-An incident of the Jack Evans order recently occurred at Poughkeepsie. A woman was crossing the railroad track utterly oblivious of the express train that was rushing down upon her. Men hallooed to her, but she did not hear them. and in a few seconds more she would have been run down and crushed. An engineer of a switch engine, seeing her peril, reached her in two mighty leaps, and seizing her by the waist, drew her out of danger. As should not be surmounted by the flag of turned and struck the engineer a soundsoon as her feet touched the ground she ing blow on the cheek, then realizing her position and the imminent danger she had been rescued from, fell upon her knees and wept. Persons afflicted with poesy are requested not to use this as a theme

-A wager was made a few days ago among a number of workmen in a steam Planing mill in West Chester, that one of LAST ing-room of the mill, which has a constant temperature of about 1490, for a period of one hour. The man accepted the bet; the "stakes," which were only one dollar a side, morrow evening should the Department be within a few days. He will have charge and the heated apartment under the mill successful in saving their valuables. The of the defensive works, and will also su- was entered, and the test of endurance beprincipal lines of the Western Union Telefor the stipulated time, but the lear, guint emaciated figure that came out of the furnace required more than a dollar's worth of provender to supply the loss of flesh which the hour's experience at reasting alive had occasioned.

## The state of the s Ayer's Cherry Pectoral, For Diseases of the Throat and Lungs,

such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

discoveries of modern science, few are of more real value to nankind than this effeetual remedy for all diseases of the Throat and Lungs. A vast trial of its virtues, throughout this and other countries, has surely and effectually

cure the afflicting disorders of the Threat and Lungs beyond any other medicine. The most dangerous affections of the Pulmonary Organs yield to its power; and cases of Consumption, cured by this preparation, are public ly known, so remarkable as hardly to be be lieved, were they not proven beyond dispute. As a remedy it is adequate, on which the public may rely for full protection. By curing Coughs, the forerunners of more serious disease, it saves unnumbered lives, and an amount of suffering not to be computed. It challenges trial, and convinces the most sceptical. Every family should keep it on hand as a protection against the early and unperceived attack of Pulmonary Affections, which are easily met at first, but which become incurable, and too often fatal, if neglected. Tender lungs need this defence; and it is unwise to be without it. As a safeguard to children, amid the distressing diseases which beset the Throat and Chest of childhood, CHERRY PECTORAL is invaluable; for, by its timely use, multitudes are rescued from premature graves, and saved to the love and affection centred on them. It acts speedily and surely against ordinary colds, securing sound and health-restoring sleep. No one will suffer troublesome Influenza and painful Bronchitis, when they know how easily hey can be cured. Originally the product of long, laborious, and successful chemical investigation, no cost or toil

zens, of all classes, establishes the fact, that CHERRY PECTORAL will and does relieve and

possible perfection. It may be confidently relied upon as possessing all the virtues it has ever exhibited, and capable of producing cures as memorable as the greatest it has ever effected. PREPARED BY Dr. J. C. AYER & CO., Lowell, Mass., Practical and Analytical Chemists.
