## THE CAMBRIA FREEMAN.

EBENSBURG, PA.,

ALLEN's official majority for Governor of Ohio is 808. This, together with a Democratic majority in both branches of the Legislature, is a victory in which not only the Buckeye Democrats but the Democracy of the whole country may feel a just price.

THE Constitutional Convention passed a resolution on Monday last for a final adjournment at 2 o'clock to-day. Before the Convention would adjourn it would provide for the submission of the amendments to a vote of the people, which will no doubt be taken about the middle of December.

---WE regret to learn that Ex-Governor Bigler was prostrated by an atattack of vertigo, in the Constitutional Convention, last Friday. At latest overwork, for since Gov. Bigler took his seat in the Convention he has faithfully and dilligently performed all his duties. As a practical and laborious member of the Convention he is not surpassed by any man in that body.

ask, what kind of a government have we now? (Applause, and cries of "Tell us!") We used to have some idea that there was a constitution-(laughter)-and a constitutional government, as I argued when I first made my appearance as a member of Congress. The inquiry formerly was as to the powers conferred upon the Gov- the people, believing their decision of consumption. ernment. It was thought long ago is right. there was a limitation to power, both as to the several States and the general government, under that instrument. Such was the view of Washington, the Father of his Country, who was first in peace, and first in war. and who sacrificed his ease and received no pay for his services; and so thought Jefferson and those great men who framed the constitution. When M'Clure, Liberal Rep. he first came to Congress there were two great parties-the whig and the er, R. democratic. He wished to-day the country was under their control. He feared the people would never again have two such parties. The difference between them was merely this: The democrats contend for strict construction, while the whigs claimed a little more latitude. While these parties were thus opposed they both agreed in the essential principle that there was a constitution. But how was it now or within the last four or six years? When a measure was brought up in Congress and its constitutionality was questioned the reply would be in effect, "Damn the constitution; we've got the numbers." (Laughter.) And while he was here as a friend of the constitution, battling and contending for its existence, the constitution was taken from the archives, torn to pieces and trampled under foot. The query came up. What kind of a government have we? The consequences of the war had fearfully effaced and wiped out the limitations and restrictions of the constitution. The people, therefore, required to be indoctrinated in the principles in which the constitution was established. If the consti- Wainwright, R.; J. C. He then spoke of the increase of plunderers, the people being taxed to subserve the interests of particular classes. This injustice applied to both the federal government and those of the States. He wished it were possible to have an amphitheatre constructed to seat all the people of the country, so that when the cur- mel, D. tain was drawn they could see what was going on.
