THE Pemocratic State Committee, at its meeting vesterday week, decided that the next State Convention should be held at Erie, on Wednesday, the 8th of September. Believing as we always did in the policy of short and sharp political campaigns, the time fixed is proper, though our own opinion is that State Conventions should invariably be held at Harrisburg. However as that question has been definitely settled, it does not now admit of any discussion. The Republican State Committee met on the same day and fixed on Lancaster as the place and Wedgesday, the 26th of May, as the time for the meeting of its convention. Candidates for Governor and State Freasurer are to be nominated by both.

"FOR TO BE SOLDIERS." Among the number who were fired with martial glory and patriotism were Francis M. Green, Samuel Dickinson, Benjamin Crance, John Pontzious, and Mitchell Havenor. They enlisted in the Forty-first Infantry, Colonel Isaac Pugh, and when an election washeld, Green was made a second lieutenant. His reputation being that of a good man, on the first occasion he was promoted to the captaincy of Company I. He served the full term of three years, Dickinson, Crane, Pontzious, and Havenor remaining with him, and all being mustered out together with honor. Occasionally thereafter a report would break loose concerning some irregularity in the foraging line committed by Company I while in service; but the impression being that such things were matters of course in the army, little attention was paid to the ru-

A Mysterious Conspiracy.

HOW ONE INGENIOUS JACKASS PRIGHTENED SEVERAL HUNDRED PROPILE.

A few years ago a reporter who was badly

off for items invented and published in one of our morning papers a story to the effect that a man dressed in India-rubber haunted the streets of the upper part of the city after night fall, for the purpose of strangling women and children whom he encountered. After drinking their blood he would bound over fences fifteen feet high and disappear. Plenty of foolish people believed e varn, and for awhile a panic prevailed. Some other brilliant genius has just invented another terrible tale for the purpose of curdling the blood of nervous old ladies and timid young girls, and we are given to understand that in some of the schools-the Girls' Normal School among them-the matter is just now discussed in a wful whispers and with horror-stricken faces. The report is that the amiable Irishmen who ropose to honor the memory of St. Patrick on the 17th inst. have conceived a dark and deadly plot against the peace of the city; that it is their intention, during the parade, suddenly to break ranks, to bring forth from beneath their coats, pistols and battering rams and barrels of petroleum and otherawful weapons of war and incendiarism, and thereupon to proceed to sack the city. Oonoxious persons, and particularly all persons of English birth or descent, are to be butchered in cold blood, their houses are to be consigned to the flames, and all their relations, to their remotest aunts and most distant cousins, are to be hung in rows upon the telegraph wires, a prey for the kites and crows, if the kites and crows happen to come around in a hungry condition. One of the details of this fiendish conspiracy is that the bouses of the doomed ones are to be marked; and the sensational rascals who invented the story actually have placed marks with chalk man whole rows of houses in the upper portion of the city. Hired girls who see these mysterious signals go up stairs in tremor and pick their trunks so as to be ready to move at a moment's notice; and boys who observe these marks invest their to Dr. Newman and Archbishop Manning savings in brass-barreled pistols and bows and arrows, while they try to decide whether to stay and beat off the ferocions hordes which threaten the lives of their families, or to go West and die glorious in an effort to exterminate the Indians. Meantime the ishmen, who are to do all this inhuman butchery, to clog the gutters with gore and wade knee-deep in blood, are unaware of the frightful things that are expected of them, and they are preparing for perfect lina, has filed a petition in bankruptcy, calmness while their victims are shudderng. If the Legislature could give everybody ordinary common sense by passing a law for the purpose, it would be a good thing to insist upon an enactment of that character at this juncture.-Philadelphia
