Resolved. That it is the sense of this Conference hereby pledge their respective counties to selections on this principle.

Next in order was the adoption of a resolution instructing the delegate elected to support Robert L. Johnston, of Cambria county, for Judge of the Supreme Court, af-ter which S. M. Woodcock, Esq., was unanimously chosen Senatorial delegate.

Mr. Woodcock having been notified of his election appeared, and in a brief but appropriate address, thanked the Conference for the honor conferred. He pledged himself to represent, to the best of his ability, the Democracy of the district, spoke of the corruption and imbecility of the party in power, expressed confidence in the speedy triumph of Democratic men and measures, and paid a brief compliment to Mr. Johnston. Col Juo. P. Linton followed, congratulating the Democracy of Blair and Cambria upon their union in a senatorial district, referring to their past harmonious intercourse, and predicting a continuous Democratic triumph in thumb joint, inflicting a very ugly wound the District. +40+ THE WATER WORKS MEETING .- In pursuance of a call issued, as per handbills posted, quite a number of the citizens of this place assembled at the Court House on Saturday evening last to take into consideration the propriety, may the necessity, of erecting water works in our town, without further delay. The meeting was organized by calling C. T. Roberts to the chair and appointing T. J. Chapman secretary. On motion, F. A. Shoemaker, Esq., was called upon to state the object of the meeting, which was defined to be the feasibility and best mode of supplying the town with water. The subject before the meeting was discussed by Drs. Evans and Lemmon, and Messrs, Isaac Evans, Geo. M. Reade, and George Huntley.

On motion, the following resolutions were adopted : Resolved. That it is the sense of this meeting that the Council be requested to take such legal measures at the next Argument Court as will anthorize them to erect water works with-in the borough limits, issue bonds to the sum of \$ ____, and levy a tax for the payment of

the same with interest at six per cent. free from taxes-not to exceed the limitation pro-Resolved, That a committee of four be appointed to canvass the town to obtain signa-tures of persons who are wilding to subscribe for Borough bonds for the purpose of erecting said water works, and to obtain the seese of the citizens upon that subject.

The chair appointed as this committee, John A. Blair and F. A. Shoemaker for the West Ward, and David Lewis and T. W. Dick for the East Ward. On motion, adjourned.

Local Corresyondence.

WILMORE, June 23, 1874. DEAR FREEMAN-The most terrible accident it has ever been my province to report occur-red to the first local freight train west on Fri-day afternoon last. It appears that the train had been running at the rapid rate of 25 miles an hour, or thereabouts, and while rounding a sharp curve at the eastern terminus of the third track, which is distant about one mile from this place, the engineer, Mr. John Gray, discovered a cow (which it is said an eastern bound freight train had disabled) lying on the track, and immediately gave the signal to put down ikes, when, seeing that the cow did not stir and that an accident was inevitable, he told his fireman to jump for his life, he himself leaping from his engine without further delay. The comotive struck the cow in an instant after and was thrown from the track and precipita-ted down an embankment of about twenty et, the cars to the number of twenty-two be ence that the Senatorial delegate should be conceded alternately to Blair and Cambria counties, and that the members of this Conference hereby pledge their respective counties When some men who were arranging the plat-forms for a pic-nic to be held on the following day in a grove near by, and who had witnessed the terrible disaster, reached the scene of the wreck they found the engineer lying dead on the track, with one side of his head crushed to a jelly and his boweis torn out. His vest and watch were found about twenty feet further lown the track, thus indicating that his death been caused by the cars which had been hurried onward by the force of the collision.
Almost immediately grouns were heard proceeding from beneath the wrecked engine and the debris with which it was literally covered, and ere long the fireman, Keyes Pringle, son of Mr. Daniel Pringle, of Conemaugh, was discovered lying under the boiler head, his leg broke and his face and body shockingly scalded ar rned by escaping steam and the heat of the furnace. One hour and a half clapsed before he could be extricated, after which he was con-veyed to the residence of Rev. — Woodward this place, where he died about six o'clock the same evening. Both victims belonged to Conemaugh, where Grey leaves a wife and one or two children. Pringle was a young man. only twenty years of age, and was unmarried. Both men bore excellent characters. These two were the only persons killed. One or two others were injured, but not seriously. The secne of the accident is on the same spot where a disastrous oil fire occurred several years ago, and within a few rods of the place where engineer Green was killed last summer. The locomotive, No. 334 was the same one which call motive. No. 334, was the same one which colli-ded with a large rock near Wilmore station e seven years ago, and subsequently ran off with engineer James Doran down the eastern slope of the mountain. Mr. Pringle's remains were interred in the family cemetery on Pringle Hill, a short distance from Wilmore, on Sunday, while those of Mr. Gray were taken to Jackson township for burial. Old wreck hands say that this was the worst smash-up they were ever called upon to clear away, and the only wonder is that more lives were not sacrificed. The pic-nic announced through your columns came off at this place on Saturday last. Everyhing considered, it was the most quiet and or derly assemblage of the kind ever got together in this vicinity. Gross receipts somewhat over

The weather is so dry here at present that it would require a canal similar to those in Cali-fornia mentioned by "Rob Roy" to irrigate the farms in Summerhill township. If the drouth continues much longer there will be very ligh crops of hay, oats and fall grain in this neigh-borhood. Corn is about the only thing that is doing any good, and even that would be the better of a heavy rain.

