We trust that the people of Cambria county will not fall a whit behind those of their sister counties in promptly subscribing for their apportioned amount of Cen-tennial stock. The celebratian should be own. made a grand success, and from recent derelopments we feel assured that the management intend making it just what it should be. Among the members of the District Committee we notice the name of Mr. Geo. F. Bates, of Johnstown, for the

Radical County Convention.

At the appointed time the Convention met at the Court House, and was called to the September Aldine. Samuel Henry, Esq., was nominated for Assembly, but an East Ward, Ebensburg, delegate declared that Samuel Henry would not take the nomination. Another delegate, with a knowing look, asserted that Mr. Henry would not decline if a strong ticket was nominated. The Convention, not seeming disposed to risk this, quehanna at Newport. The Sacramento Mr. Swank (who from Chairman subsided, are dilydamed dow, come what will, we are salmon and trout, which were put in a or rather, enlarged into a delegate), proposed that he be nominated by acclamation, and a committee of three be appointed to wait upon him.

A recess of ten minutes (after 20 minutes discussion) was taken, which seemed to be well improved by some of the delegates, and the committee reported that they had procured the acquicscence of Mr. Henry. John T. Harris was then unanimously nominated for Sheriff.

Nominations were then made for Treasurer, and Thomas Griffith was the unlucky man. Two first-class candidates were offered from Ebensburg-Hartman Berg and William H. Connell-and, while Berg had 24 votes and Connell 19, Griffith had one majority over both. Both these gentlemen had canvassed actively for the nomination-both are very fair men-but the Johnstown delegates nominated Griffith, who had never been named as a candidate till that morning, when Adams township voted first on the list. Her delegates, both Germans, voted for Griffith, though they could not pronounce his name and did not know him from the Shah of Persia.

The fact that Griffith is worth \$100,000 may account for this, as the other gentlemen, more popular, are comparatively poor. Mr. Griffith would not serve, if elected. We will "bet \$10, and prove it," that he will not be elected at all, as the people will not vote for a man who does not want the office, and will not fill it.

Commissioner came next and George Myers, who ran last fall a very high vote, was named, and undertook to follow Henry's course and have the nomination pressed upon him ; but the Convention had set up another idol, and, instead of Myers, who was beaten only 68, they put up James Conrad, who has been repeatedly beaten 800 or 900 votes.

For Poor House Director the northern lelegates tried hard to nominate Henry Hopple, a Democrat, by way of creating a diversion, but here again they failed, as the Johnstown forces rallied on Tobias

Stutzman and made him the candidate. John Cushon was then nominated for Auditor. He is a man of much weight, drawing some 200, and a good speaker. For Jury Commissioner E. P. Barker came in. It is thought by many that he can be

The subject of local option was not touched upon, and practically ignored by centennial project, deeming that sum to the delegates. They did not undertake to explain why a radical Legislature forced it upon the people. It was clear it could not be forced on the members of the Convention. The Convention was nearly full-some of the members very. Two of the deleeach, and always followed each other. In the main, however, the Convention was composed of honest and intelligent gentlemen, but the nominations were mainly agreed upon before the Convention The Convention was held on Monday. Nothing finer has yet been produced in

this country in the form of a magazine than

this famous region these pictures possess unusual interest. A full-page view of Clear Creek Canon, Rocky Mountains, opens up the wonderful grandeur of those hidden solitudes in a way to make them seem real; a large picture of the Snowy Range of the Madre is wild, gloomy and grand, Sierra while a sketch of the interior of the Rocky Mountains gives one the impression that all the world is made of mountains. A charming full-page picture after Lejeune, a French artist, called "The Blue Bird," shows a bewitching young woman confined in a strong tower to keep her from her lover. Mr. John Hows, a New York artist, has a full-page study of "Brookside Willows," remarkable for its faithful interpretation of nature and minute detail. A finer picture is seldom seen. Mary A. Hallock gives a society sketch called "Who is It?" of two ladies peeping down stairs to catch a glimpse of the man at the hall door. Dore, the great French artist, furnishes two large pictures illustrating the fairs tale of the "Sleeping Beauty." One of these shows the wonder-ful "Sleeping Palace," with the huntsmen in prefound slumber; the other mirrors the Beauty." 'Sleeping Beauty" in her vine-covered balcony in the golden sunlight. These two pictures are magical in their effect, and full of the subtle genins of Dore. Peter Moran has a carefully drawn picture called an "American Fatm Scene," which is truthful and characteristic. There is also a fine plc-ture of "Emperor Charles V. and Titian, after Becker, which illustrates a well-known historical event. "A Skye Terrier" closes the grand list of illustrations for September. Each of these pictures are well described in the letterpress, the editorial articles on "Colorado" and the "Sleeping Beauty"

