MERITING and SECURING the Patronage of all classes of the Community to a degree nevel before enjoyed by ANY one House in any department of trade III Sure to commend itself ALL THOUGHTFUL FOLK

Thirteen years of interested and eager observation of different methods of doing business, while establishing and extending the largest clothing trade in the United States, have brought us to the following conclusions: 181 That a customer has a right to some granavier that his purchase shall prove exactly as represented. 2d. That Cash throughout is the only basis consistent with the very lowest prices, as credit in every case necessitates higher prices to cover losses by had debts, interest, law suits, hire of collectors, increased number of book keepers, etc. 3d. That, though justice does not require it, comfort and actual security in dealing are greatly promoted by giving to the purchaser the privilege not only of exchange of goods, but of returning the same within a given time, and have promptly prid back the cash in full. 4th. That all customers buying at the same time, should pay precisely the same price for the same quality of goods. 3-th. That the interest of customers will be best served by abandoning the practice of paying salesmen a percentage on each sale, as it leads to "hurrying up," and sometimes 'over persuading" buyers to take goods with which they are not fully or fully understand the clerks, a Label, made under the author ty and guarantee of the firm, bearing a printed description of the name and quality of the goods, should be attached to each article.

Business ment thoroughly bent on upright dealing, have been thinking over, working out and experimenting on propositions similar to the above, and here and there is an establishment which has accepted one or another of these conclusions, and ordered their business accordingly—one "Cash," another "One Price," Ac.—but WE VILLATINGLY ADDOPLY TIESM ALL, and confidently relying on the approval and support of an intelligent and discriminating public, we inaugurate what we believe to be the best system in the world, and we now announce One Price, Cash Payment, Cash Beturned, and Full Guarantee, as the FOUR CARBINAL POINTS by which we shall hereafter Because advantageous alike to both buyer and seller.

EXPLANATION AND ELABORATION

OF WANAMAKER & BROWN'S NEW PLAN.

Houses doing a credit business must provide for losses on bad debts, interest on long-standing accounts, eapital locked up, etc. To bear such losses themselves would drive them out of business. Therefore a per cent. is added to the price of each article sold, to cover this leakage, and Gash Buyers whether they know it or not, really pay the bad debts and the interest on the long credits of the other customers!? Under the Cash Payment system one pays only for what he gets, and contributes nothing to a "Sinking Fund."

By this Radical Change we shall lose some of our customers no doubt, but we will gein ten where we lose one, the advantages being so great to all who can avail themselves of them. So we say

CASH THROUGHOUT.

Bring Money for Clothing, and we will supply it at prices possible under no other plan.

The foirness of this feature of our plan all will proise. It is simply treating all allke-exacting nothing from indisposition to bargain or ignorance, and, at the same time, conceding all that shrewdness on the shrewdest customer's part could possibly extort, because the "One Price" which we mark on price." NOT the "First" Price, but the LAST and LOWEST PRICE. NOT the "TOP" Price, but the VERY BOTTOM PRICE.

In other words, Salesmen or "Headmen," have never been allowed, under ordinary circumstances, to fail below a certain figure! It is at that, or at a lower figure that we now determine to mark our goods, calculating the cost to the exact penny, and fixing the price at the low minimum profit on which business on a large scale can be conducted.

We know that the larger business we aim for and anticipate, will require a large increase in the number of customers, and we shall therefore see to it that the "One Price" is based on the Smallest Profit, calculated to the exact and lowest penny, which will not be difficult to do with universal Cash Payment for the rule. The price will be marked in plain figures and no alteration allowed. NOTE.—Whenever the exigencies of the season, the state of trade, or the money market may demand, the right is received to go through our stock before or after business hours and mark down any lot or lots of goods, changing the figures on all the labels, so that the new rates are the same to all, and all buy alike at the mark down prices.

WANAMAKER & BROWN WILL NEVER HOLD THEIR GOODS.

A printed Guarantee, bearing the signature of our firm, will accompany each garment as a Warrantee. This binds us in every sense, and will be honored as quickly as a good draft of the Guarantee," Government of the United States. This is a sample of the Full Guarantee, and tells its own story :

GUARANTEE.

We hereby guarantee 1st. That the prices of our goods shall be as low as the same quality of material and manufacture are sold anywhere in the United States.

That the prices are precisely the same to everybody for same quality, on same day of purchase,

DATE,

That the quality of goods is as represented on printed labels.

That the full amount of each paid will be refunded, if customers find the articles unsatisfactory, and return them unworn and uninjured within 10 days of date of purchase.

46 POINT. This is simply a concession on our part to our customers, to secure them full confidence in dealing Cash for goods they know very little about, and we thus prevent any occasion for disastisfaction from any Zetarned' and every cause whatsoever. If the garment is not exactly what you thought, if your taste changes, if the "home folks" prefer another color or another shape, if you find you can buy the same material and style elsewhere for less money, if you conclude you don't need it after you get home, if the season changes suddenly and you wish you had not bought it, bring it back unworn and uninjured, and the full amount of money you paid will be returned on the spot. What more can we do for our customer

> as with a check on the bank? THE ADVANTAGES

than this, when we make our clothing so that they can draw the money value with it equally as well

incident to a system having for its cardinal points these which we have now explained, are simply innumerable. Saving of time and temper, perfect security, absence of all huckstering, &c., &c., &c., &c. But above all this

IT MAKES CLOTHING CHEAP

Sinking the prices several degrees below what they have been heretofore, or could possibly be under the old By dispensing with certain clerks no longer needed, it reduces "Store Expenses."
By enforcing CASH Payments, the bad debts are avoided.
By putting plenty of ready money in hand, it enables us to buy goods at figures that credit man know nothing about

By increase of sales, a smaller profit on each article is sufficient CHEAPNESS,

and this without lowering the quality or style of our Celebrated make of Men's and Boys' Clothing. SOME OTHER THINGS

Wherein our plan differs from others:

(a) It combines all the good points which exist, separately, or in partial combinations, and it adds some new and important features.

(b) It gives such a guarantee as no house in the world, to our knowledge, ever ventured to give as a rule.

(c) It makes our goods equivalent to checks on a bank, whenever they are presented unworn or uninjured.

(d) It has the great advantage of an immense business already established, to sustain the "New Constitution," and under no other circumstances could so many radical concessions to customers be made.

We have for years been working towards the present point, and though naturally falling into the current methods of trade, we observed and noted the defects of the old systems, and have been carefully weighing for a long time these newer plans, and y paring for this

ENTIRE CHANGE OF BASE

Investigation is asked into all we have here put forth.

Staking the hard-earned and fought-for reputation of our house (of which we confess we are proud) on the new, and in many respects Original Plan, we launch the Oak Hall Craft on SATURDAY, OCTOBER 3d, 1874.

bound for the Fall Trade, and by all our experience in trade, and all our knowledge of human nature, we are led, to anticipate that Marvellous and Unprecedented Increase of Business for which are are well prepared. Our warehouses, comprising 2; spacious rooms, are stocked to the full—our bound mills have been turning out large quantities of goods to us that are now in store, and Foreign fabrics by the ship lead are now on our counters. Our workmen have been a small army, and as difficult and skillful as they are numerous. With the improvement already noted, there are also new purples, new cuts and more careful finishing. Everything possible has been done to meet and gratify the rush, and now LET IT BEGIN.
