, 1854, ran into the bark Hesper, and 201 lives were sacrificed. In May of the same year 400 officers and soldiers were lost with the Lady Nugent, a troop ship, which foundered in a hurricane, and in the succeeding fall the United States mail steamer Arctic came in contact, during a fog, with the French steamer Vesta, and a loss of 300 lives was the result, an accident which still rings in the memory of many. The steamer City of Clasgow disappeared also before the close. of this disastrons year with 480 persons on board. In 1855 the only serious marine accident was the loss of the George Canring, near the mouth of the Elbe, with 96" passengers on board. In 1855 the John, an emigrant vessel, was wrecked on the Muuch Rocks, off Falmouth, on which occasion 200 lives were lost. On the 22d of February of the succeeding year the well-known Collins steamer Pacific left Liverpool for New York freighted with 186 souls, and was never again heard of. During the summer of 1857 the clipper ship Dunbar was wrecked near Sydney, and out of 121 persons ou board only one was saved. In September of the same year the steamer Central America foundered at sca with 579 passengers; only 152 were rescued. On the 13th of September of the same year 317 Chinese emigrants lost their lives in consequence of the wreck of the St. Paul on the island of Ressel. Of the 419 persons. on the Pomona, which was lost on Blackwater Bank, April 28, 1859, only 24 were saved. During the same year the Royal Charter was wrecked off Moelfra, with a loss of 446 lives. On the night of February 2, 1860, a new mail steamer, the Hungarian, was wreeked off the coast of Nova Scotia, and all on board, 205, perished .-Ten years ago this month 237 out of 446 persons, passengers on the Anglo-Saxon, lost their lives when that steamer was wrecked off Newfoundland. In January of 1866 the steamer London foundered in the Bay of Biscay, sacrificing about 220 lives. Among the more recent lesses at sea that of the City of Boston, around

which still hovers an unfathoraed mystery, and that of the Northleet, are still within

milk, letting it dry in, and then rubbed the skin with sweet oil. We also gave him the milk inwardly, and in a short time he was able to leave his room. The buttermilk appeared to allay the disease at once. Another member of the family took the disease after his recovery, and the buttermilk was again used with the same success. - West Chester Jeffersonian.

THE ALDINE for April will be received with enthusiasm and delight by every person of taste who has a grain of appreciation for the beautiful or a spark of pride in the progress of American Art. Being the latest, it is, of course, the finest of all the fine issues of all this wonderful press, and in this constant improvement may be noted the secret of the great success which this American Art Journal has achieved, where, hitherto, so many beginnings have invari-ably counted just so many failures. The publishers demonstrate, not only the amdest resources, but a determination to use these resources to the utmost, and this enightened liberality in their business can have only the one result-a hold upon the popular faith that will be to them a tower of strength for all time to come. The second of the child sketches, by John S. Davis, announced as the quarterly finted plates for this year, appears in this issue. It represents a theft of a slice of bread and butter, by a roving cur, from a youngster who was seated in the open doorway to enjoy the balmy morning air. Ashadow has in verity clouded his day, and the fast-falling drops of an April shower accompany his tearful protest. It is a very pleasing sketck, and will add to the reputation of this prom-ising young artist. Thomas Moran presents five masterly delineations of the Yellowstone Region, one of which, "Tower Creek," a full page cutting by Linton, is a most superb specimen. The "Death War-rant of Mary Stuart" is a royal subject royally treated; and for texture and detail, is

white birch is conspicuous; the solitude heightened, not broken, by a pair of king-tishers, one perched upon a leafless branch, the other skimming the surface, and most mehanting vistas of dim forest distances form a picture worthy of the reputation of me of America's foremost painters. Such a spirited sketch as a "A Bare Chance," by W. M. Cary, in which one of our frontiersmen, on his gallant mustang, is brought suddenly to close quarters with a monstrous grizzly, deserves more than a passing notice, but so do the others, and space is lim-ited. There is a perfect gem of landscape Wimperis, the great rival of Birket Fo r. "A Deserted Church," "Spring Flow-rs," and "O Pray my Child," an exquisite nre picture of the German school, comlete the list of attractions which are scatred with such a generous hand among the trons of this elegant journal. The literacontents of the April ALDINE display the usual excellence and variety. There are, for instance, three good short stories, "I Will If You Will," by Clara F. Guernsey ; 'The Ball on the Ice," by E. B. Leonard and "Madame Jeannette's Papers," by Jas Watkins. There is a careful biographical and artistic study of the life and works of 'Malbone the Miniature Painter," by Os. mond Tiffany; a readable paper, by the editor, descriptive of "The Yellowstone Re gion ;" another on "The Death Warrant of Mary Stnart;" another on "An Old German Tribunal in the Harz Mountains," and, best of all, a racy little essay, by John Sidney, which would have charmed Lamb, since its *EBENSBURG*, *PA*. other Securities, bought and sold. Interest al-lowed on Time Daposits. Collections made at all accessible points in the United States, and a general Banking business transacted. *EBENSBURG*, *PA*. Under woolid have charmed Lamb, since its thence is his prime favorite, "Margaret, Duchess of Newcastle." There are five poems, "A Gazel of Hafiz," by Henry Rich-ards; "The Four Seasons," by S. W. Duffield, "O Pray, My Child," a translation from the German of Hoffman ; "A Bare Chance," a unique httle dialect poem by S. Lang-a new writer, who contests for the laurels of Bret

Harte and John Hay ; and the "Rosemary, mother tender flowery-fantasy by Mary E. Bradley, who has already won a prominent place among the American female poets. Music and Art receive thoughtful consideration, and Literature more than usual attention, the page containing it being devoted to MULLINERY & DRESS MAKING. JOHN P. LINTON, ATTORNEY-AT-LAW the late Henry Timred, the best and unfortunate of all the Southern poets. the late Henry Timred, the best and most