being of special interest. Mrs. Julia C. R. Dorr opens the number with an exquisite poem of considerable length, entitled "Rena; a Legend of Brussels." It has all the beauty and grace of Tennyson's "Locksley Hall," which it resembles. R. K. Weeks adds a gem of a poem called "In Septem-The prose contributions are all exber." cellent. "A Great Man in a Green Hat" is

a capital satire on the modern art of "inter-viewing," written by G. P. Lathrop. "F. W." has a chatty article "Concerning Costumes.' "The Burgomaster in a Bottle" is one of those quaint French stories which only Messra: Erckmann-Chatrian could have written. "On The Trap" is an ex-

citing love story by E. B. Leonard. W. W. Bailey has one of his pleasant and readable assays on "Motion in Plants." James Jackson Jarves, the well known writer on art, contributes a very interesting account of "Mrs. Browning's English Home." The departments of Music, Art and Literature are each well filled with good solid reading matter, fully maintaining the high reputation The Aldine has long since earned. Subscription price \$5, including chromos "Village Belle" and "Crossing the Moor." Jas. Sutton & Co., publishers, 58 Maiden Läne, N. Y.

THE PHRENOLOGICAL JOURNAL for September, now on our table, must be pronounced by every reader a capital number. Its examination has given us much satisfaction. It contains over twenty set articles, besides shorter papers, among them being Hiram Powers, with portrait; Extraordinary Scientific Discovery; Living Unto Life; Dr. Horatius Bonar, with portrait; Laughter,

illustrated; Sketches from Real Life, No. 4, was nominated for Coroner, nefeating Jas. illustrated; Good Behavior, which every-

THAT FROG .- We have been requested by the gentleman who is most mixed up in the matter, to say to the local editor of the a sewing machine, or some other labor-say Altoona Tribune, that his account of the frog catching which was recently attempted in this region, is "flat, stale and unprofitable" when compared with the fearful reality. It is just as utterly impossible for him or any other man fitly and adequately to describe that mill-dam adventure, as it would be "to gild refined gold, to paint the lilly or add perfume to the the proprietors of such houses, but what violet." "Throw Physic to the Dogs."-"The GRAPHIC" recently gave an illustration of the new chromo issued by the Murray Hill Publishing Co., 129 East Twenty-eighth Street, N. Y., from Bispham's painting-"Throw Physic to the Dogs." The subject is a little girl physicing various specimens of

the canine race. The scene is a laughable one, and the different attitudes of the dogs are exceedingly pleasing. It was designed to illustrate Dr. Foote's

aversion to drugs, and accompanies each copy of his well-known work, "Plain Home Talk and Medical Common Sense." The Doctor's practice is thoroughly "New School " and in this way he stands prominently out

RIGHT ON THE RECORD .- Now and then a rumor reaches the public ear that somebody, generally a resident of the rural districts, has been "taken in and done for" on ing invention. In a few instances these dishonest dogdges have been ventilated through the newspapers, one or two cases having recently been reported, wherein a sewing machine agent is said to have been granted the privilege of leaving machines at certain houses until he would call for them, receiving in return what purported to be an ac-knowledgement of such fact, duly signed by it to have been seen in all the immense pro- payable within a specified time. We say stories of this kind have been told time and

again, but whether true or false it is notour purpose now to inquire. We merely wish to say that, if true, Mr. M. L. Brown, of this place, agent for the renowned and unsurpassable Singer Sewing Machine, is not the man who did the swindling. He bas a machine that can and does recommend itself. and he has come among us to make an honest living in an honest way, and would not resort to any disreputable dodges if a for-tane could be made in the operation. We

know these statements to be facts, and while we can truthfully say, after an experience of several years in our own family, that the Singer machine is without a superior, we can just emphatically declare that Mr. Brown is above and beyond a mean or mercenary act of any kind. He believes, as we believe, that no family should do without a sewing machine, and thus believing he offers, on the for settlemen
