Cotton Turned into Silk.

PAUD MAGNER'S DISCOVERY AND WHAT he is a shrewd business man and that CAME OF IT. he has administered the affairs of his A few weeks ago there arrived in this in the town of Jackson. It is thus described department with clean hands. A very recent occurrence, however, shows that city from New Orleans a dapper little Frenchman named Paul Magner, accom- named William Herron was out walking panied by a Tentonic friend of riper years, Dr. Edward Kuneman. The former had been a practising chemist in New Orleans,

of his own folly, which Radical papers and claimed to be the discoverer of a wouare boasting of as proof of his won- derful process by which flax or cotton fibre could be converted into silk, or into a textare so nearly like silk as to defy all ordinary inspections and tests. The results of session, authorized the appointment of this process-of which the Frenchman a committee of seven of its members alone had the secret-had already been ex- the perfect form of a human hand. Caphibited by sample to a limited circle of manufac urers and experts at the South. So thorough and deceptive was the change which it accomplished that the majority of such persons could only imagine a fraud. sumption that the specimens submitted to them by the Frenchman were other than genuine silk, which, they insisted, he must have substituted adroitly for the flax and as well as to himself, that a most thor- cotton varus that he professed to have ough and searching investigation transformed. But Paul Magner was a chemist of some reputation. He claimed that he had devoted long, patient months to the analysis of the various fibres. In the eccoon of the silkworm he had identified certain elements which were wanting These elements, chemically obtained, he claimed to be able to apply to the latter products in such manner that they should be converted into an article which must be regarded as silk in all that the name implies. Parcels of cotton and flax varus. accurately weighed, distinctively marked and otherwise identified, had been passed into his laboratory by the dozen, and within fifty minutes be had returned corresponding ones of lustrous silk! The latter had even been analyzed by expert chemists, and certified not to be real silk, but to be veritable cotton and flax parns aforesaid.

THE INVENTOR COMES TO NEW YORK. A few persons accordingly were led to believe in M. Magner and his process .-Among others was a New Orleans agent of

SKETCH OF THE CITY OF OSHKOSH .-Oshkosh, Wisconsin, the burning of which has recently been announced, has a population of about 9,000, and is the capital of Winnebago county. It is situated on both sides of the Fox river, at its entrance into Lake Winnebago, on ground that slopes gradually toward the lake and river. Iminto Lake Butte des Morts. Lumber and agricultural machinery are the principal manufactured products. There are in the city seventeen sawmills, cutting over 50,- last. 000,000 feet of lumber annually, besides Lath and pickets; six shingle mills, making a pleasant little income from marriage fees. three sash and door factories, one fence factory, three flour and grist mills, three grain warehouses, two foundries and maschine shops, one railroad machine shop, \$2,000 in cash, and the deed of a farm two tanneries, three breweries, three printing offices, publishing two weekly and one means of the Fox and Wisconsin rivers and the works of the Fox and Wisconsin Improvement Company, it is connected then killed himself. with Green Bay and the waters that flow into the Gulf of the St. Lawrence on the

THE NEW LICENSE LAW .- The Elmira Advertiser in a late article upon the new license law of this State justly animadverts upon the provision contained therein which is intended to prohibit-or at least to obstruct—the sale of liquors in this State from dealers outside. It is fair to lay the blame of this outrageous provision upon the Senate, which tacked the provision, as an amendment, to the bill as it originally passed the House. But the House refused to concar in the Senate amendments, and burning, heretofore announced, was a case the result was a reference of the matter to of martyrdom. In getting out of bed to a conference committee. One of the con-procure relief for a toothache she upset the cessions to the Senate, agreed upon by the amp and set fire to the bed. Her first conference committee, was that the provithought was not of herself but of some sion above referred to should stand. The Advertiser alludes to the fact that Skinner & Russell, wholesale liquor dealers at El mira, have hitherto had an annual trade in this State of forty thousand dollars, and, if there is any real force to the aforesaid provision, they would in a large measure be cut off from their trade in Pennsylvania.

All that we need to say in reference to this intended probinition is that it is practically a dead letter, and, as it ought to be. will be wholly disregarded by the trade,-If it is lawful for anyboby to sell alcoholic liquors in this State by the wholesale, the begislature has not the power to resrict such legal privilege to persons residing within the State. If the legislature possessed such a power with reference to the sale of fiquor, it could just as well estabgratefully, "That feels good: I can never lish a somiar prohibition against the sale forget you, doctor." It was evident that in this State of any other class of goods by her injuries were fatal, and that all that persons residing in at adjoining State. fulmen, and we trust will be heeded by no one .- Tituscille Courier.

> ANTE-REVOLUTIONARY DEEDS .- The Wilmington (N. C.) Journal says: "It has been suggested, and we think the suggestion a capital one, that the delegates from the Cape Fear section appear in char- he is sometimes called, is now living on a acter at the centennial celebration at Char. farm three miles from Pittsburgh, and like lotte next month, as representatives of an an bonest man attends to his own business overt act of resistance to British authority, made ten years previous to the battle of Lexington. True, the act on the Cape Fear resulted in none of the bloodshed which characterized that in Massachusetts; over the demise of her husband. The inbut it was none the less daring in conception and bold in its execution. We refer and left to the cold charity of the world to the refusal of the patriots to allow the two children, one aged two years and the those things that used to happen British sloop-of-war Diligence, which appeared in the Care Fear river early in the year 1765 with stamp paper for the use of the colony, to land the paper. They not only did this, but they seized a boat belongs ing to the vessel, hoisted it on a cart, and were arrested, who are supposed to have with a flag floating from her mast, proceeded in triumph to Wilmington. The act was greeted with tumultuous applause by the citizens, and that night the whole town was illuminated. The next day the people, headed by Colonel John Ashe, of New Hanover, and Colonel Hugh Waddeli, of Brunswick, proceeded to the governor's palace and demanded that he desist from all attempts to execute the stampact. The governor at first refused, but finally yielded when he saw the preparations made by the people to burn the house over his head. Houston, the stamp master, was then produced and was taken by the people to the head of the market house, where he was made to take a solemn oath not to attempt
