death by a piece of meat while eating dinner at the hotel of Mr. Geo. Conrad, in that place, on Friday last, or else died of heart bringing about that much wished for condisease. Both causes have been assigned, and we can't say which was the right one. We with as a day of thanksgiving don't think eating meat on Friday is very

healthy anyhow, though many people differ with us on that subject.

-The cows and the hens seem to have caught the suspension disease from the banks, for fresh butter and eggs are as scarce here and elsewhere in this bailiwick as lawyers are supposed to be in heaven. The fallis of the public money under lock | ing off in eggs, however, will no doubt be overcome as soon as the Democratic roosters get done crowing over the recent election. It couldn't of course be expected that hens would attend to business when there is so

much "music in the air." -If "Tax-Payer" will take upon himself the task of making the expose which he.

thinks ought to be done in a certain quarter, he will find our columns open for any plain, circumstantial statement of facts which he may wish to have published. Until that is done, it is in our opinion, perfectly useless to be throwing driftwood upon the current, only to be carried down the stream and forgotten as soon as it disappears from public view. Let us have facts, plain and explicit. -The gold watch which was up for votes or girl the other day and went to at the recent church fair at Wilmore has sh lat the wife followed and sne- been won by Miss Maggie Egan, of the Viain reclaiming and bringing him duct, the ballots in her favor netting \$191. against \$71 for Miss M. -In a portion of our edition last week we announced the suspension of all the banking houses with which Wm. M. Lloyd, Esq., of Altoona, is connected, including the one in this pla ice. The suspension was caused by the failure on Thursday of last week of Messrs. Lloyd, Hamilton & Co., of New York, to meet their obligations, and, being the first brick in a row of twelve, its fall caused the others to topple over in quick succession. Up to present writing matters remain in statu quo, but the assurance hav-ing been given by Mr. Lloyd himself that the assets of the several institutions are am-

ply sufficient to meet all their liabilities, and a full statement having been promised at as early a day as possible, everybody is, like Micawber, breathlessly "waiting for some-thing to turn up," as we are confident it