LIVERMORE, PA., June 22, 1874. DEAR FREEMAN-Thinking that a few items from this part of old Westmoreland might be of some interest to a portion of your readers at least, I take the present opportunity for giv-

ing them. Livermore is situated about five miles west of Biairsville, or Saints' Rest as it is generally termed by writers, on the left bank of the romantic and picturesque Conemaugh river, and contains between two and three hundred inabitants. There are two churches-Methodist and Presbyterian-two schools-the Livermore Academy and a common school—besides several stores, workshops, etc. A great deal of country produce is bought and shipped from this place, which, as you probably know, is in the midst of an excellent farming community. Horses, cattle, sheep and hogs are also shipped pected that a coal shaft will be sunk near the town before a great while, which will benefit the place considerably, as it will have a tenden-cy to draw capital and increase labor in this di-

Just here the spirit moves me to say to Cambria county farmers that if any of them wish to purchase farms outside of their own county or settle in another locality, they would do we to visit these parts and take a "bird's eye view

not yet dissgraced this section of the old mother county. Westmoreland, though in other regions they seem to be making rapid beadway. The "buggers," however, have taken the place of the "grangers," and as a consequence our "murphies" suffered muchly for a time. At present writing the old crop is pretty nearly "kerflumexed," though we have every assurance that the new crop will not fall short of the most sanguine expectations. Cremation will then be in order once more. The crops here, barring the potatoes, will be splendid this year, especially the wheat yield, which will be the largest that has been garnered for a number of years. Farmers are already preparing for the harvest, and aithough large crops are raised here, we have the advantage of all kinds of machinery in gathering the har vest, the land as a general thing being level and well adapted to machinery.

In looking over the FREEMAN I see that great preparations are being made in various parts of your county for a proper celebration of Inlependence day. As Cambria is rather elevated. I presume the spirit of liberty up there is of proportionate attitude; yet I hope, while freely admitting that the patriotic feelings of the people could not be more clearly manifested than in such old fashioned jollifications as are contemplated, that those who participate will not get elevated by a too generous indulence in "bug juice." Having already taken quite a liberal share of

your valuable space, I will close for the present. Yours, truly, C. B. W.

LORETTO, June 20, 1874.

DEAR FREEMAN-On the 17th and 18th insts. a pic-nic for the benefit of the Loretto Cornet Band came off in the grove convenient to our neat little borough, and as a paragraph for th renders of the FREEMAN respecting I in some degree interesting, I take the o state the following particulars: The Loret-o Cornet Band, although but a comparatively thort time in existence, has made astonishin progress under the competent instruction of Prof. P. J. Bruddock, and when experience has developed the musical talent which this band is known to possess, there is reason to believe that they will bear successful comparison with any band in our larger towns and cities. The occasion which called together the good people of Loretto and other localities, on Wednesday and Thursday last, was one which afforded in nocent recreation exceedingly enjoyable under the cool and refreshing shade of the lofty oaks. whose foliage constituted a natural canopy against the rays of a solstitial sun. To the sweet strains of the violin many gay-hearted cotaries of Terpsichore moved gracefully on the "light fantastic toe," the spacious horizon-tal surface of the platform affording ample ac-commodations for the exercise of those evolutions in the lively cotilion. The Band played several soul-stirring airs, among them those so gratifying and congenial to our Irish element, "St. Patrick's Day" and the "Wearing of the Green." Everything passed off pleasantly, for good order, cheerfulness and the utmost enjoy-ment were the characteristics of the nice and neat pic-nie for which the Loretto Cornet Band is entitled to a large meed of praise from their many generous friends in and around this section of the Alleghenies.

ATTENTION, FARMERS !! IT gives me pleasure to inform you that I again have the agency this season for the

TWO BEST Mowing and Reaping MACHINES ever brought before the public.

THESUPERIOR has a SCREW POWER, has no cog graring. STATPLE, NOISELESS, DURABLE, and a pow satisfaction they have given, it is expected the same of these Machines this year will double those of any previous serson. The REAPER ATTACH-MENT to it also HAS NO SUPERIOR.

The Improved Iron Frame BUCKEYE has been before the public about ten years, and the fact that there are over ONE HUNDRED and TWENTY THOUSAND in use at the present time, with a largely increased yearly demand for them, is a better recommendation than penceum indite. They are very simple, strong, durable and light running; and if you want a REAPER ATTACHMENT at any time, you can have a selection out of four different kinds which the Chupany manufactures.
